FORTY-SEVENTH
ANNUAL REPORT
OF THE
RECEIPTS AND EXPENDITURES
OF THE
CITY OF CONCORD

FOR THE YEAR ENDING

DECEMBER 31, 1899.

TOGETHER WITH OTHER ANNUAL REPORTS AND PAPERS RELATING
TO THE AFFAIRS OF THE CITY.

CONCORD, N. H. :
IRA C. EVANS, PRINTER, 12 SCHOOL STREET.
1900.

MUNICIPAL REGULATIONS

FOR PAYMENT OF BILLS AGAINST THE CITY.

All persons furnishing materials or service for the city, or aid to the city poor, should be particular to take the name of the person ordering such service, material, or aid, and should *know* that the person is duly authorized to contract said liability.

The city will not be holden for merchandise sold or delivered on city pauper account, except on the written order of the Overseer of the Poor, and for no longer time than until his successor shall have been appointed and qualified.

Duplicate copies will be required of all bills payable by the city, furnished on county pauper account.

All bills against the city must be approved by the person authorizing the charge; and unless this is done, no action can be had upon the bill by the Committee on Accounts and Claims, and no order will be given for its payment.

Bills so certified should be left with the City Auditor on or before the second day of the month.

If approved by him and by the Committee on Accounts and Claims, they will be ready for payment on Thursday following the regular monthly meeting of the City Government.

The regular monthly meetings of the City Government occur on the second Tuesday of each month.

JAMES H. MORRIS,
City Auditor.

MAYOR MARTIN'S INAUGURAL ADDRESS.

Gentlemen of the City Council:

We stand at the beginning of a new administration. With a few exceptions we are new members, and inexperienced in municipal government. At the start, it is well for us to appreciate the fact that our responsibility is great, that the difficulties of municipal government are many.

It is well for us to understand that an indifferent attention to the affairs of the city will not produce good results, and that only by most careful attention to and consideration of, all matters relating to the welfare of our city that shall come within our province, can we attain even a fair degree of success. We are not responsible for present conditions, but we are responsible that through no mistakes of ours does the city suffer for the next two years.

It is natural that we look back upon the administrations of former years for information that may be useful at this time, availing ourselves of every aid that may tend in any degree to fit us to perform the duties required of us.

I shall not attempt a long review of the city's affairs, but shall call your attention to the main features thereof, and to some of the responsibilities we are to meet—I trust faithfully and impartially—forgetting the differences in politics which made our election possible.

In the last thirty years, great improvement has been made in our city. Within that period, the city water-works have been constructed, substantially all the sewer system of any value has been laid; many miles of streets have been opened, streets widened and improved and better lighted; many miles of concrete laid, forming substantial sidewalks; new bridges

built; handsome and substantial public buildings have been erected; so that in these respects Concord is to-day one of the best cities in the United States. These improvements, however, have cost an enormous price. Attached to each is an annual expense, which reached in the year 1898 more than \$350,000.

Expenditures have steadily increased. Let me call your attention to a few figures, which, although uninteresting reading, state stubborn facts:

In 1888 there was raised as county tax	\$24,418.65
In 1898 the county tax was	42,200.69
In 1888 there was appropriated for fire department	11,450.00
In 1898 the appropriation was	20,000.00
In 1888 for highways, bridges, and sidewalks	24,500.00
In 1898 appropriation for same	35,000.00
In 1888 the appropriation for the police department	6,000.00
In 1898 the appropriation for this department was	11,656.00
In 1888 salaries were	7,500.00
In 1898 salaries were	10,852.00
In 1888 water department collected	38,441.32
In 1898 this department collected	59,147.54

The list might be extended with the same result. If this policy continues, the outcome can be seen by the blind. I believe in being liberal, not extravagant. I believe the affairs of the city should be managed with the same care and thought that a good business man exercises in managing his private business. The tendency to increase expenses must stop. Taxes should not be increased. It is our plain duty to lessen the burden of public expense, and to see that the bonded debt of the city does not increase.

DEBTS.

The city has a bonded debt of	\$943,556.00
A floating debt of	13,400.00
Total debt	<u>\$956,956.00</u>

The practice of deducting "available assets" from the bonded debt is misleading. The available assets are not available for the payment of the bonded debt, but for the running expenses of the city.

If the West End schoolhouse is constructed in accordance with the vote of the Union School District, the bonded indebtedness will be increased \$24,000.00.

CITY DEPOSIT.

During the past year, there has been an average monthly balance to the credit of the city of \$40,608.00. This balance should have been drawing interest, and at the rate offered to, and rejected by, the last city government, would have brought the city the sum of \$812.16,—an item which should have been saved.

TRUST FUNDS.

The city holds the following trust funds:

The Abial Walker trust, for the benefit of the school fund	\$1,000.00
(The income of this fund is paid to the city.)	
The David Osgood trust, for the purchase of school-books for poor children	200.00
(Inasmuch as the city now purchases all school-books the object of this fund has lapsed.)	
The Countess of Rumford trust, for the benefit of the Female Charitable Society	2,000.00
(The income of this fund is paid annually to said society.)	
The G. Parker Lyon trust is	1,000.00
The Franklin Pierce trust is	1,000.00
The Thomas G. Valpey trust is	500.00

These three funds are for the benefit of the public library, the income being paid over to the city annually, which lessens the amount of money necessary to be raised by taxation for the support of the library.

CEMETERY FUNDS.

From the sale of lots, there is credited to Blossom Hill cemetery, Jan. 1, 1899, \$17,025.37; the old cemetery, \$715.00; West Concord cemetery, \$275.00; East Concord, \$202.50; Milville cemetery, \$200.00, making a total of \$18,417.67.

There are at the present time 114 different trust funds, left by individuals for the care of their respective cemetery lots. The aggregate of these funds is \$15,314.53, making a total cemetery fund of \$33,732.20.

The trusts which go to make up this aggregate are invested in various securities, the greater part being in city bonds, and in savings banks. Each fund, and the income thereof, is kept separately.

It is reasonable to suppose that eventually more or less of these funds will be lost by poor investments. It would be much better if all these could be paid into the city treasury, and the city become the debtor, allowing a reasonable rate of interest annually upon the same, the income to be used in accordance with the terms of the trusts.

The city will always be in debt, and these funds could be more safely invested in the city than elsewhere; therefore, I recommend that action be taken toward securing a public statute to be passed by the legislature, authorizing the change of the investment of these funds, so that the city can become the debtor, the act fixing a definite rate of interest to be paid by the city.

A statute of this kind would inspire confidence in donors, prevent the loss of any of these funds, lessen the labor of caring for the same, and in every way be more desirable than the present manner of investment.

DISCOUNT ON TAXES.

By section 18, chapter 60, of the public statutes, towns are authorized to direct a discount to be made to the persons who

pay their taxes before certain dates, and persons who pay prior to such dates are entitled to such discount as the town directs. It has been customary for a number of years for the city to allow discounts on taxes paid before certain dates to an amount in some instances of 3 per cent., but usually $2\frac{1}{2}$ per cent.

This practice imposes an unequal and unjust burden upon all taxpayers who are unable to pay their taxes before the time for discount expires.

The assessors each year raise a certain sum by taxation to meet these discounts. It is readily seen that taxpayers who are unable to secure the discount pay a portion of their more fortunate neighbors' taxes. The only reason that I am aware of which is urged for allowing a discount is to induce people to pay their taxes earlier; and thereby, in some instances, save the city from hiring money temporarily. This reason is not sound. The discount allowed always exceeds the amount of interest which the city would have to pay.

There is no just or valid reason for such a discount, and I therefore recommend that no further discount be allowed.

RENTS.

The city at the present time is paying the following for rents:

Water office	\$300.00
Liquor agency office	283.00
City engineer's office	204.00
Commissioner of highways	108.00
Board of health office	108.00
Mayor's office	180.00
Tax collector's office	100.00
Police office at Penacook	108.00
Shop at Penacook for water-works	24.00
Cemetery commissioners' office	25.00
Land for sand shed	12.00
	<hr/>
Making a total of	\$1,452.00

The greater part of these rents can be saved by utilizing, at a small expense, Ward Five ward room, and the unused offices in the City Hall building. Ward Five ward room can be made into three good offices, which would be suitable for the city engineer, commissioner of highways, and the tax collector. The board of health and health officer can be furnished suitable offices in City Hall building.

The cemetery commission, for such meetings as they may require, could meet in the common council chamber.

The mayor's office could probably be provided for in City hall.

Perhaps the offices in City hall would not be considered as convenient in some respects as offices in the central part of the city; but once established, I think the people would be practically as well accommodated.

Certainly the proposed location of offices in Ward Five ward room would be an improvement on the present location of those offices.

COMMISSIONS.

The different commissions at the present time consist of the board of water commissioners, board of park commissioners, board of cemetery commissioners, and the board of police commissioners. The three first-named boards serve without compensation, and their services are important and valuable to the city. They have the expenditure of over \$65,000.

A city ordinance passed March 19, 1897, provides that each member of the board of police commissioners shall receive for his services the sum of \$50 per annum. In view of the fact that all other commissioners serve the city without compensation, I recommend placing the board of police commissioners on the same basis, and the repeal of the ordinance fixing their salaries.

The board of police commissioners had four meetings in 1897, and two in 1898. In 1898, nothing was done except the appointment of a few special police officers. The appointment of these cost the city \$150.

POLICE DEPARTMENT.

By chapter 182, laws of 1893, the power of the board of mayor and aldermen in relation to the appointment and removal of police officers was taken away and given to a board of police commissioners, who are appointed by the governor, with the advice and consent of the council.

This law deprived the city of the right to choose its police officers. It is urged in support of this law, that it takes the police department out of politics. If this result has been accomplished, and is desirable, why not change the constitution and laws, and have a commission to choose aldermen, councilmen, city clerk, and all other city officers, and take those officers out of politics?

There is no apparent reason why a city should not control the appointment and removal of its police to the same extent that it controls the election of other officials. The people are fully as competent to choose their police officers as to elect other officers. They should choose their police officers and remove them when occasion requires. There is no doubt in my mind that the police department would be more efficient under the control of the city than under a commission.

The present police force consists of a city marshal, assistant marshal, captain of the night watch, and eight regular police and night watch.

Two of these police are detailed for Penacook. I have made a careful investigation and have come to the conclusion that a day police is not needed in Penacook. I have also investigated with equal care the duties and work required of the police officers in the central wards; in my judgment the central wards can be properly policed with two less officers.

Nearly all the arrests made, except in Penacook, are made on Main street. There is seldom a disturbance away from the business part of the city.

I find by talking with residents of the North, South, and West ends of the city that a general impression prevails that it is unnecessary to patrol those sections during the entire night.

At the present time there are three regular night watch between Freight and Centre streets, which would seem to be ample protection for that section. The occasional passing of a policeman through back streets appears to be of little service. If a burglary were planned for such streets, it would be committed after the policeman had passed. Fires are usually discovered by some occupant of the building on fire, or by some near resident.

I think it would be well in making the appropriations for the coming year to provide for three less policemen. If this should prove to be a mistake, it is one which can be easily and quickly remedied.

I see by the report of the city marshal that he recommends the building, by the city, of a stable for the accommodation of the police horse, wagon, and ambulance. I have given sufficient attention to this matter to find, and have found, that the care and feed of a horse, the care of the wagon, ambulance, and harness, and the pay of a man to take charge of the same, would cost at least three times the amount now expended for the same service, not including the interest on the investment, or the cost of the stable.

There are stables convenient to the police station where the police team, ambulance, and harness can be cared for by the owner of the stables, as for other patrons, and for the ordinary expense charged to private individuals.

No sufficient reason appears why this additional expense should be incurred for this department.

FIRE DEPARTMENT.

The efficiency of the fire department is well known and universally acknowledged. The men are fully equal to the position, and to the duties required of them. Regarding the department, I have no criticism to make.

After a careful investigation of current expenses I am unable to see where any considerable saving can be made. The opinion has been expressed that the appropriation, \$20,000, for this department, is a large one. Of this sum,

\$13,812.16 was paid to the officers and men in salaries. There is no way of reducing the expenses of this department except by reducing the pay of the members, and this I do not recommend.

The department is in excellent condition, needing but few improvements, and no considerable outlay need be made. It is necessary to change one pair of horses. Two of the horses at present owned are unfit for the work required of them. It is also advisable to put in an alarm box on State street, near Downing, and one at the corner of Centre and Rumford or Essex streets, in order to properly cover the city.

Outside of these matters there will be little additional expense, unless at some time, perhaps not immediately, it would be well to improve the service by the addition of a modern truck for the better equipment of the hook and ladder company.

ASSESSORS.

No more important office exists in the city than that of the board of assessors. The property assessed by them exceeds \$11,000,000 in value. It is not expected that in all cases an absolutely equal valuation can be made, but it is expected that an equitable and fair estimation of valuation shall be reached. It is important so far as the state and county tax is concerned that valuation of like property should be the same in different towns in the county, and the different cities in the state. In that case Concord would not pay more than her share of the state and county tax, which, judging from the amount of the same, it appears to me that she now does.

In order to attain this end the assessors should be familiar with the valuation in other towns and cities.

So far as the city tax is concerned, it is of the utmost importance that valuations are fair. The full board of assessors should give more consideration to this matter than has been customary, not allowing the assessors of any ward to fix the valuation of that ward without a careful examination of his figures.

There are many pieces of valuable real estate which are not assessed over one half their actual valuation, while others are assessed two thirds to three fourths of their value. These discrepancies can be easily remedied by action of the full board, who should review the estimates of value fixed by the assessor of each ward.

The law provides that a trader shall be assessed for the average amount of stock carried for the year. In many cases stocks of goods are assessed for less than one half that amount, and some for not more than one third.

By law, bonds (except certain classes), mortgages, and money at interest, and certain bank stocks, are taxable. Nearly all of this class of property escapes taxation, casting an undue burden on real and personal property which is in sight.

To a great extent this can, and should, be remedied by careful investigation on the part of the assessors.

HIGHWAYS.

It is perhaps not unfair to say that, to a certain extent, the condition of our country roads and the streets of our cities are a good gauge of the enterprise and public spirit of the people. It is a fact worthy of note that well-built roads have always been a feature of the highest civilization, from early historic times down to the present.

The question of good roads is being agitated throughout the state, and especially in the cities, and the conclusion has been reached that better roads are needed.

The condition of the streets in our own city is not what it should be, considering the amount of money expended upon them. A portion of Main street is paved and macadamized; some portions of State street have been macadamized since the purchase of the steam roller, and some small pieces of concrete have been laid. Outside of these improvements, our streets are in no better condition than they were when only one half the amount now appropriated was expended.

In considering the matter of the laying out of new streets, and of keeping those already built in repair, a few general principles should be kept in sight. In the first place, the

person in charge of the work should be competent to direct it intelligently, should have some practical knowledge of the art of making a good road or street, should possess some knowledge of the manner in which the work is done in other localities, and should have sufficient practical ability to apply what he has learned by observation and experience.

An important feature in the laying out of a new street is the matter of grading. In a city like ours it is not necessary to make a true grade.

In many cases it would be an injury to the adjoining land, leaving it inconveniently high in some places, and too low for good drainage in others, where fills are made.

State street is a good example of a street well laid out on the surface. No house lots have been materially injured by the establishment of the grade.

Various causes produce a bad condition of outlying roads. They are seldom constructed in a manner to give perfect, or even fairly good drainage. A poorly drained road remains always a poor road, not wearing well and a permanent annoyance to those who are obliged to travel on it.

It is entirely practicable to maintain a good dirt road by looking at the drainage, avoiding the worse than useless custom of scraping back upon the surface in the spring the sand and dirt which has accumulated at the sides during the rest of the year. This method is a positive injury, and is unnecessary, as good material for a dirt road can always be obtained.

Another point not to be overlooked, is a wise provision for shade. Every one appreciates the comfort of a well-shaded road, which is always smoother, harder, and more free from dust in summer than an unshaded road, and this most desirable result is not difficult of attainment. It is merely a matter of leaving such trees, large or small, or sprouts if trees are wanting, when the sides of the road are being cleared of brush.

In a few years there will be a growth which will give protection to the road, and add greatly to the pleasure of passing over it.

PARKS.

Material improvements have been made in Rollins park. Good roads have been constructed through it, and the timber has not been cut off to any damaging extent.

White park is being transformed into a public garden as fast as the appropriations will permit. Personally, I regret the extent to which the axe has been used therein. The growth that has been cut off was, to my mind, the great beauty of the land, and with its natural formation made it an ideal spot for a park.

I think it would have been much more satisfactory if the growth on the flat at the northeast end of the park had been preserved, cutting out the underbrush and dead wood, grading sufficiently to raise the surface above water level, and leaving the park open for the children to run and play in.

Very likely the majority of people are better pleased with its present condition—a garden rather than a park, into which it is unlawful to enter except on foot, and where moving about is limited to the well-kept gravel walks.

WATER DEPARTMENT.

The water department, generally speaking, is in first-class condition. The receipts for the year 1898 were \$59,147.54, the largest for any year. Of this sum, the city paid \$7,222.50 for water. I am informed by the superintendent of the department that it is necessary for the city to pay for the water it uses, in order to keep the water rate at the present figures; that if the city cut off this payment, rates would have to be advanced.

This means that the department intends to raise from some source, and to spend about so much money each year, and that they do not consider it advisable to lessen the expenditure. The explanation of this is, that it is considered necessary to replace the cement-lined pipe with cast-iron pipe, for the reason that the cement-lined pipe is liable to burst. The department intend to relay the pipe through Main street, from

Centre to Freight streets, during the coming season, and also to relay 3,200 feet of the main pipe in the West Concord road.

This work, with the payment of bonds which will become due, interest, and current expenses, will require as much money for the coming year as was expended in 1898.

Notwithstanding these reasons, I think there should be a substantial saving in this department. Less new pipe will be used for new streets than was laid last year, and it should not be necessary to expend so large an amount for meters. Last year, the sum paid for meters was \$2,473.46. This item could be saved, if consumers would not waste water.

In a year when water is plenty and runs over the dam, it should not run to waste through the pipes. It is for the interest of the consumer to make it unnecessary to meter the water, as by so doing they save themselves expense. The amount paid by the city for water is raised by taxation on the water precinct, and there is no practical difference, whether it is charged and collected by the water board, or paid as taxes.

The only reason for the city paying for the water used by it is that it makes the water department appear, at first view, to be self-supporting.

HEALTH DEPARTMENT.

Since the establishment of this department on its present basis, the sanitary condition of the city has greatly improved. There is little danger of any contagious disease gaining a strong foothold here.

One item in the report of the sanitary office deserves special notice.

I refer to the remarkably low death-rate per 1,000 inhabitants for the year 1898. It was 12.13 in 1898, 13.95 in 1897, 14.05 in 1896, and 15.33 in 1895. These four years show a gradual decrease. This fact is sufficient proof that Concord is a clean city.

CITY REPORTS.

Chapter 33 of the city ordinances provides for the printing annually of 2,800 copies of the city reports. Investigation shows that this number is greatly in excess of the number required for distribution.

I recommend that the ordinance be amended, and the number be reduced to 1,000.

CITY MESSENGER.

To the duties of the city messenger should be added the care of the city clocks, without increased salary. Although the amount paid the superintendent of clocks is small, it is an unnecessary expenditure, the city messenger having ample time to perform this work.

WIRES.

At the present time, many streets, passageways, and alleys are filled with wires strung from and upon poles and buildings, being the property of the New England Telegraph and Telephone Company, the Western Union Telegraph Company, and the Concord Land and Water Power Company.

In many places, these companies have given very little attention or care to the manner of stringing these wires, crossing streets, passageways, alleys, and buildings with no uniformity or system, obstructing the streets, and injuring private property. These many wires and poles are a nuisance, and a menace to public safety. There are many places in the business part of the city where a ladder could not be erected in case of fire. I cannot conceive of a more dangerous and unsightly condition in this respect than now exists.

The companies that own these wires have paid nothing to the city for the franchises which they now hold. They are all organized as dividend-paying corporations. Each has a large revenue, derived directly from the patronage of the public.

It is obvious that, as a matter of public safety, these wires should be, and sooner or later must be, placed in conduits underground. The companies owning them will not of their

own accord move in the matter, and I consider it to be the duty of the present administration to take action. I recommend that an ordinance be passed requiring each of said companies to place their wires in conduits underground, within certain boundaries which shall be designated therein, giving each company a reasonable time to comply therewith, and to remove their poles, causing them no unnecessary damage or expense.

PROHIBITORY LAW.

I find that it has been customary for former mayors to make particular mention of the prohibitory law. It has been referred to in different ways, but I find no instance where an incoming mayor has recommended its enforcement. The subject seems to have been passed over lightly, and apparently with fear.

I am at a loss to understand why officials, sworn to enforce the laws of the state and city, and whose duty it is to enforce the same, should permit the open and notorious violation of this law. Certainly, there is enough misery and poverty caused by the traffic in intoxicating liquor to warrant the suppression of its sale. Police officers, who are ready and willing to enforce all other criminal statutes, neglect the enforcement of this statute.

The number of arrests for drunkenness has increased steadily for the last ten years. In the year just closed, the number of arrests for that cause exceeds the number for any previous year.

More than two-thirds of all arrests are for drunkenness, for keeping for sale, and selling spirituous and intoxicating liquors. It is safe to say that two-thirds of all the expense of the police department is incurred by reason, directly or indirectly, of the sale of intoxicating liquors.

I shall require the city marshal, and the police officers under him, to prosecute all violations of this law as faithfully and impartially as they prosecute the violations of any other criminal statute.

There are many other subjects and conditions which we are to meet that might be spoken of in these suggestions, but I consider it unnecessary.

I will refer briefly to the industrial situation.

The material progress of the city has suffered in common with all sections of the country for the last three years. While many industries have lost in volume, one, at least, has largely increased.

It was thought by many that when the Boston & Maine Railroad finally secured control of all the roads centering in Concord, the change would be to the disadvantage of the city. The reverse is fully proven.

Concord has become an important railroad centre for the distribution of traffic. The railroad has built one of the best freight-yards in all the east, and shops which make repairs for several hundred miles of road.

I have not the exact figures, but it is safe to say that the Boston & Maine Railroad employ nearly one thousand men who reside in the city or work here. We have assurances that the traffic, which has now reached 1,500 freight cars per day, will soon be increased, and more men will be employed in the shops.

This great advance is not the result of accident, but has been accomplished by the untiring effort and energy of the head of the local management. It is greatly to be desired that the railroad undertake one other work—that of building a railroad into the stone quarries. This enterprise would undoubtedly pay a fair return on the investment, would be a great benefit to the city, and would double the granite industry.

In conclusion, I am confident that all will unite heartily in reducing expenses where it can be done without impairing the public service, and that we all have only the public good at heart. How well we shall succeed, the future alone can disclose. By taking good care of the present, the future is secure.

ORDINANCES AND JOINT RESOLUTIONS

PASSED DURING THE

YEAR ENDING JANUARY 26, 1900.

CITY OF CONCORD.

ORDINANCES.

AN ORDINANCE REPEALING AN ORDINANCE PASSED MARCH 9, 1897, FIXING THE SALARIES OF THE POLICE COMMISSIONERS.

Be it ordained by the City Council of the City of Concord, as follows:

SECTION 1. That an ordinance passed March 9, 1897, entitled, "An Ordinance fixing the salary of the Police Commissioners, and in amendment of section 13, chapter 37, of the revised ordinances," is hereby repealed.

SECT. 2. This ordinance shall take effect and be in force upon its passage.

Passed February 14, 1899.

AN ORDINANCE REPEALING AN ORDINANCE ALLOWING A DISCOUNT OF TWO AND ONE-HALF PER CENTUM ON TAXES.

Be it ordained by the City Council of the City of Concord, as follows:

SECTION 1. That an ordinance passed March 29, 1895, entitled, "An ordinance allowing a discount of two and one-half per centum on taxes," is hereby repealed.

SECT. 2. This ordinance shall take effect and be in force upon its passage.

Passed February 14, 1899.

AN ORDINANCE AMENDING SECTION 15, CHAPTER 37, OF THE REVISED ORDINANCES.

Be it ordained by the City Council of the City of Concord, as follows:

That section 15, of said ordinance, be amended by striking out the words, "four hundred," in the second line of said section, and inserting instead therein the words, "four hundred and twenty-five," also by striking out the words, "twenty-five," in the last line of said section, and inserting instead thereof the word, "fifty," so that said section as amended shall read as follows:

The several boards of education shall be paid for all services performed by them, the sum of four hundred and twenty-five dollars per annum, to be divided as follows: The town district school board, the sum of one hundred and twenty-five dollars: the board of education of Union school district, the sum of two hundred and fifty dollars: the school board of school district number twenty, the sum of fifty dollars.

Passed March 14, 1899.

AN ORDINANCE AMENDING AN ORDINANCE PASSED JANUARY 10, 1899, RELATING TO THE PRINTING OF THE CITY REPORTS.

Be it ordained by the City Council of the City of Concord, as follows:

That section 1, of said ordinance, be amended by striking out the words, "twenty-eight hundred," and inserting in place thereof the words, "fifteen hundred," so that said section, as amended, shall read as follows:

SECTION 1. There shall be printed annually, under the direction of the city auditor, fifteen hundred copies of the financial report of the city, together with all the annual reports of the city officials and heads of departments required to be made to the city council, the reports of all the boards of education in the city, vital statistics, and such other matter as the city council may order, for general distribution among the citizens of Concord. Said report shall be prepared and issued on or before April first in each year.

Passed March 14, 1899.

AN ORDINANCE RELATING TO REMOVING CURTAINS, BLINDS, AND SCREENS FROM THE WINDOWS, DOORS, AND FLOORS OF SALOONS, SHOPS AND RESTAURANTS.

Be it ordained by the City Council of the City of Concord, as follows:

SECTION 1. That the city marshal may at any time order the owner, keeper, or occupant of any shop, restaurant or saloon, to remove forthwith all curtains and blinds from the windows and

doors of such shop, restaurant or saloon, and all screens from the floors thereof, whenever in his opinion such removal will aid in the prevention of crime.

SECT. 2. Any person being the owner, occupant, or keeper of such shop, restaurant, or saloon, who neglects to comply with the order of the city marshal, as provided for in section one of this ordinance, shall, upon conviction thereof, pay a fine of five dollars for each day such curtains, blinds, and screens, or either of them, remain unre-moved.

SECT. 3. This ordinance shall take effect and be in force upon its passage.

Passed March 14, 1899.

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF THE GAS AND SEWERAGE PRECINCT, FOR THE ENSUING FINANCIAL YEAR.

Be it ordained by the City Council of the City of Concord, as follows :

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within the gas and sewerage precinct of said city the sum of one thousand, six hundred fifty-eight dollars and seventy-nine cents (\$1,658.79), which, together with the unexpended balance of 1898, amounting to \$1,341.21, making a total of \$3,000.00, which sum shall be appropriated as follows: For construction and repairs of sewers in said precinct.

SECT. 2. There shall be raised in like manner the sum of ten thousand dollars (\$10,000), which, together with the unexpended balance for the year 1898, amounting to \$326.90, making a total of \$10,326.90, which sum shall be appropriated as follows: For lighting of streets in said precinct.

SECT. 3. There shall be raised in like manner the sum of \$2,545 which shall be appropriated as follows: For the payment of interest on sewer bonds of said precinct.

Passed March 30, 1899.

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF THE PENACOOK SEWERAGE PRECINCT, FOR THE ENSUING YEAR.

Be it ordained by the City Council of the City of Concord, as follows :

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within the Penacook sewerage precinct the sum of one thousand seven hundred and sixty

dollars (\$1,760), to defray the necessary expenses and charges of said precinct for the ensuing financial year, which shall be appropriated as follows :

For the payment of the sum becoming due in accordance with an ordinance establishing a sinking fund, one thousand dollars (\$1,000).

For the payment of interest that may become due on precinct bonds, seven hundred and sixty dollars (\$760).

For repair of sewers, one hundred seventy-nine dollars twenty-one cents (\$179.21), the unexpended balance for the year 1898.

Passed March 30, 1899.

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF THE WEST CONCORD SEWERAGE PRECINCT, FOR THE ENSUING FINANCIAL YEAR.

Be it ordained by the City Council of the City of Concord, as follows :

SECTION 1. That there shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within the West Concord sewerage precinct the sum of eleven hundred and eighty dollars (\$1,180), to defray the necessary expenses and charges for said precinct for the ensuing financial year, which shall be appropriated as follows :

For the payment of the sum becoming due in accordance with an ordinance establishing a sinking fund, five hundred dollars (\$500).

For the payment of interest that may become due on precinct bonds, six hundred and eighty dollars (\$680).

Passed March 30, 1899.

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE STREET SPRINKLING PRECINCT, FOR THE ENSUING FINANCIAL YEAR.

Be it ordained by the City Council of the City of Concord, as follows :

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within the street sprinkling precinct of said city the sum of two thousand dollars (\$2,000), to defray the necessary expenses and charges of the street sprinkling precinct for the ensuing financial year, which is made up as follows : \$811.50, unexpended balance of the year 1898, and \$1,158.50 by taxation in the year 1899.

SECT. 2. In addition to the foregoing appropriation, the labor done by the fire department for the year 1899, in sprinkling streets, shall be available for that purpose without compensation to said fire department.

Passed March 30, 1899.

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE EAST CONCORD SEWERAGE PRECINCT, FOR THE ENSUING FINANCIAL YEAR.

Be it ordained by the City Council of the City of Concord, as follows :

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on polls and ratable estates within the East Concord sewerage precinct the sum of one hundred and seventy dollars (\$170), to defray the necessary expenses and charges of said precinct for the ensuing financial year, which shall be appropriated as follows :

For the payment of the sum becoming due in accordance with an ordinance establishing a sinking fund, one hundred dollars (\$100).

For the payment of interest that may become due on precinct bonds, seventy dollars (\$70).

Passed March 30, 1899.

AN ORDINANCE AMENDING AN ORDINANCE PASSED MARCH 14, 1899, RELATING TO PRINTING THE CITY REPORTS.

Be it ordained by the City Council of the City of Concord, as follows :

That section 1 of said ordinance be amended by striking out the words, "the reports of all the boards of education in the city," so that said section as amended shall read as follows :

SECTION 1. There shall be printed annually, under the direction of the city auditor, fifteen hundred copies of the financial report of the city, together with all the annual reports of the city officials, and heads of departments, required to be made to the city council, vital statistics, and such other matter as the city council may order, for general distribution among the citizens of Concord. Said report shall be prepared and issued on or before April first in each year.

Passed April 11, 1899.

AN ORDINANCE AMENDING AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF THE PENACOOK SEWERAGE PRECINCT, FOR THE ENSUING YEAR.

Be it ordained by the City Council of the City of Concord, as follows :

SECTION 1. Substitute the words, "twelve hundred and sixty dollars," in place of "seventeen hundred and sixty dollars," so that said section, when amended, shall read as follows :

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within the Penacook sewerage precinct, the sum of twelve hundred and sixty dollars, to defray the necessary expenses and charges of said precinct for the ensuing financial year, which shall be appropriated as follows :

For the payment of the sum becoming due in accordance with an ordinance establishing a sinking fund, five hundred dollars by taxation, and there shall be appropriated from the accumulation of interest belonging to said fund, five hundred dollars, making a total sinking fund for the present financial year of one thousand dollars.

For the payment of interest that may become due on precinct bonds, seven hundred and sixty dollars.

For repairs of sewers, one hundred and seventy-nine dollars and twenty-one cents, the unexpended balance for the year 1898.

SECT. 2. All ordinances and parts of ordinances inconsistent with this ordinance are hereby repealed and this ordinance shall take effect and be in force upon its passage.

Passed April 11, 1899.

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED FOR THE ENSUING FINANCIAL YEAR, FOR THE USE OF THE CITY.

Be it ordained by the City Council of the City of Concord, as follows :

SECT. 2. There shall be raised in like manner the sum of thirty-six thousand, one hundred and thirty-five dollars (\$36,135), for the support of schools for the ensuing financial year, which, together with the income of the Abial Walker fund, shall be appropriated and divided among the several school districts according to the valuation thereof.

SECT. 3. In addition to the foregoing, there is appropriated for the cemeteries of the city one-half of the income from the sale of lots and the income derived from the care of lots and grading, which sum shall be deposited by the superintendents, or others receiving them, in the city treasury. The care of lots for which the city holds trust funds shall be paid from the money appropriated for the care of cemeteries, and so much of the income from these trust funds as may be thus expended shall be deposited in the city treasury at the close of the year, and the remainder, in each instance, credited to the individual funds.

Passed April 11, 1899.

AN ORDINANCE APPROPRIATING EIGHT HUNDRED DOLLARS FOR POLICE DEPARTMENT.

Be it ordained by the City Council of the City of Concord, as follows:

SECTION 1. That eight hundred dollars (\$800) be, and is hereby, appropriated to make up for deficiency in the police department.

Passed May 9, 1899.

AN ORDINANCE RELATING TO VACATIONS OF POLICE OFFICERS.

Be it ordained by the City Council of the City of Concord, as follows :

SECTION 1. That the city marshal, deputy marshal, captain of the night watch, and patrolmen, shall each be entitled to two weeks' vacation in every year, without deduction from their salaries.

SECT. 2. The city marshal shall designate the time at which each member of the police force shall take his vacation.

SECT. 3. This ordinance shall take effect and be in force upon its passage.

Passed June 13, 1899.

AN ORDINANCE RELATING TO THE ACCEPTANCE OF ASSIGNMENTS OF WAGES.

Be it ordained by the City Council of the City of Concord, as follows :

SECTION 1. That the mayor is hereby authorized to accept assignments of wages, or orders, on behalf of the city, the same to be recorded by the city clerk in the usual form, and all assignments heretofore accepted by the mayor are hereby ratified.

SECT. 2. This ordinance shall be in force upon its passage.

Passed July 11, 1899.

AN ORDINANCE AUTHORIZING THE TRANSFER OF FUNDS OF THE PENACOOK SEWERAGE PRECINCT.

Be it ordained by the City Council of the City of Concord, as follows :

SECTION 1. That the city treasurer is hereby authorized to transfer from the accumulated earnings of the sinking fund of Penacook sewerage precinct the sum of three hundred and eighty-nine dollars and eighty-eight cents, to the appropriation of maintenance of said precinct.

Passed July 11, 1899.

AN ORDINANCE RELATING TO THE EMPLOYMENT OF LABORERS UPON THE PUBLIC WORKS OF THE CITY.

Be it ordained by the City Council of the City of Concord, as follows :

SECTION 1. That the heads of departments of the city of Concord be, and hereby are, instructed to employ upon the public works of the city, so far as possible, with a due regard to the public welfare, persons who are residents and taxpayers of said city of Concord.

The foregoing provision of this section shall not be construed to prevent the employment of any soldier or sailor who is exempt from taxation under the provisions of the public laws of the state, or any amendment thereof.

SECT. 2. That the provisions of a joint resolution passed by the city council May 9, 1899, entitled, "A Resolution Relating to the Employment of Native Born or Naturalized Citizens of North America upon the Public Works of the City," be, and the same is hereby, repealed.

SECT. 3. That this ordinance shall take effect upon its passage.

Passed July 11, 1899.

AN ORDINANCE MAKING NINE HOURS A DAY'S LABOR IN CITY DEPARTMENTS.

Be it ordained by the City Council of the City of Concord, as follows:

SECTION 1. That nine hours shall constitute a day's labor, in all departments of the city, excepting the fire and police departments.

SECT. 2. This ordinance shall be in force from and after the 31st day of August, 1899.

Passed August 8, 1899.

AN ORDINANCE IN AMENDMENT OF SECTION 23, CHAPTER 37, OF THE REVISED ORDINANCES RELATING TO SALARIES OF OVERSEERS OF POOR.

Be it ordained by the City Council of the City of Concord, as follows:

SECTION 1. That section 23, chapter 37, of the revised ordinances be amended by striking out the words, "two hundred," in the last line of said section, and inserting in place thereof the words, "three hundred and fifty," so that said section as amended shall read as follows:

The overseers of poor shall receive for their services in Ward 1, thirty dollars; in Ward 2, ten dollars; in all other wards, three hundred and fifty dollars.

SECT. 2. This ordinance shall take effect from and after its passage, and shall apply to the present municipal term.

Passed October 10, 1899.

AN ORDINANCE RELATING TO SALARIES OF THE SEVERAL BOARDS OF EDUCATION.

Be it ordained by the City Council of the City of Concord, as follows :

SECTION 1. The several boards of education shall be paid for all services performed by them, the sum of five hundred dollars per annum, to be divided as follows: The town district school board, the sum of two hundred dollars; the board of education of Union school district, the sum of two hundred and fifty dollars; the school board of school district number twenty, the sum of fifty dollars.

SECT. 2. All ordinances or parts of ordinances inconsistent with this ordinance are hereby repealed.

SECT. 3. This ordinance shall take effect upon its passage.

Passed November 14, 1899.

AN ORDINANCE REPEALING SECTION 8, CHAPTER 7, OF THE ORDINANCES OF THE CITY RELATING TO JOB TEAMS.

Be it ordained by the City Council of the City of Concord, as follows :

SECTION 1. That said Section 8, Chapter 7, of the city ordinances is hereby repealed.

SECT. 2. That this ordinance shall take effect upon its passage.

Passed November 14, 1899.

AN ORDINANCE RELATING TO THE INVESTMENT OF CEMETERY TRUST FUNDS.

Be it ordained by the City Council of the City of Concord, as follows :

SECTION 1. Whereas, by Chapter 40, Session Laws of this state for 1899, it was provided that (Section 1.) Any town or city which now holds, or hereafter may hold in trust, by bequest or otherwise, any fund for the care of any cemetery or any private lot therein, may pay the same into the town or city treasury, and so long as the same remains therein, said town or city shall pay thereon an annual income at the rate of three and one-half per cent., which income shall be expended in accordance with the terms of the trust by which said fund or funds is held. (Sect. 2.) This act shall not be in force except in such towns and cities as by vote of the town or city council shall so elect.

SECT. 2. That said act be, and hereby is, adopted and in force in this city, and the city council hereby so elects.

SECT. 3. This ordinance shall take effect and be in force upon its passage.

Passed November 14, 1899.

AN ORDINANCE IN AMENDMENT OF SECTION 2 OF AN ORDINANCE PASSED MARCH 12, 1895, RELATING TO THE SALARY OF THE CHIEF ENGINEER OF THE FIRE DEPARTMENT.

Be it ordained by the City Council of the City of Concord, as follows :

SECTION 1. That Section 2 of an ordinance passed March 12, 1895, entitled, "An Ordinance in amendment of Chapters 18 and 22 of the Revised Ordinances," relating respectively to the "Fire Department" and the "Water Works" be, and hereby is, amended by striking out the words, "nine hundred and fifty," and inserting the words, "ten hundred and fifty," so that said section as amended shall read as follows :

The chief engineer shall give his entire time to the duties of his office, and shall not engage in or be connected with any other business or occupation, and shall reside in a house to be furnished by the city free from rent. He shall receive in full for his services, in addition to the use of said house rent free, the sum of ten hundred and fifty dollars per annum.

SECT. 2. This ordinance shall be in force and take effect on the first day of January, 1900.

Passed December 30, 1899.

RESOLUTIONS.

A JOINT RESOLUTION CHANGING WARD FIVE WARD ROOM INTO CITY OFFICES.

Resolved by the City Council of the City of Concord, as follows :

That the matter of changing the Ward Five ward room into offices for use by city officials, be, and hereby is, referred to the committee on lands and buildings with full power to act, the amount to be expended not to exceed \$225.

Passed January 26, 1899.

A JOINT RESOLUTION INVITING BIDS FOR PRINTING AND BINDING THE ANNUAL CITY REPORTS.

Resolved by the City Council of the City of Concord, as follows :

That the city auditor is hereby instructed to invite bids for printing and binding the annual reports of the city of Concord, and submit the same to the finance committee, who shall report the same to the board of aldermen.

Passed February 14, 1899.

A JOINT RESOLUTION INVITING BIDS FOR USE OF THE AVERAGE MONTHLY BALANCE OF THE CITY DEPOSIT.

Resolved by the City Council of the City of Concord, as follows :

That the auditor is hereby instructed to invite bids from the several national banks in Concord for use of the monthly average balance of the city deposit, and submit the bids to the finance committee, who shall report the same to the city council.

Passed February 14, 1899.

A JOINT RESOLUTION INVITING BIDS FOR SHOEING THE CITY HORSES BY THE YEAR.

Resolved by the City Council of the City of Concord, as follows :

That the auditor invite bids for shoeing the city horses by the year, and submit the same when received to the finance committee, who shall report to the board of aldermen.

Passed February 14, 1899.

A JOINT RESOLUTION INVITING OFFERS, AT WHAT RATE OF INTEREST MONEY WILL BE LOANED TO THE CITY.

Resolved by the City Council of the City of Concord, as follows :

That the city auditor is hereby instructed to invite offers, at what rate of interest money will be let to the city of Concord for the year 1899, on temporary loans, and submit the same to the finance committee, who shall report the same to the board of aldermen.

Passed February 14, 1899.

A JOINT RESOLUTION IN RELATION TO PAYING SALARIES, PAY-ROLLS, AND RENTS.

Resolved by the City Council of the City of Concord, as follows :

That the mayor be, and hereby is, authorized to draw his warrant on the city treasurer for the payment of all salaries, pay-rolls and rents as the same shall become due, and be approved by the city auditor during the present municipal term, and all bills so paid shall be laid before the committee on accounts and claims at their next meeting.

Passed February 14, 1899.

A JOINT RESOLUTION RELATING TO THE LEASING OF CITY PROPERTY.

Resolved by the City Council of the City of Concord, as follows :

That the mayor and committee on lands and buildings shall have full power to act in all matters pertaining to the leasing of any of the city property, to fix the rental thereof and the other terms of the leases.

Passed February 14, 1899.

A JOINT RESOLUTION PROVIDING FOR A TEMPORARY LOAN, NOT EXCEEDING IN TOTAL FIFTY THOUSAND DOLLARS.

Resolved by the City Council of the City of Concord, as follows :

That the city treasurer, under the advice and direction of the committee on finance, is hereby authorized to borrow on the credit of the city, from time to time as the same shall be needed, a sum or sums of money not exceeding in total amount fifty thousand dollars, at the lowest practical per centum, the same to be used in meeting the

usual and current expenses of the city during the present fiscal year, as they become due. The amount so borrowed to be paid as soon as the amount received from taxes will pay the same.

Passed March 14, 1899.

A RESOLUTION RELATING TO THE EMPLOYMENT OF NATIVE BORN OR NATURALIZED CITIZENS OF NORTH AMERICA UPON THE PUBLIC WORKS OF THE CITY.

Resolved by the City Council of the City of Concord, as follows :

That the heads of all departments of the city of Concord be, and hereby are, instructed to engage only native born or naturalized citizens of the United States of North America, in and upon the public works of the city, and so far as possible, all public work shall be done by such citizens who are residents of the city of Concord.

This resolution shall take effect upon its passage.

Passed May 9, 1899.

A RESOLUTION AWARDED THE CONTRACT FOR PRINTING THE ANNUAL CITY REPORTS FOR 1898.

Resolved by the City Council of the City of Concord, as follows :

That E. T. McShane, of Concord, N. H., be, and hereby is, awarded the contract for printing the annual reports of the city for 1898, agreeably to his proposal dated May 9, 1899, and that he give a bond in the sum of \$500.00, with sureties in proper form satisfactory to the city solicitor, for the faithful performance of his contract, and we require as part of said contract that the entire labor involved in printing and binding said reports be performed in the city of Concord.

Passed May 9, 1899.

A RESOLUTION APPROPRIATING \$278.30 BALANCE DUE FOR REPAIRS ON CITY OFFICES.

Resolved by the City Council of the City of Concord, as follows :

That the sum of two hundred and seventy-eight and thirty one-hundredths dollars be appropriated to pay the balance due for repairing city offices in the police station building, and the same is hereby appropriated out of any money not otherwise appropriated, and that the same be charged to incidentals and land damage.

Passed June 13, 1899.

A RESOLUTION APPROPRIATING THE SUM OF FOUR HUNDRED DOLLARS FOR HEATING, LIGHTING AND PAINTING ENGINE AND WARD HOUSE IN WARD TWO.

Resolved by the City Council of the City of Concord, as follows :

That the sum of four hundred dollars be, and hereby is, appropriated for heating, lighting and painting the engine and ward house in ward two, and that the same be appropriated out of any funds not otherwise appropriated, and that the same be charged to incidentals and land damage.

Passed June 13, 1899.

A RESOLUTION RELATING TO THE TITLE OF THE CITY HALL REAL ESTATE.

Resolved by the City Council of the City of Concord, as follows :

That the city solicitor be, and hereby is, instructed to furnish to the city council an abstract of the title to the real estate and city hall, now occupied by the city in connection with Merrimack County, therein showing the respective rights of the city and county.

Passed June 13, 1899.

A RESOLUTION AUTHORIZING A SETTLEMENT OF THE TAXES DUE FROM THE CONTOOCH MANUFACTURING AND MECHANICS COMPANY, FOR THE YEARS 1897 AND 1898.

Resolved by the City Council of the City of Concord, as follows :

That the city treasurer is hereby authorized to receive from the Contoocook Manufacturing and Mechanics Company, ten hundred dollars, in full payment and discharge of the taxes due therefrom for the years 1897 and 1898.

Passed July 11, 1899.

A JOINT RESOLUTION RELATING TO THE CITY LIQUOR AGENCY.

Resolved by the City Council of the City of Concord, as follows :

Whereas, it is claimed that the appointment by the mayor of B. F. Tucker as city liquor agent is invalid because the present city government did not, prior to April 1, 1899, and prior to said appointment, vote to establish a liquor agency for the ensuing year; and whereas said Tucker is now assuming to carry on business as the legally appointed liquor agent for said city, notwithstanding the fact

that the committee on accounts and claims have refused to approve his accounts, and notwithstanding an adverse opinion of the city solicitor; and whereas, bills to a large amount incurred by said Tucker have already been presented against the city, and to further permit the said Tucker to hold himself out as such liquor agent may involve the city in expensive litigation with parties who may rely upon his apparent authority; and the only practicable and speedy method of securing a determination by the court of the legal status of said liquor agency is by a complaint against said Tucker for the illegal sale of liquors; and whereas, it is for the interest of said city, as well as said Tucker, that this question be determined before further legal complications arise.

The board of police commissioners are hereby requested to instruct the city marshal to commence a proceeding against B. F. Tucker for the illegal sale of liquors, and prosecute the same to final decision.

Passed July 11, 1899.

A JOINT RESOLUTION MAKING AVAILABLE FUNDS FOR THE USE OF BLOSSOM HILL CEMETERY.

Resolved by the City Council of the City of Concord, as follows:

That in anticipation of receipts of income from the sale of lots and other sources of the Blossom Hill Cemetery, the auditor be, and hereby is, authorized to approve bills and accounts against said cemetery from this date to the end of the present financial year to an amount not exceeding (\$2,500) twenty-five hundred dollars, and that the mayor is hereby authorized to draw his warrant for the payment of the same.

Passed July 11, 1899.

A JOINT RESOLUTION AUTHORIZING A LOAN OF NINETEEN THOUSAND, FIVE HUNDRED DOLLARS.

Resolved by the City Council of the City of Concord, as follows:

That the city treasurer, under the direction and approval of the committee on finance, is hereby authorized to borrow temporarily on the credit of the city, nineteen thousand, five hundred dollars, in anticipation of the taxes for the present municipal year, and to issue the note of the city therefor, said note to be paid from the taxes of the present municipal year.

Passed July 11, 1899.

A JOINT RESOLUTION MAKING AVAILABLE FUNDS FOR THE HIGHWAY DEPARTMENT.

Resolved by the City Council of the City of Concord, as follows :

That the sum of five hundred (500) dollars of the appropriation for permanent work of the highway department be, and the same hereby is, made available for the construction of bicycle paths around certain bad places in the highways leading into the city; and the commissioner of highways is hereby authorized to expend the same at his discretion.

Passed July 11, 1899.

A RESOLUTION AUTHORIZING A LOAN OF FIFTY THOUSAND DOLLARS.

Resolved by the City Council of the City of Concord, as follows :

That the city treasurer, under the direction and approval of the committee on finance, is hereby authorized and empowered to borrow temporarily on the credit of the city, fifty thousand dollars, in anticipation of the taxes for the present municipal year, and to issue the notes of the city therefor, for such part thereof as may from time to time be borrowed, said notes to be paid from the taxes for the present municipal year.

Passed July 11, 1899.

A JOINT RESOLUTION TO PROVIDE WATER FOR FIRE PURPOSES IN WARD ONE.

Resolved by the City Council of the City of Concord, as follows :

That the board of water commissioners be requested by His Honor, the Mayor, to secure for Ward 1, in the city of Concord, such a supply of water as in their judgment shall meet the imperative demands of said ward for fire purposes, either by a supply from the high pressure service or by a contract with the Penacook and Boscawen water precinct.

That we ask for immediate action to be taken in the matter.

Passed August 8, 1899.

A JOINT RESOLUTION AUTHORIZING THE PURCHASE OF A TRACT OF LAND FOR A GRAVEL BANK FOR USE ON THE HIGHWAY.

Resolved by the City Council of the City of Concord, as follows :

That the commissioner of highways is hereby authorized to purchase of Elmer S. Ellsworth, one acre of land situated in Boscawen, N. H., for a gravel bank for use upon the highways, and to pay therefor three hundred dollars, which sum shall be charged to general maintenance of highways.

Passed August 8, 1899.

A JOINT RESOLUTION ESTABLISHING A LIQUOR AGENCY.

Resolved by the City Council of the City of Concord, as follows :

That the mayor is hereby authorized to appoint, not exceeding three liquor agents, agreeably to an act of the legislature approved March 11, 1899, entitled, " An act to provide for the appointment of state and town liquor agents, and to regulate their conduct." And that the committee on accounts and claims be, and hereby are, authorized to approve all outstanding bills against the city pertaining thereto.

Passed August 8, 1899.

A JOINT RESOLUTION TO PAY FOR REAL ESTATE SOLD TO THE CITY OF CONCORD FOR THE YEARS 1896, 1897 AND 1898 TAXES.

Resolved by the City Council of the City of Concord, as follows :

That the sum of \$3,714.52 be, and hereby is, appropriated out of any money in the treasury not otherwise appropriated to pay for the taxes of 1896, 1897 and 1898, on real estate sold for taxes unpaid and bid in by said city of Concord.

Passed September 12, 1899.

A JOINT RESOLUTION MAKING APPROPRIATION FOR DECORATING CITY HALL BUILDING.

Resolved by the City Council of the City of Concord, as follows :

That twelve dollars and fifty cents be appropriated to pay one-half the expense of decorating city hall building on the day of the celebration of Old Home week, and that the same be charged to incidentals.

Passed September 12, 1899.

A JOINT RESOLUTION AUTHORIZING A TEMPORARY LOAN OF \$2,000.

Resolved by the City Council of the City of Concord, as follows :

That the city treasurer be, and hereby is, authorized to borrow on the credit of the city the sum of \$2,000 for the construction and maintenance of sewers in the city sewerage precinct.

Passed September 12, 1899.

A JOINT RESOLUTION MAKING AVAILABLE CERTAIN FUNDS IN ANY GENERAL APPROPRIATION.

Resolved by the City Council of the City of Concord, as follows :

That the auditor be, and hereby is, authorized by transfer from the excess of any item in general appropriation to make up any insufficiencies in any item or items in the same general appropriation. This resolution to be in force during the present financial year.

Passed September 12, 1899.

A JOINT RESOLUTION EXEMPTING THE NEW MACHINERY AND STOCK OF THE NEW HAMPSHIRE SPINNING MILLS FROM TAXATION.

Resolved by the City Council of the City of Concord, as follows :

That the machinery, stock and improvements to be made on the plant formerly occupied by the Contoocook Manufacturing and Mechanics Company, in Penacook, Concord, N. H., and the capital to be used in operating the same, be exempted from taxation to the New Hampshire Spinning Mills for the term of ten years from the passage hereof, according to the provisions of Section 11, of Chapter 55, of the Public Statutes of New Hampshire.

Passed September 12, 1899.

A JOINT RESOLUTION AUTHORIZING THE BORROWING OF THE SUM OF FIFTEEN HUNDRED DOLLARS FOR THE USE OF THE STREET SPRINKLING PRECINCT.

Resolved by the City Council of the City of Concord, as follows :

That the city treasurer is hereby authorized to borrow on the credit of the city the sum of fifteen hundred dollars, in anticipation of the taxes for the year 1900, for use in the street sprinkling precinct, for sprinkling streets.

Passed October 10, 1899.

A JOINT RESOLUTION PROVIDING FOR A TEMPORARY LOAN OF \$1,250, IN PAYMENT FOR A TRACT OF LAND PURCHASED BY THE CITY FOR AN ADDITION TO ROLLINS PARK.

Resolved by the City Council of the City of Concord, as follows :

That the city treasurer, under the advice and direction of the committee on finance be, and hereby is, authorized to procure by a temporary loan upon the credit of the city, the sum of \$1,250, at a

rate of interest not exceeding three and one-half per centum, to be used in payment of a tract of land purchased by the city for an addition to Rollins Park. Said note to become due on the first day of December, 1900.

Passed November 14, 1899.

A JOINT RESOLUTION PROVIDING FOR A TEMPORARY LOAN OF \$5,000, IN PAYMENT OF A NOTE FOR THAT AMOUNT WHICH BECAME DUE MARCH 7, 1899.

Resolved by the City Council of the City of Concord, as follows:

That the city treasurer, under the advice and direction of the committee on finance be, and hereby is, authorized to procure a temporary loan upon the credit of the city for the sum of \$5,000, at a rate of interest not exceeding three and one-half per centum, to be used in payment of a note given by the city for a temporary loan March 7, 1898, which sum was used to pay for an addition to Blossom Hill Cemetery. Three thousand dollars of said loan to become due on the first day of December, 1900, and two thousand dollars of said loan to become due on the first day of December, 1901.

Passed December 14, 1899.

A JOINT RESOLUTION APPROPRIATING FIFTEEN HUNDRED DOLLARS FOR SALARIES.

Resolved by the City Council of the City of Concord, as follows:

That the sum of fifteen hundred dollars be, and the same is, hereby appropriated for salaries, and that the same be paid out of any money in the treasury not otherwise appropriated.

Passed December 14, 1899.

A RESOLUTION IN AMENDMENT OF A RESOLUTION EXEMPTING FROM TAXATION CERTAIN PROPERTY OF WILKINS, FOSTER & CLOUGH, PASSED MAY 14, 1895, AND IN AMENDMENT OF A RESOLUTION EXTENDING SAID EXEMPTION TO THE NEW HAMPSHIRE FRUIT COMPANY, PASSED DECEMBER 10, 1895.

WHEREAS, certain property of Wilkins, Foster & Clough was exempted from taxation, by a resolution passed May 14, 1895, and whereas that exemption was extended to the New Hampshire Fruit Company for the remaining portion of said ten years from the passage of said original exemption, by a resolution passed December 10, 1895, and whereas, said New Hampshire Fruit Company has con-

veyed said property exempted to said Wilkins, Foster & Clough to one William B. Wilson who, in turn, has conveyed the same to the Haines, Piper Company who are now the owners thereof, and are carrying on the business heretofore carried on by said Wilkins, Foster & Clough, and by said New Hampshire Fruit Company, upon and in connection with the premises so exempted by said resolutions of May 14, 1895, and December 10, 1895;

Now, therefore, be it

Resolved by the City Council of the City of Concord, as follows:

SECTION 1. That the exemption from taxation extended to Wilkins, Foster & Clough, for the period of ten years, by virtue of said resolution of May 14, 1895, and to the said New Hampshire Fruit Company, for the unexpired portion of the said ten years, by said resolution of December 10, 1895, be, and the same is hereby, extended to said Haines, Piper Co., for and during the unexpired portion of the said ten years, commencing at and from the passing of said original resolution of May 14, 1895.

Passed December 14, 1899.

A JOINT RESOLUTION AUTHORIZING THE PAYMENT OF INTEREST.

Resolved by the City Council of the City of Concord, as follows:

That the city treasurer be, and hereby is, authorized to use such portion of the interest received from monthly balances of the city deposit, as may be necessary to pay any deficiencies due for interest from the city on sums of money borrowed for the use of the city during the present financial year.

Passed December 30, 1899.

A JOINT RESOLUTION RELATIVE TO THE DISCONTINUANCE OF A HIGHWAY LAID OUT BY THE ORIGINAL PROPRIETORS OF RUMFORD.

Resolved by the City Council of the City of Concord, as follows:

That the highway beginning at the southerly line of Ferry street on land of Joseph Stickney, thence running south 23 degrees east, 1,600 feet; thence south 49 degrees west, 510 feet; thence south 29 degrees west, 285 feet; thence south 49 degrees 30 minutes west, 142 feet to the northerly line of Bridge street at the westerly end of the Loudon bridge, be, and hereby is, discontinued.

Passed December 30, 1899.

A RESOLUTION APPROPRIATING MONEY FOR DEFICIENCIES IN THE SEVERAL DEPARTMENTS.

Resolved by the City Council of the City of Concord, as follows :

SECTION 1. That the sum of \$1,555.92 be, and hereby is, appropriated out of any money in the treasury not otherwise appropriated, to pay outstanding claims as follows :

City poor	\$ 18.90
City history	150.00

TREASURY DEPARTMENT.

ANNUAL REPORT

FOR THE YEAR 1899.

To His Honor the Mayor and the City Council:

I herewith submit the annual report of the condition and transactions of the Treasury Department, consisting of a statement of the bonded and bills payable indebtedness of the city and water precinct, with coupon statements of each, and statement of income and payments of the Water Works Department, a list of the trust and sinking funds of the city, including an account of the securities in which said trust and sinking funds are invested; also, a statement of receipts of Blossom Hill and Old Cemetery; a statement of the income of trust funds paid the treasurers of suburban cemetery associations; and in addition to the foregoing, a general statement of the receipts and expenditures for the year.

Respectfully submitted,

ALVIN B. CROSS,

City Treasurer.

	<u>\$66,051.19</u>

The city treasurer had in his possession January 1, 1900, as treasurer and custodian the following trust and sinking funds, viz. :

ABIAL WALKER TRUST.

For the benefit of the School Fund.

Capital	\$1,000.00
Income received, 1899	35.00
Paid into the city treasury	35.00

Invested in City of Concord $3\frac{1}{2}\%$ bond.

COUNTESS OF RUMFORD TRUST.

For the benefit of the Concord Female Charitable Society. Income to be applied to the charitable uses and purposes of said society, and under its direction.

Capital	\$2,000.00
Income received, 1899	100.00
Paid Fannie E. Minot, treasurer of the society	100.00

Invested in Eagle and Phenix Hotel Company 5% notes, secured by mortgage.

MINOT ENCLOSURE CEMETERY TRUST.

Donated to the city by Abby P. Minot, the income to be expended annually by the Superintendent of Cemeteries for the preservation, care, and embellishment of the burial lots known as the Minot Enclosure, under the direction of the duly appointed officials, or members of the Minot Cemetery Association.

Capital	\$3,000.00
Income received, 1899	40.00
Paid H. H. Dudley, treasurer	40.00

Invested in City of Concord $3\frac{1}{2}\%$ note.

DAVID OSGOOD TRUST.

Capital		\$200.00
Balance from last year	\$140.55	
Income received, 1899	11.50	
	—————	\$152.05

Capital, \$200, invested in City of Concord 4% bond, and \$100 of income invested in City of Concord 3½% bond.

The purpose of the donor of this trust fund was that the income should be used for the purchase of school books for poor children, but since the bequest was made, a state law has been enacted that requires the towns and cities to buy all the school books, consequently the beneficiary of the donor is provided for and for the purpose of the trust no longer exists. This fund, \$200, has accumulated (\$152.05) and will continue to accumulate forever without any benefit to any object unless some legal action can be taken to divert the income from the specified purpose of the donor.

The proper remedy in this case would seem to be for the city government to make application to the court to make a decree specifying the object to which the income of this trust shall be devoted.

COGSWELL COLLECTION OF THE PUBLIC LIBRARY.

Bequest of P. B. Cogswell, the income to be spent annually for the purchase of books of a Biographical, Geographical, Historical and Scientific character, and the books relating to science shall be those that give the latest developments and discoveries by scientific persons, from year to year.

Capital		\$2,145.00
Income received, 1899	41.18	
Paid into the city treasury	41.18	
Invested in City of Concord 3½% note	2000.00	
Invested in Loan and Trust Savings Bank	145.00	

G. PARKER LYON PUBLIC LIBRARY TRUST.

Capital		\$1,000.00
Income received, 1899	35.00	
Paid into the city treasury	35.00	
Invested in City of Concord 3½% bond.		

FRANKLIN PIERCE PUBLIC LIBRARY TRUST.

Capital	\$1,000.00
Income received, 1899	37.50
Paid into the city treasury	37.50
Invested in City of Concord 4% bond	500.00
Invested in Union Guaranty Savings Bank	500.00

THOMAS G. VALPEY PUBLIC LIBRARY TRUST.

Capital	\$500.00
Income received, 1899	17.50
Paid into the city treasury	17.50
Invested in City of Concord 3½% bond.	

BLOSSOM HILL CEMETERY FUND.

This fund is increased each year by the addition of one-half the amount received from the sale of lots. The income of the fund is used for the care, protection and ornamentation of Blossom Hill Cemetery.

Amount of capital, January 1, 1899	\$17,009.17
Received from one-half sale of lots, 1899	598.87
Received from income of fund, 1899	653.33
	<hr/> \$18,261.37

Credited Blossom Hill Cemetery account	\$653.33
Amount of capital, January 1, 1900	17,608.04
	<hr/> \$18,261.37

Invested in City of Concord 4% bonds	\$12,400.00

Unexpended income January 1, 1900	\$86.46	
Amount of capital January 1, 1900	282.50	
	<u> </u>	\$368.96

Capital and unexpended income invested in Merrimack County Savings Bank.

MILLVILLE CEMETERY FUND.

This fund originated, and is provided for, by voluntary contributions of interested parties. Income devoted to the care, protection and ornamentation of Millville Cemetery.

Amount of capital, January 1, 1899	\$200.00	
Unexpended income on hand, January 1,		
1899	18.50	
Received from income of fund, 1899	7.08	
	<hr/>	\$225.58

Capital and unexpended income invested in Loan and Trust Savings Bank.

EAST CONCORD CEMETERY FUND.

This fund is increased each year by the addition of one-half the amount received from the sale of lots. Income devoted to the care, protection and ornamentation of East Concord cemetery.

Amount of capital, January 1, 1899	\$202.50	
Unexpended income on hand, January 1,		
1899	79.75	
Received from one-half sale of lots, 1899	15.00	
" " income of fund, 1899	9.08	
	<hr/>	\$306.33

Capital and unexpended income invested in New Hampshire Savings Bank.

WEST CONCORD SEWER PRECINCT SINKING FUND.

The city ordinance establishing the West Concord Sewer Precinct, and authorizing loans on the credit of the city to construct the system, also created a sinking fund which provided that the following amounts should be raised annually upon the taxable property of the precinct, for the purpose of paying the bonds as they mature, viz.:

\$500 annually for ten years from October 1, 1892.

\$1,000 annually for five years from October 1, 1902.

\$1,400 annually for five years from October 1, 1907.

Balance on hand, January 1, 1899	\$3,232.45	
Income received, 1899	99.23	
Received from city of Concord	500.00	
	—————	\$3,831.68

	—————	\$1,920.99

Invested in Union Guaranty Savings Bank.

EAST CONCORD SEWER PRECINCT SINKING FUND.

The city ordinance establishing the East Concord Sewer Precinct, and authorizing loans on the credit of the city to construct the system, also created a sinking fund which provided that the sum of one hundred dollars (\$100) should be raised annually for twenty years from July 1, 1895, upon the taxable property of the precinct, for the purpose of paying the bonds as they mature.

Balance on hand, January 1, 1899	\$309.92

" " Concord Land & Water Power Co.	4.00		

I hereby certify that I have examined the foregoing accounts of Alvin B. Cross, City Treasurer, for the year 1899, and find all items of receipt and expenditure therein properly recorded and authenticated by appropriate vouchers, and the several items correctly cast, and the cash balance in the hands of the city treasurer to be fourteen thousand, one hundred and four dollars and six cents (\$14,104.06), and as treasurer of the City Water Department to be five thousand, four hundred and sixty-four dollars and eighty-four cents (\$5,464.84).

I have also verified the account of the trust and sinking funds of the city and find such trust and sinking funds invested and the income thereof, for the year 1899, accounted for, as shown by the book of the city treasurer, kept for that purpose.

JAMES H. MORRIS,

Auditor.

			<hr/>
Decrease for the year			\$155.80

The above bonds were issued under ordinances passed by the city council, establishing a sewer precinct in Penacook, and authorizing loans on the credit of the city for the establishing of said system. The ordinances also provide that the yearly interest and a portion of the principal shall be raised each year, for the purpose of creating a sinking fund to pay said bonds as they mature, as follows :

\$500 annually for ten years from August 1, 1888,
 \$1,000 annually for five years from August 1, 1898,
 \$1,200 annually for five years from August 1, 1903,
 \$1,000 annually for five years from May 1, 1908,
 \$500 annually for six years from July 1, 1914,

by taxation upon the taxable property in Penacook sewer precinct, said sums, as soon as received, to be placed at interest by the finance committee.

CITY EXPENSES.

FROM JANUARY 1 TO DECEMBER 31, 1899.

Being an itemized account, made up from the books of the City Auditor, of the payments made by the City Treasurer on account of

RUNNING EXPENSES.

The arrangement of the details of expenditure which follows is intended to furnish such information as is desired by the public, and is in accordance with suggestions received from various sources. Items of payment to the same individual at sundry times are included in the aggregate amount given, if paid for the same objects. Every effort has been made to ascertain and pay all the bills for the current year; and in all cases, so far as known, payments of rent, etc., have been made to December 31, 1899, and salaries and committee service have been paid for the full municipal year.

REPORT OF WATER COMMISSIONERS.

To the City Council:

The Board has the honor herewith to submit the report for the year 1899:

The detailed report of our superintendent herewith presented leaves little to be said by the commission.

The work has been along usual lines of maintenance, also following out plans heretofore presented, consisting mainly in laying a section of 3,259 feet of 20-inch cast iron pipe towards Penacook lake, also a section of 10-inch cast iron pipe between Centre and Freight streets, thus obviating the danger from leakage on the old pipe through a section of Main street, where much damage might occur.

The strain on the old pipe is constantly manifesting itself by the serious breaks we have had. The board is considering a plan for re-laying certain sections of the city with cast iron pipe. The time is not far distant when the main line now running through State street must be replaced by a larger pipe in order to distribute water more freely to the southern part of the city.

One matter of concern in new construction is the advance in the cost of material, being from 35% to 40% over prices paid in 1899, but it would be unwise to be unprepared for certain emergencies which may arise at any time, and this work is imperative.

The commission have submitted a report during the year on the question of buying water from the Penacook and Boscawen water precinct.

The number of meters has been increased by 139, making some 915 now in use. This fact may explain in some measure the gratifying condition of our water supply, while other localities have been alarmed by a shortage. The water stands about 11 feet higher than at the lowest point in 1895, thus securing for the present, at least, a supply sufficient for the demand.

The amount heretofore received for hydrant rentals was cut off from the list of appropriations this year, and the bonds maturing November 1, 1899, \$10,000, were met only in part from the earnings of the works. A larger amount mature in the coming year, which must be provided for: \$15,000 of 3½% bonds mature November 1, 1900, and \$10,000 4% bonds January 1, 1901. These bonds should be paid as they become due, thus reducing the interest payments and allowing so much more to apply to the reduction of the debt.

The pumping station has maintained its efficiency, more water being pumped than in the previous year. The good care of the grounds around the station has been continued, making it very attractive, and a delight to all.

The work of the department was unnecessarily delayed, pending the adjustment of the alien labor question.

We desire to bear testimony to the careful and efficient manner in the care and work of the department by the superintendent and his assistants.

Respectfully submitted,

EDSON J. HILL,
TIMOTHY P. SULLIVAN,
WILLIAM P. FISKE,
WILLIAM E. HOOD,

NATHANIEL E. MARTIN, *ex officio*,

Water Commissioners.

REPORT OF THE SUPERINTENDENT.

To the Board of Water Commissioners:

I herewith present to you the twenty-eighth annual report of the operations of this department, showing the receipts, expenditures and abatements, together with a statement of extensions and improvements made during the year ending December 31, 1899.

RECEIPTS.

For water, from consumers by fixed rates	\$26,215.81	
For water, from consumers by meter rates	27,448.18	
From delinquents	61.10	
For water used for building purposes	90.30	
rents	83.32	
pipe and stock sold, hay, etc.	196.76	
		\$54,095.47
Deduct abatements		142.34
		<hr/>
Net receipts for 1899		\$53,953.13

EXPENDITURES.

GENERAL EXPENSES.

Paid V. C. Hastings, salary as superintendent	\$1,800.00
pay-rolls, salaries and labor	6,053.46
Nath'l White, Jr., rent of office and heating	350.00
S. G. Sanborn, rent of shop at Penacook and smith-work.	25.10
Rumford Printing Co., printing	107.85
F. L. Sanders, books, etc.	10.30

Paid Silsby & Son, stationery, etc.	\$24.41
Ira C. Evans, printing	20.09
Concord Light & Power Co., gas	10.20
New England Telephone & Tele- graph Co., telephones	126.00
Humphrey-Dodge Co., hardware	49.52
Thompson & Hoague, "	60.04
J. H. Dodge, grain	41.74
Clark & White, grain	40.65
C. H. Martin & Co., lead, oil, etc.	10.35
Batchelder & Co., oil, etc.	21.58
Woodworth & Co., cement	24.75
Stoughton Rubber Co., washers	2.00
John C. Thorne, rubber boots	16.25
Abbot-Downing Co., repairs	23.00
J. D. Johnson & Son, "	16.10
W. S. Davis & Son, repairs	3.00
James R. Hill & Co., supplies	10.50
M. J. Drummond & Co., cast-iron pipe	5,609.80
Davis & Farnum Manufacturing Co., cast-iron pipe	111.64
R. D. Wood & Co., cast-iron pipe and hydrants	865.34
Ford & Kimball, castings	47.86
Builders Iron Foundry, castings	10.69
Concord Foundry & Machine Co., castings	6.33
D. A. Streeter, castings	4.00
Ludlow Valve Manufacturing Co., gates	646.18
Richards & Co., pig lead	401.72
John Walker, pig lead	289.34
Concord Light & Power Co., pig lead	61.00
Chadwick Lead Works, lead pipe, etc.	36.70

Paid Walworth Manufacturing Co., pipe, tools, and fittings	8360.29
J. H. Cunningham Co., tools and fittings	88.11
Goodhue & Milton, fittings	7.89
Peck Brothers, corporations	6.84
Payne Tapping Machine Co., tools	71.30
Anderson Pipe Cutter Co., tools	6.60
C. L. Randall, tools	5.00
Perrin, Seaman & Co., tools and packing	61.79
Sewall & Day Cordage Co., manilla rope	11.80
Hayes Manufacturing Co., service boxes	42.19
Smith & Anthony, repair bands	5.50
The Fairbanks Co., scale and tools	105.20
National Meter Co., meters	641.90
Thomson Meter Co., "	790.40
Henry R. Worthington, "	66.50
Union Meter Co., "	24.00
E. B. Hanchay, smith work	127.74
Ross W. Cate, } "	8.25
J. M. Crossman, "	2.45
George L. Theobald, team-work	137.30
O. F. Richardson & Son, "	38.63
Charles H. Farnum, "	18.00
Cavis G. Brown, "	11.75
Henry Morrill, "	8.48
John H. Coburn, "	6.00
E. B. Hutchinson Building Co., lumber and labor	43.47
C. M. & A. W. Rolfe, lumber and labor	2.34
Rowell & Plummer, mason-work	68.20
James H. Rowell & Co., repairing concrete	69.75

Paid Oia Anderson, use of derrick	87.00	
Smith Premier Typewriter Co., repairs	10.00	
Engineering News	5.00	
Highway department, paving Main street	58.70	
Morrill & Danforth, insurance	25.00	
Eastman & Merrill, insurance	7.50	
E. R. Angell, water analyses	18.30	
Boston & Maine Railroad, freight on pipe, etc.	1,658.10	
town of Webster, taxes	50.00	
V. C. Hastings, cash paid out	84.29	
incidentals	224.97	
	<hr/>	\$21,924.02

Pumping Station Expenses.

Paid pay-rolls, engineer and fireman	\$1,503.64	
Concord Coal Co., coal	376.54	
H. O. Marsh, "	261.65	
C. H. Stevens & Co., coal	5.94	
H. H. Crowell, slab wood	101.25	
O. F. Richardson & Son, drawing wood	14.50	
Vacuum Oil Co., oil	22.95	
Knowlton Packing Co., packing	12.00	
Humphrey-Dodge Co., supplies	12.65	
Batchelder & Co., "	2.34	
Stoughton Rubber Co., hose	6.00	
Star Brass Manufacturing Co., repairing counter	11.85	
Rowell & Plummer, mason-work	2.20	
Woodworth & Co., soda ash	4.97	
Concord Light & Power Co., gas	8.85	
	<hr/>	\$2,347.33
Total expenditures for 1899		<hr/> \$24,271.35

The expenses are divided as follows :

General Expenses.

For management and repairs	\$3,578.37	
new service pipes	1,110.92	
new distribution pipes	13,664.73	
inspection	566.00	
meter account	2,198.00	
work at Penacook lake	33.25	
relaying pipe near Mrs. Mary Eddy's, on account of change of grade	578.14	
incidentals	194.61	
		————— \$21,924.02

Pumping Station Expenses.

For salaries, engineer and fireman	\$1,503.64	
fuel	759.88	
oil, packing and other supplies	69.76	
repairs	14.05	
		————— \$2,347.33

EXTENSIONS AND IMPROVEMENTS.

Main and distribution pipes have been laid and hydrants set during the year, as follows :

On main line,

north from near tenement block of New Hampshire state prison to Moses H. Farnum's, 3,259 feet 20-inch cast-iron pipe and four hydrants, in place of 14-inch cement-lined pipe, discontinued.

In North Main street,

south from Centre street to opposite state house, 554 feet 10-inch cast-iron pipe, in place of 8-inch cement-lined pipe, discontinued.

In North Main street,

south from Capitol street to Pleasant street, 1,017 feet 10-inch cast-iron pipe, in place of 8-inch cement-lined pipe, discontinued.

In South Main street,

south from Pleasant street, to south line of Freight street, 284 feet 10-inch cast-iron pipe, in place of 6-inch cement-lined pipe, discontinued.

In School street,

west from Merrimack street to Talanto street, 350 feet 10-inch cast-iron pipe, in place of 8-inch cement-lined pipe, discontinued.

In Rumford street,

south from Franklin street to Washington street, 1,450 feet 8-inch cast-iron pipe, in place of 8-inch cement-lined pipe, discontinued.

In Pleasant street,

at crown of hill by Mrs. M. B. G. Eddy's, 513 feet 8-inch cast-iron pipe, in place of 8-inch cement-lined pipe, discontinued.

In Beacon street,

west from Jackson street to Rumford street, 750 feet 6-inch cast-iron pipe, in place of 4-inch cement-lined pipe, discontinued.

In Merrimack street,

south from Centre street to School street, 450 feet 6-inch cast-iron pipe, in place of 4-inch cement-lined pipe, discontinued.

In Rockingham street,

west from Donovan street, 147 feet 6-inch cast-iron pipe.

In Jefferson street,

north from Concord street, 173 feet 4-inch cast-iron pipe, in place of $\frac{3}{4}$ -inch pipe.

On connections in re-laying pipe,

50 feet 10-inch, 19 feet 8-inch, 240 feet 6-inch cast-iron pipe, in place of cement-lined pipe, discontinued.

On hydrant branches,

471 feet 6-inch cast-iron pipe; 392 feet 6-inch cement-lined pipe discontinued.

On blow-offs,

6 feet 4-inch pipe.

Also 1,031 feet 1-inch and $\frac{3}{4}$ -inch pipe; 173 feet $\frac{3}{4}$ -inch pipe discontinued.

Summary of the Foregoing.

NEW PIPES, HYDRANTS AND STOP-GATES.

Total length of main and distribution pipes now in use, 313,881 feet, equal to 59.44 miles.

Total number of hydrants now in use, 264.

Total number of gates now in use, 747.

SERVICE PIPES.

There have been laid during the year and connected with the main pipes, 56 service-pipes consisting of

54 $\frac{3}{4}$ -inch,	1,243 feet.
1 10-inch,	37 "
1 6-inch,	27 "
<hr/>	<hr/>
56	1,307 feet.

There have been discontinued during the year, 8; whole number in use at the present time, 3,288; total length of service-pipes, 77,118 feet, or 14.60 miles.

We have set 139 meters during the year; 2 have been removed; making the total number now in use, 915.

The following table shows the height of water in Penacook Lake on the first day of each month:

January . . .	184.70	July . . .	183.80
February . . .	184.70	August . . .	183.10
March . . .	184.80	September . . .	182.20
April . . .	185.00	October . . .	181.90
May . . .	184.90	November . . .	181.40
June . . .	184.40	December . . .	181.00

The lowest point reached was December 1, being 181; the highest was March 14, 185.15; mean height, 183.49, which was .82 foot lower than the mean height for the year 1898.

The water has been running over the overflow one hundred and twenty-three days during the year: in January, 31; in February, 16; in March, 31; in April, 30; in May, 15. At no time has the water been lower than forty-three inches below the overflow.

The most important work of the year has been the continuation of the 20-inch cast-iron main in place of the 14-inch cement-lined and the relaying of the pipe in Main street.

The new 20-inch main has been extended 3,259 feet to a little north of Moses H. Farnum's residence. It will now require

about 5,300 feet to complete the main from the pumping station to the gate house in West Concord, or about two years' work at the same rate as the last three years.

In Main street, a 10-inch cast-iron pipe was laid from Centre street to Freight street in place of 8 and 6-inch cement-lined. The work was done thoroughly; all the service-pipes were put in good condition, in most instances new pipes were laid and in others the pipes were repaired; service boxes at the curb were placed on nearly every supply; all the hydrants which had been in use since the construction of the works, eight in number, were replaced by new ones of the most improved design.

Two other hydrants have been replaced by new ones in addition to those on Main street and two new ones on West Concord road, a total of twelve hydrants, all of which are included in the distribution pipe account for this year.

The expenses of the year were also increased by relaying the 8-inch pipe on Pleasant street, near Mrs. Eddy's, which was occasioned by cutting down the street grade in macadamizing the street.

It has been well known from the first analyses, that Penacook Lake water will act on lead pipe to such an extent as to render it unfit for drinking purposes; and as water that will act on lead will generally have a like effect on zinc, I have believed that galvanized-iron pipe should not be used to carry Penacook Lake water for domestic use. I, therefore, corresponded with Prof. E. R. Angell, of Derry, and according to his directions placed a piece of galvanized-iron pipe in a sample of water, allowing it to remain there about twelve hours. The analysis is appended to this report showing the unusual and harmful quantity of zinc in the water.

In closing this report, I wish to express my sincere appreciation of the faithfulness of the employees of the department.

Respectfully submitted,

V. C. HASTINGS,

Superintendent.

SANITARY ANALYSIS OF WATER.

SAMPLE FROM OVER INTAKE, PENACOOK LAKE.

Water is a mineral substance, composed of two elements. Hydrogen forms one-ninth of its weight, and oxygen, eight-ninths. This is water chemically pure, or pure water. As found in nature, it always contains other substances. Water sanitarily pure need not be chemically pure. Water sanitarily impure, designated as polluted, or contaminated, contains substances or organisms injurious to health; animal matter, vegetable material, disease germs, poisonous metals, as lead, zinc, copper, manganese, etc.

The figures in the analysis represent parts per 100,000. To convert into parts per million, multiply by 10; into parts per United States gallon, by 0.583722; into parts per English gallon, by 0.7.

ODOR.—Some pond-like.

COLOR.—Nearly colorless.

TRANSPARENCY.—Clear.

Pure water is odorless, colorless, clear, and tasteless. Water sanitarily pure may have one or all of these properties. Polluted water may be free from some or all of them.

BEHAVIOR DURING EVAPORATION.—Nearly quiet.

APPEARANCE OF RESIDUE.—Nearly uniform; few circles.

Water containing vegetable juices is a thin syrup. Such water foams during evaporation. Circles and irregular figures are marked on the dish where the last bubbles break in drying away. Animal matter seldom causes water to behave in this manner.

TOTAL SOLIDS.—4.0.

The amount of solids in water, sanitarily pure, varies greatly. Good well water in this state seldom contains more than 15 parts. Good pond water contains less than half of this quantity.

IGNITION OF RESIDUE.—It blackens some.

The residue blackens in proportion to the amount of organic carbon present, provided there is no excess of nitrates. Nitrates are present excessively more often in animal polluted waters; hence the residue of such waters blackens less than that of vegetable contaminated waters, both because animal matter contains less carbon as a rule, and because the nitrates supply oxygen to consume it quickly. Vegetable carbon often blackens intensely and the blackening persists.

LOSS ON IGNITION OF RESIDUE.—2.0.

This consists of the combustible and volatile portion of the organic matter, and volatile mineral substances—carbonic acid, nitric acid, water of crystallization, zinc, and other volatile metals. The proportion of mineral solids is larger in well water than in pond water, because well water settling through the earth has come in contact with more soluble minerals. On the other hand, pond water contains more organic solids, because the soluble organic matter received from the surface of the ground has not been removed by the filtering action of earthy strata. It is seldom that the character and quantity of natural, mineral solids condemn a water. Vegetable matter is less harmful than animal matter. Both are more harmful in well water than in pond water, because light and sunshine tend to destroy deadly germs.

HARDNESS.—1.0.

ALKALINITY.—1.0.

The figures are given in terms of carbonate of lime, *i. e.*, so many parts of carbonate of lime would give the same figures. Hardness and alkalinity give considerable information about the mineral constitution of water and often concerning its sanitary condition. Hardness is due chiefly to the salts of lime and magnesia, most often, their carbonates and sulphates. Alkalinity is caused only by their carbonates, or by the carbonates of potash, soda, ammonia, or some other alkali. Water hard from the salts of lime and magnesia, other than their carbonates, shows no alkalinity, unless the substances last named above are present. The carbonates of lime, or magnesia, give nearly the same degree of hardness and alkalinity, lime especially. Sewage increases the alkalinity which then becomes an indication of pollution.

FREE AMMONIA.—0.0017.

ALBUMINOID AMMONIA.—0.0148.

Ammonia results from the decomposition of organic matter; the free is that which the natural process of decay has produced, and points to what extent decay has been going on in the water; the albuminoid results from the artificial decomposition of organic matter during analysis and points to the quantity of organic matter actually present. In good well water the albuminoid ammonia should not exceed 0.009 part, and in good pond water 0.015 part. In neither should the free ammonia exceed 0.005 part.

CHLORINE.—0.3.

Chlorine is a constituent of common salt. Sewage is rich in salt, hence the value of chlorine as an indication of pollution. Good water should not contain more than 0.5 part of it, unless the locality is near the sea coast, or is naturally rich in salt.

NITRIC ACID.—Trace.

This is a constituent of saltpetre which is produced by the fermentation of manures and sewage. Good well water should not contain more than 0.5 part of it, and pond water not more than 0.02. Excess of chlorine or nitric acid in water always indicates either actual contamination, or dangerous proximity to sources of filth. In this case, the water contains filtered sewage. Nitric acid of ten results from the oxidation of ammonia, or vegetable matter. If the quantity of chlorine is normal while the nitric acid is excessive, the water is probably contaminated with vegetable matter, unless other results deny it.

NITROUS ACID.—None.

This is a lower oxide of nitrogen than nitric acid. It is a transition product between ammonia, or organic matter, and nitric acid. Its presence shows that the source of pollution is so near that time enough has not elapsed for the complete oxidation of its nitrogen in its progress toward the water supply. Good water should contain none of it, or but a mere trace.

OXYGEN CONSUMED IN OXIDATION.—0.198.

Good well water should require less than 0.1 part of oxygen, and good pond water less than 0.2 for the oxidation of its dissolved organic matter. In no case should it exceed 0.4. Some bad waters may require less than 0.5 part. Vegetable material, comparatively richer in carbon than animal substances, requires more oxygen for oxidation; while animal substances, being richer in nitrogen, yield more ammonia and other nitrogen compounds.

POISONOUS METALS.—None.

Water should not contain more than 0.03 part of lead, or copper, or more than 0.05 part zinc.

IRON.—Trace.

Good water ought not to contain more than 0.1 part iron.

SEDIMENT.—Little.

Good water should deposit no sediment, or scarcely any.

MICROSCOPIC EXAMINATION AND BIOLOGICAL CHARACTER OF SEDIMENT.—
Diatoms, vegetable matter infusoria.

NUMBER OF BACTERIA PER CUBIC CENTIMETRE GROWING AT BLOOD TEMPERATURE IN ALKALINE AGAR MEDIUM.—14.

NUMBER OF BACTERIA PER CUBIC CENTIMETRE GROWING AT BLOOD TEMPERATURE IN AGAR MEDIUM CONTAINING PARIETTI'S SOLUTION.—None.

Disease germs grow at the temperature of the body. Many harmless bacteria also flourish at this temperature. If a sample of water contains none which grow at this temperature, disease germs are evidently absent. The disease germ more usually found in waters of this latitude is the typhoid bacillus. The bacillus coli communis, whose original habitat is in the intestines, though not strictly a disease germ, is preëminently the sewage bacterium, and consequently all waters in which it is found should be condemned. The presence of any other sewage bacterium should also condemn a water for drinking purposes. The typhoid bacillus, the coli communis, and a few others will grow in agar medium, containing Parietti's solution, but to distinguish and identify them, special cultures and examinations must be made. Bacteria multiply very rapidly after water is taken from its source and raised to summer temperature. Since the kind of bacteria is more important than their number, the delay necessarily caused by transportation of the sample, if not too long, is favorable instead of objectionable, because a very few disease germs in a large quantity of water might escape discovery, but detection of them would be much more certain after their multiplication.

DISEASE GERMS.—None.

This is good water.

EDMUND R. ANGELL.

June 17, 1899.

SAMPLE TAKEN FROM TAP IN WATER OFFICE, IN WHICH A PIECE OF GALVANIZED IRON PIPE WAS ALLOWED TO STAND ABOUT TWELVE HOURS.

Water is a mineral substance, composed of two elements. Hydrogen forms one-ninth of its weight, and oxygen, eight-ninths. This is water chemically pure, or pure water. As found in nature, it always contains other substances. Water sanitarly pure need not be chemically pure. Water sanitarly impure, designated as polluted, or contaminated, contains substances or organisms injurious to health; animal matter, vegetable material, disease germs, poisonous metals, as lead, zinc, copper, manganese, etc.

The figures in the analysis represent parts per 100,000. To convert into parts per million, multiply by 10; into parts per United States gallon, by 0.583722; into parts per English gallon, by 0.7.

ODOR.—Odorless.

COLOR.—Slight tint.

TRANSPARENCY.—Clear.

Pure water is odorless, colorless, clear, and tasteless. Water sanitarly pure may have one or all of these properties. Polluted water may be free from some or all of them.

BEHAVIOR DURING EVAPORATION.—Nearly quiet.

APPEARANCE OF RESIDUE.—Little yellowish; nearly uniform.

Water containing vegetable juices is a thin syrup. Such water foams during evaporation. Circles and irregular figures are marked on the dish where the last bubbles break in drying away. Animal matter seldom causes water to behave in this manner.

TOTAL SOLIDS.—5.6.

The amount of solids in water, sanitarly pure, varies greatly. Good well water in this state seldom contains more than 15 parts. Good pond water contains less than half of this quantity.

IGNITION OF RESIDUE.—It darkens little.

The residue blackens in proportion to the amount of organic carbon present, provided there is no excess of nitrates. Nitrates are present excessively more often in animal polluted waters; hence the residue of such waters blackens less than that of vegetable contaminated waters, both because animal matter contains less carbon as a rule, and because the nitrates supply oxygen to consume it quickly. Vegetable carbon often blackens intensely and the blackening persists.

LOSS ON IGNITION OF RESIDUE.—2.0.

This consists of the combustible and volatile portion of the organic matter, and volatile mineral substances,—carbonic acid, nitric acid, water of crystallization, zinc, and other volatile metals. The proportion of mineral solids is larger in well water than in pond water, because well water settling through the earth has come in contact with more soluble minerals. On the other hand, pond water contains more organic solids, because the soluble organic matter received from the surface of the ground has not been removed by the filtering action of earthy strata. It is seldom that the character and quantity of natural, mineral solids condemn a water. Vegetable matter is less harmful than animal matter. Both are more harmful in well water than in pond water, because light and sunshine tend to destroy deadly germs.

HARDNESS.—2.0.

ALKALINITY.—*2.9.

The figures are given in terms of carbonate of lime, *i. e.*, so many parts of carbonate of lime would give the same figures. Hardness and alkalinity give considerable information about the mineral constitution of water and often concerning its sanitary condition. Hardness is due chiefly to the salts of lime and magnesia, most often, their carbonates and sulphates. Alkalinity is caused only by their carbonates, or by the carbonates of potash, soda, ammonia, or some other alkali. Water hard from the salts of lime and magnesia, other than their carbonates, shows no alkalinity, unless the substances last named above are present. The carbonates of lime, or magnesia give nearly the same degree of hardness and alkalinity, lime especially. Sewage increases the alkalinity which then becomes an indication of pollution.

FREE AMMONIA.—0.0020.

ALBUMINOID AMMONIA.—0.0104.

Ammonia results from the decomposition of organic matter; the free is that which the natural process of decay has produced, and points to what extent decay has been going on in the water; the albuminoid results from the artificial decomposition of organic matter during analysis and points to the quantity of organic matter actually present. In good well water the albuminoid ammonia should not exceed 0.009 part, and in good pond water 0.015 part. In neither should the free ammonia exceed 0.005 part.

CHLORINE.—0.1.

Chlorine is a constituent of common salt. Sewage is rich in salt, hence the value of chlorine as an indication of pollution. Good water should not contain more than 0.5 part of it, unless the locality is near the sea coast, or is naturally rich in salt.

NITRIC ACID.—Mere trace.

*This represents the amount of acid consumed rather than the amount of alkali-earth in solution. The presence of zinc causes this variation and also that in the hardness.

This is a constituent of saltpetre which is produced by the fermentation of manures and sewage. Good well water should not contain more than 0.5 part of it, and pond water not more than 0.02. Excess of chlorine, or nitric acid in water always indicates either actual contamination, or dangerous proximity to sources of filth. In this case, the water contains filtered sewage. Nitric acid often results from the oxidation of ammonia, or vegetable matter. If the quantity of chlorine is normal while the nitric acid is excessive, the water is probably contaminated with vegetable matter, unless other results deny it.

NITROUS ACID.—None.

This is a lower oxide of nitrogen than nitric acid. It is a transition product between ammonia, or organic matter, and nitric acid. Its presence shows that the source of pollution is so near that time enough has not elapsed for the complete oxidation of its nitrogen in its progress toward the water supply. Good water should contain none of it, or but a mere trace.

OXYGEN CONSUMED IN OXIDATION.—0.184.

Good well water should require less than 0.1 part of oxygen, and good pond water less than 0.2 for the oxidation of its dissolved organic matter. In no case should it exceed 0.4. Some bad waters may require less than 0.05 part. Vegetable material, comparatively richer in carbon than animal substances, requires more oxygen for oxidation; while animal substances, being richer in nitrogen, yield more ammonia and other nitrogen compounds.

POISONOUS METALS.—None, except zinc 0.28.

Water should not contain more than 0.03 part of lead, or copper, or more than 0.05 part zinc.

IRON.—Trace.

Good water ought not to contain more than 0.1 part iron.

SEDIMENT.—Very little.

Good water should deposit no sediment, or scarcely any.

MICROSCOPIC EXAMINATION AND BIOLOGICAL CHARACTER OF SEDIMENT.—Nothing important.

NUMBER OF BACTERIA PER CUBIC CENTIMETRE GROWING AT BLOOD TEMPERATURE IN ALKALINE AGAR MEDIUM.—3.

NUMBER OF BACTERIA PER CUBIC CENTIMETRE GROWING AT BLOOD TEMPERATURE IN AGAR MEDIUM CONTAINING PARIETTI'S SOLUTION.—None.

Disease germs grow at the temperature of the body. Many harmless bacteria also flourish at this temperature. If a sample of water contains none which grow at this temperature, disease germs are evidently absent. The disease germ more usually found in waters of this latitude is the typhoid bacillus. The bacillus coli communis, whose original habitat is in the intestines, though not strictly a disease germ, is preëminently the sewage bacterium, and consequently all waters in which it is found should be condemned. The presence of any other sewage bacterium should also condemn a water for drinking purposes. The typhoid bacillus, the coli communis, and a few others will grow in agar medium, containing Parietti's solution, but to distinguish and identify them, special cultures and examinations must be made. Bacteria multiply very rapidly after water is taken from its source and raised to summer temperature. Since the kind of bacteria is more important than their number, the delay necessarily caused by transportation of the sample, if not too long, is favorable instead of objectionable, because a very few disease germs in a large quantity of water might escape discovery, but detection of them would be much more certain after their multiplication.

DISEASE GERMS.—None.

This is good water, without the zinc.

EDMUND R. ANGELL.

September 27, 1899.

REPORT OF ENGINEER OF PUMPING STATION.

PUMPING STATION, CONCORD WATER-WORKS.

V. C. HASTINGS, *Superintendent*:

SIR,—I would report that the pumping machinery at the pumping station is in very good working condition.

Following will be found a statement of the coal and supplies used at the pumping station during the year, with a table showing the work for each month.

Statement.

76 tons, 790 lbs. Pocahontas coal.
55 tons, 1345 lbs. Cumberland coal.
47 cords of wood.
60 gallons of oil.
31 lbs. of waste.

ENGINE RECORD.

Date.	Pumping time. <i>h. m.</i>	Gallons water pumped.	Daily average pumped.	Total coal burned.	Daily average coal burned.	*Gallons pumped per pound of coal.
January	133:00	11,371,435	366,820	23,510	759	483
February	133:45	11,313,704	404,060	24,025	858	470
March.....	133:00	11,327,236	365,394	24,497	790	460
April.....	127:15	10,778,612	359,287	23,002	766	468

HIGHWAY DEPARTMENT.

REPORT OF COMMISSIONER OF HIGHWAYS.

To the City Council :

The greater part of the money expended this year has been used for general maintenance, that is, repair of roads, streets, courts, culverts and bridges. The out-lying districts, as will be shown in this report, have received more attention than in previous years. We have tried to harden as many sandy hills and grade as much as possible. In many places we have been obliged to draw the material such a distance that the cost of repairs are quite expensive. Horse Hill bridge and East Concord bridge have been repainted. Turkey river bridge, by the Moreland Farm, has had a new abutment, new stringers and new floor complete. The bridge on St. Paul's School old road has been replanked and two new stringers replaced. Sheep Davis bridge replanked on the Concord side. A small bridge across the canal at Penacook has been replanked, also the Main' street and Twin bridge floors have been concreted, and a number of culverts have been rebuilt and lengthened.

The bridge on the Pembroke road, across the Soucook river, is in a bad condition and unsafe for heavy teaming. I recommend that an "Iron Gruder" be built next spring. The town of Pembroke, I am quite sure, will agree to this. Many of the small bridges about the city are in a bad condition, and will need repairing another year.

All catch basins built this year have been 8-inch wall, large enough to keep the sand from running into the sewer. We have had considerable complaint about sewer gas escaping

through the basins which were either untrapped or traps broken. It is impossible to prevent this if the traps are perfect, as the slightest amount of sand or small sticks will hold the traps down and allow the gas to escape. The work of cleaning basins this year has been greatly reduced by the use of Edson diaphragm pump, which pumps the water from the basins direct into the sewer, and this does away with allowing it to stand on the surface of the ground until the sand is removed and then allowed to run back into the basin.

The work of cleaning the streets this year was done thoroughly. Owing to a late winter, this department had ample time to cover the entire cleaning precinct; the grass was cut from the gutters giving the streets a neat appearance.

The public greatly accommodated this department in the fall by putting their garbage in boxes and barrels, and lessened the labor of the collectors greatly.

In many sections of the city there are a number of accepted streets that should be worked to grade. If these streets were properly graveled the road surface would be, as in many cases in the city proper, much higher than the sidewalk, and in the winter and spring would be covered with water, owing to the great amount of snow in this section. Some of the streets should be brought to grade every year; as the city enlarges, the demand for grading these streets will increase and the cost in many instances will be large. The appropriation for sidewalks this year was sufficient to build many that were much needed, and they, no doubt, will be appreciated.

The shade trees about the city are in a bad condition, and as they have been trimmed only by linemen, many limbs die and blow down with every high wind. Many have died on account of gas leaks and maple worms; these are taken down and the cost amounts to more than has been expended on the street where they were taken down.

SPRINKLING. Owing to the extraordinary dry season this year, the sprinkling appropriation was soon expended. I would respectfully recommend that this be large enough next season to allow for new sprinklers, and have the precinct enlarged, or as many streets sprinkled as the people may ask.

Some of the sprinklers will be found in a bad condition, having been in service ever since the inauguration of sprinkling streets.

The standpipes about the city have been changed to overhead standpipes, whenever a low one becomes out of repair. These, while perhaps not so ornamental, are much more inexpensive and will seldom, if ever, be found out of repair.

I would recommend paving Freight street with block paving taken from Main street, and replacing these with concrete. The large and increasing traffic, together with the steep grade of Freight street, combine to make it impossible to maintain gravel or macadam road. I also recommend the concreting of State street directly opposite the Government building. This will only need a top coat, and will add much to the appearance and travel. We should like to macadam that portion of North State street that leads out from Penacook, and hope sometime that a macadam road may be complete from Penacook to Concord.

Respectfully submitted,

HENRY H. JOHNSON,

Commissioner of Highways.

INVENTORY OF CITY PROPERTY, FEB. 1, 1899.

NOTE DATA: Previous to 1899, taken from City Reports.

CITY ENGINEER.

REPORT OF CITY ENGINEER.

OFFICE OF THE CITY ENGINEER,

CONCORD, N. H., December 31, 1899.

To the City Council :

The undersigned herewith submits the annual report of the Engineering and Sewer Departments for the year ending December 31, 1899.

BRIDGES.

The Main street bridge and the Twin bridge, in Penacook, were completed, and a certificate issued February 3, 1899, over four months later than the time specified for completion in the contract. The amount paid for the entire work was \$8,100. The cost of each structure cannot be given, as the price paid covered the cost of all labor and materials for both bridges. The expenditures attending this work, outside the contract with the bridge company, will be found in the report of the Commissioner of Highways. Your engineer would recommend that any future bridge construction be taken from plans furnished by the city, and not from plans furnished by the contractors.

An examination of the bridges built upon city plans and those built upon plans furnished by the contractors, will, in my opinion, sustain the recommendation. The Main street

bridge was not, as has been stated by some parties, built to accommodate the street railway. The bridge was not designed to carry the load that street railway service would bring upon it. No extras were allowed on this work, although the contractors claimed some \$300 for a set of new pins furnished for the Twin bridge. Upon taking down the old bridge on the Main street site, examination revealed the fact that the old pins were not suitable to be used again, and new pins were ordered, which was in strict accordance with the terms of the agreement made with the contractors. By shortening the old bridge about 40 feet, the introduction of a new floor system, and a new overhead lateral system, a bridge suitable for the Twin site was made, which, barring accident, should do good service for many years. The work was done under contract with the Wrought Iron Bridge Co., of Canton, O., who were the original builders of the Main street bridge.

ENGINEER'S OFFICE AND WORK.

The general survey of the city has been advanced, so far as we were able to devote time to it, the past season. The territory from Bow line on the south to the Horse Hill bridge on the north, and the Hopkinton line on the west, has been covered, and with the exception of that portion lying north-westerly from the Horse Hill bridge, the entire westerly side of the city has been surveyed.

The reduction of the appropriation for this department made it necessary for us to drop this work in the fall, at a season when we could have advanced more rapidly. We hope that the appropriation for this department, for the coming season, may be somewhat increased over the last one.

It would be of advantage to the different departments to have a complete map of the city, but without a special appropriation for this work to enable us to put a party in the field for this work alone, we cannot complete the remaining portions, on the easterly and westerly sides of the city, for some time.

The work for all departments has been attended to as rapidly as possible, and so far as known no work requiring immediate attention has been left unfinished.

The removal of the office of this department to the city building has been of benefit to us in increased space, and the saving of nine months' rent to the city.

The assistants employed the past season were: Frank W. Brown, principal assistant; Fred W. Lang, transitman; Charles H. Chandler, rodman; who have cheerfully and thoroughly executed the work assigned to them.

The expenses of this department have been as follows:

Paid for salaries	\$2,367.50
supplies	98.55
repairs	18.20
livery bill	103.00
car fares and incidentals	78.95
rent	51.00
	<hr/>
Total	\$2,717.20
Appropriation	2,701.00
	<hr/>
Overdrawn	\$16.20

I wish to express to the mayor and the city council my appreciation for their support and advice during the past season.

SEWERS.

With the exception of a break in the twenty-inch outlet near Larkin's store no unusual expenses have attended the repairs and maintenance of the sewer system. A statement of the cost of new work and the amount expended for repairs and general maintenance will be found upon the following pages.

There is no doubt, in my mind, that the adoption of the state law in regard to plumbing and regulations for the same, will result in direct benefits to the public as well as to the plumbers. With an inspector capable of making a thorough

inspection of old and new work, we shall be relieved, in many cases, of complaints as to improper construction, open joints and generally bad systems of house plumbing, and the serious results arising therefrom.

While your engineer recognizes the fact that there are differences in opinions among sanitary engineers and plumbers regarding the proper ventilation of sewers and their connections, we can only follow closely the best results of years of experience in cities where they are in search of, and adopt, the best methods and secure the best results.

Your engineer would recommend the abolishment of the running-trap, generally found outside the building, in our house sewers. In my opinion an open pipe from the street sewer to a point above the roof, of undiminished size, with all connections trapped outside the line of this pipe, will give relief from back pressure of sewer gases, as when the sewers are suddenly filled from showers, and afford an unobstructed avenue of escape for any and all gases generated in the sewer system. It would also remove one of the common causes of stoppages in house drains. There are sometimes cases where a running-trap might be required, but they are largely in the minority. If the method of open connections was adopted in this city, it would ventilate the sewer system to a great extent.

At present we have some complaints of foul odors and escaping gases from a few catch-basins. This must be expected, as very few open connections are found to exist, and these basins, if traps are not tight, are the only openings through which the accumulated gases can escape.

STREETS LAID OUT.

WEST CONCORD SEWER PRECINCT.

The work in this precinct, during the past season, consisted in flushing the entire system at a cost of \$9.88.

EAST CONCORD SEWER PRECINCT.

No extensions were built in this precinct. The system was thoroughly flushed with the assistance of the hand engine at a cost of \$14.50.

There has been deposited, to the credit of the city, the sum of \$29.50, for which amount I hold the receipts of the city treasurer.

Respectfully submitted,

W. B. HOWE,

City Engineer.

PUBLIC LIBRARY.

REPORT OF THE TRUSTEES.

To the City Council:

The trustees of the Public Library submit herewith the report of the librarian, which describes at some length, and with interesting detail, the work of the past year and renders any extended statement by the board unnecessary.

In the years 1891-94 the annual appropriation for the library was \$6,000; in 1895 it was \$6,500; and in 1896, \$6,000. The trustees in their annual reports, prepared by Judge Foster, the president of the board, who knew thoroughly the needs of the library and had the deserved confidence of the city council, alluded to these appropriations as liberal and earnestly recommended their continuance for "the maintenance and prosperity of an institution which has become indispensable to the welfare of our people," and characterized them as "investments which are sure to return large profits in the way of higher education of the people and their mental and moral development." Reports, 1894-1896. In 1897 the trustees of the library, in view of the increased burdens of public taxation, recommended through Mr. Charles H. Sanders, one of their number, then also a member of your honorable body, that the appropriation be reduced to \$5,500, as an economical, not liberal, expenditure for the support of the library during the year, and that amount was granted. In 1898, the trustees recommended the same appropriation, but the city council, unwisely, as we thought, reduced still further the amount to \$5,000, and in 1899 the appropriation shrank to \$4,700. Of this last sum

only \$676.83 has been available for the purchase of books. During the past year the circulation of our library was 90,161 books. The circulation of the Dover Public Library during the same period was 71,269. Yet the Dover library, in 1898 (its statement for 1899 is not at hand), expended for books the sum of \$881.75, or nearly twice the sum we have used for the same purpose when proportioned to the relative circulation. It is evident that a continuance of this extreme economy will result in the serious deterioration of our library, and this deterioration will soonest affect its most useful departments, for scientific books, books of research, works of reference, and similar publications are expensive and if not well abreast the times are almost worthless. In view of this situation a committee of the trustees, consisting of Messrs. Sanders, Hill and Mitchell, has been appointed to confer with your finance committee touching the matter.

In this connection we would say that the affairs of the library have been economically administered, and in other respects the management of the institution has our entire approval. The only merit we can claim in that regard is our uniform support of the librarian in her efforts to shape its policy as best to meet the varied wants of all the patrons. We also commend the faithfulness of the assistants, and we are confident that the public have found their helpfulness and tact unflinching.

MOSES H. BRADLEY,

Trustees.

CONCORD, February 3, 1900.

REPORT OF THE CITY LIBRARIAN FOR 1899.

To the Board of Trustees of the Concord Public Library:

GENTLEMEN:—It is a pleasure to report a gain in both the quantity and the quality of our circulation the past year. We have given out more books and better books. Our per centage of fiction reading now compares favorably with that of the majority of libraries: for instance, our per centage is 78; in Salem, a cultivated old town, with an admirably equipped library, it is 82½ per cent.

At the delivery desk alone, we gave out in 1899 over 90,000 books, more than are given out in cities the size of Manchester and Portland. Large as this figure is, it represents but a small part of the library's usefulness, for as the Minneapolis city librarian says:

“It is only the lighter and cheaper part of our books loaned at the desk. Great injustice is done when account is not taken of the books consulted within the library. One consultation by a teacher, a preacher, or an author, of a weighty work in science, history or philosophy—a consultation the fruits of which are to be presently communicated to hundreds in the school-room, in the pulpit, or in the book, one such consultation is worth more than a score of novel readings.”

It is impossible to take statistics of every book consulted within the building, but it has been estimated by a Chicago librarian that the recorded use is such a small fraction of the whole use of a library that the ratio is as 1:3. Thus the good work recorded by our statistics is in reality tripled.

We can report that out of our great number of books loaned, only two have been lost during 1899.

Our reference room is freely used, mainly, at present, by High School pupils who can run in, even at recess, from their building which is so conveniently near, to consult books which have been laid aside for them at the request of their teachers; and by the members of the art and science departments of the Woman's club. Many ladies, by having papers to prepare, are just realizing the resources of the library.

The purchase of books has been chiefly of those which would best meet the popular demand for pleasure and instruction. One important purchase was the two volume "History of the Catholic Church in New England," and another the ten volume set of John L. Stoddard's lectures. The latter were bought with the income from Mr. P. B. Cogswell's bequest. Each book bought with this money will be marked with a special book-plate, and at any time it can thus be seen where this portion of our income has gone.

A larger yearly appropriation would help our library in several ways. Obviously, we could buy more good new books. Furthermore, we could buy more copies of a book all are wanting at the same time. Thirdly, we could get duplicates of standard works for school use, so that when a teacher in East Concord is using Fiske's "History of the United States," a teacher in West Concord could use it too; or so that when the literature teacher in the High School requires fourteen pupils to read a dozen classics during the term, there might be more than one copy to go the rounds. Fourthly, we could replace worn-out books. Says the Providence librarian, "After a library has passed its twentieth year," and our Concord one has passed its fortieth, "this wear and tear makes itself manifest in an ever increasing ratio, and the money needed for replacing these books is a most unwelcome diminution of the book fund." Some books circulate longer than they should. Occasionally a borrower tucks in a note when she returns a book, saying, "This book is too dirty to go out again." We know it, but so long as it holds together, it has to do duty. As it is, we discard over two hundred utterly worthless books each

year. Fifthly, although by no means lastly, we could, with more funds, bind more back years of magazines for reference.

We do not see how some libraries report the number of books mended. We could not count the number of times we use the paste brush. All books are examined when returned and mended before being put on the shelves, and thousands need attention every month. To instance one item of the repairing done, 6000 old labels have been scraped off, and as many clean ones put on the backs of books, in six months.

Only 500 new borrowers have been registered during the past year; yet the building seems fuller of patrons than it did, and the rooms are growing small. On a recent Sunday afternoon I carried six chairs from our stack-room to the reading-room to accommodate the adults. Then, accompanied by two small brothers, came a little girl, "a simple child that lightly draws its breath," who said, "'We are seven,' and mother wanted to get rid of some of us;" the trio were shown to the boys' room in the basement. Later four lads arrived, who wanted to go down there, and they took the remaining space in that small room. Meanwhile the vestibule was occupied by people looking at the Scribner exhibit of pictures. I assure you, to hang out the sign, "Standing room only," would bring more joy to the librarian than it would to the public.

Junior work is reaching the dignity of a department in modern libraries, and all librarians are asking for funds to equip rooms specially for children; a reading room, where, as they whirl over the pages of "St. Nicholas," they may not disturb a quiet adult, trying to get a cosmopolitan point of view from a foreign quarterly. And another room where the best juvenile literature can be arranged on open shelves, for, as the Pittsburgh librarian says, "Children's books ought to be out for them to select from. If not, they get a grown-up book, are disgusted, return it, leave their card, and the parents criticise the books their children take from the library. It is not possible for the loan desk attendants, at busy times,

to examine the books and question the children"; though when we see a small boy walking off with Gail Hamilton's "Battle of the Books" (about her quarrel with her publishers), we hurry after him and save him from disappointment by giving him instead, "Twenty Decisive Battles of the War," or some book about a *real* fight.

How much it would help children to have access to *many* open shelves is proved by their constant use of the meager supply of books suitable for them which we can place on the two little ledges called the Boys' Corner and the Girls' Corner.

The prevalence of contagious diseases in Concord the past year leads us to acknowledge the good work done by our city health officer. At the outbreak of any infectious disease in a house, he takes into his keeping all the library books found there, and brings them back fumigated and guaranteed harmless. In extreme cases, he reports them burned. Concord's way is better than that taken in some towns, where the rule is that borrowers may return their books themselves after getting a permit from the board of health, but where the practice frequently is that they slip in their books without getting a permit.

In September a New England library meeting was held here, which was fortunate in attendance and speakers, though not in weather. Whatever inspiration this large conference may have given, the library workers in the city do not mean to lose, as they have formed a library club to discuss problems and methods.

The joining of an art club has given this library the privilege of exhibiting, from time to time, collections of pictures which will be attractive at first sight and interesting and instructive upon examination. This Library Art Club, started in Massachusetts, in 1897, has now at least thirty fine collections to send around to its members. The Concord public has been kind to give expression to its enjoyment of the exhibits already shown.

As the Baltimore librarian says, "People are coming to think that a public library is as legitimate a branch of public education as a public school, and of public recreation as a city park."

The hearty and conscientious coöperation of the assistants in the work of the library is gratefully acknowledged.

It is interesting to note that in the Portland Public Library, where the circulation is no larger than here, there are seven regular assistants where we have three, and the trustees report that to carry on their library properly they should have annually on hand at least \$12,000. Last year we had \$4,700.

Respectfully submitted,

GRACE BLANCHARD,

Librarian.

SANITARY DEPARTMENT.

REPORT OF THE BOARD OF HEALTH.

To His Honor the Mayor and the City Council:

The board of health have had a year of unusual activity, and offer the following as a summary of the work of the sanitary department during the past twelve months:

THE PLUMBING QUESTION.

The board have felt for some time that an important step toward better sanitary conditions would be made when plumbing was done under such regulations as would guard the public against inferior work and the labor of incompetent men. Reference has been made to this subject many times in the annual reports of the board, and its members have taken advantage of such opportunities as have been afforded them to work for state legislation to this end. By the state law of 1899, the cities were given the protection which had been asked for by health boards and others interested in sanitary matters. By the provisions of this law the business of plumbing is made subject to such restrictions as will prevent incompetent men from engaging in it, and will secure for both materials and workmanship careful inspection by a competent official. Similar provisions had already been made by local ordinances in several cities of the state, and the benefits of the system had been amply demonstrated before a

state law had made such a course compulsory on the part of all cities. The board regret that thus far Concord, which was one of the first cities in the state to employ a health officer and has always kept abreast with other cities in efforts to protect the public health, has not enjoyed the benefits which we are confident will attend an honest enforcement of the act of 1899, "authorizing the examination of plumbers, and regulating the practice of plumbing and house drainage."

ASSISTANCE IN QUARANTINE.

An act providing for assistance to persons while in quarantine became a law early in the year, and is:

"SECTION 1. Whenever any person or family is placed in quarantine by a board of health to protect the public against small-pox, scarlet fever, diphtheria, or other dangerous infectious or contagious disease, it shall be the duty of said board to assist such person or family while in quarantine, in such manner as in the judgment of the board may be deemed wise or necessary.

"SECTION 2. All expenses thus incurred, or such part thereof as the board may determine, shall be deemed a legitimate expenditure for the protection of the public health, shall be charged to the account of incidental expenses, but not to any indigent or pauper account; nor shall such expenditure be construed to mean public aid to the person or persons so quarantined and assisted unless such person or persons are already paupers as defined by the Public Statutes.

"SECTION 3. All acts and parts of acts inconsistent with this act are hereby repealed, and this act shall take effect upon its passage."

The above act received the signature of the governor March 11, and in the brief time this law has been in operation, its necessity has been made manifest through the good we were enabled to do in relieving the pressing wants of those who, under ordinary circumstances, were competent to

provide for themselves, but, when embarrassed by quarantined illness, found it impossible to keep even with the world without receiving aid from the city or county. When the main and, usually, the only wage-earner of the family was stricken down, or compelled to remain at home to assist the others, or, when feasible, permitted after proper precautions to leave home and board outside, the income of that family was altogether cut off or appreciably decreased while the expenses were at the same time largely increased. It is in this class of cases the wisdom of the law stands out in all its brightness and guarantees kindly assistance to those who are isolated, in order that the greatest good to the greatest number may be attained.

SCARLET FEVER.

It is well-nigh impossible to estimate in dollars and cents the cost of the epidemic of scarlet fever from which we suffered during the year, but we can have some adequate idea of it when we recall that from August 3 to December 31 there were reported to this office ninety-nine cases; seventy-five of these represented as many different families. The loss in wages and the increased cost of maintenance would foot up to a very high figure, while the anguish of mind, pain of body, the isolation depriving them of converse with others, and, in the case of children, the prolonged absence from school can not have their sad features figured out on any financial basis. Neither can the loss of a life be computed by any such system, though attempts are made to do so, and we may well feel thankful that out of so many cases only one death occurred. One thing we deeply regret,—the absence of a hospital for these cases. Had we in our city an institution for the proper care of contagious diseases, we fully believe many of these cases would never have happened. Notwithstanding the strenuous efforts put forth by frequent visitations of the health officer, re-enforced for some time by a police officer patrolling the infected district, it was not possible at home to keep them isolated or effectually quarantined.

In many instances the disease was so light in its course and the symptoms so poorly defined that undoubtedly there were not a few unrecognized until other cases in the family or playmates made a diagnosis certain. This fact aided greatly in its spread and for a while all of our best efforts seemed in vain. Everything deemed necessary to stay its progress was resorted to, and recognizing the dangers to the children attending the Walker and Franklin schools, we adopted at our regular meeting, September 2, and immediately forwarded to the board of education the following resolution :

“ It is the sense of the board of health, that on account of the prevalence of scarlet fever in the vicinity of the Walker and Franklin schools, those buildings should not be opened until the spread of the disease is passed.”

So the opening of the school year for those two schools was postponed for four weeks. The epidemic was confined to the territory north of Washington street until October 14, when a case was reported from the previously uninfected part of the city, and then followed cases from all directions. Much unnecessary alarm was caused by exaggerated reports and demands made on us to close all of the schools, but the exigency did not seem to us to exist. The situation was closely canvassed, and, at a special meeting, Sunday, November 5, it was voted to close one room at the Chandler school, and ask a conference with the board of education at their regular meeting the next evening. As a result of the conference the board of education adopted the following resolution :

“ That the board of education express to the board of health its hearty approval of the suggestion for daily inspection of the schools in the central part of the districts, and grant permission to the board of health and its agents to institute such inspection as it deems wise.”

Immediately following the conference, we assigned the following physicians to make the inspections :

Tahanto school	. . .	Dr. Ralph E. Gallinger.
Walker	“ . . .	Dr. A. P. Chesley.
Franklin	“ . . .	Dr. Russell Wilkins.
Merrimack	“ . . .	Dr. F. W. Grafton.
Kimball	“ . . .	Dr. N. W. McMurphy.
Bow Brook	“ . . .	Dr. Geo. H. Parker.
Chandler and Parochial schools		Dr. D. E. Sullivan.
Rumford school	. . .	Dr. A. K. Day.
Penacook	“ . . .	Dr. E. A. Clark.
Cogswell	“ . . .	Dr. S. G. Morrill.

Subsequently, Dr. Chancey Adams assisted in the work; and to these physicians who so faithfully aided us in limiting the progress of this and other contagious diseases, are we deeply indebted.

On Tuesday, November 7, the inspections were commenced; the visits were made early in the morning session; the teachers rendered hearty co-operation; the pupils were examined separately; the routine of the school work was not appreciably disturbed, and we know much good was accomplished. We believe it was the first time in the history of the schools of the state that a daily systematic inspection of the scholars was made, and from the results we are assured the innovation was most beneficial, and, regardless of outbreaks of disease, might, with much profit, be regularly repeated.

On December 11, the thorough fumigation of all the schools was commenced, the health officer being assisted by the janitors of the different schools; and from basement to attic was the cleansing process carried out. All floors, windows, furniture, and surfaces that could be scrubbed were submitted to plentiful applications of soap and water with sufficient formalin added to destroy all germs. Formalin, sprinkled on suspended sheets, was the agent used in fumigation.

The success which attended all these efforts was due in a large measure to the hearty co-operation extended and valuable assistance rendered by the board of education, and by Mr. L. J. Rundlett, superintendent of the schools of Union School District.

SANITARY CONDITION OF THE SCHOOLS.

April 21, the board of education were notified of the imperative necessity of immediate improvement in the West Concord school, and of a desire on our part to meet them or their agents at an early date to confer in regard to the sanitary condition of that and other schools under their jurisdiction. Agreeably to the above we met together May 10, and after a lengthy and exhaustive discussion the following resolution was unanimously adopted:

“*Resolved*, That it is the sense of this conference that before the beginning of the next school year, such changes and repairs should be made at the West Concord school building as will remedy the existing defects in the matters of ventilation, danger from fire, and sanitary arrangements.”

It was also the sense of the meeting that other specific changes should be made in other school buildings, and during the summer vacation, and since then, many improvements have been made.

The Manual Training and Sewing schools have discontinued their outhouses and made connection with the public sewer, though some further change must be made in the flushing system at the Sewing school. Jacketed stoves have been placed in the Plains and East Concord schools, thus allowing some fresh air to be introduced—an improvement on the old method of depending on the windows and doors. Changes have been made in the ventilating systems at the Walker and Franklin schools, and recently a radical alteration in the heating and ventilating of the Merrimack school has been agreed upon. All of the buildings have undergone a general cleaning-up and an application of paint and whitewash so as to markedly improve their physical appearance. There yet remain, however, many things to be done before the buildings can be said to be in first-class sanitary condition, and during the coming year it is hoped there will be a continuation of the good work so promisingly commenced this summer.

COLLECTION OF GARBAGE.

The board are satisfied that an improvement in the manner of collecting garbage about the city is one of the needs of Concord's sanitary situation at the present time. The use of receptacles which will protect the public from the smell and sight of the contents of waste barrels, and a service sufficiently frequent and regular to prevent the accumulation of filth and decaying animal matter, will remedy the most striking defects in the present haphazard system of house to house garbage collection. In many places these improvements are brought about by city ordinances fixing the kinds of carts and other receptacles to be used, and, in some instances, prohibiting all but licensed collectors from engaging in the business. In a city of the size of Concord perhaps all the collectors who make the rounds at present could not afford to go the expense of equipping themselves with closed carts and receptacles, but doubtless such a number as could cover the city at intervals sufficiently frequent to care for all the waste of houses and institutions would be able to meet such requirements as your honorable body might establish.

VENTILATION IMPROVEMENTS.

We are glad to state that the ventilation of the blacksmithing department of the railroad shops at the south end has been improved to the entire satisfaction of all concerned. That the smoke in their shop was not only a nuisance but dangerous to the health of the employees, there was no doubt, but how it could be satisfactorily remedied was apparently a difficult problem. Similar shops were visited and a careful inspection of their ventilating systems was made. Mr. Charles H. Wiggin, master mechanic, cheerfully rendered every assistance in his power, and after several experiments perfected a system which seems to meet every requirement.

It affords us pleasure to record that the work of Health Officer Charles E. Palmer has been fully up to the high standard of previous years. Ever ready to carry out the instructions of the board and cheerfully accepting added duties, he

has labored faithfully and well to keep Concord abreast of the times in sanitary matters. Reference to the accompanying detailed report of the work done by this officer will show that he has been far from idle. The health officer is daily brought in contact with all classes and conditions of people in the city, and is often called upon to exercise much firmness or tact, as the case may require. That he is uniformly successful in performing his duties with the least amount of friction is no small credit to his ability.

During the past year Dr. E. A. Clark has retired from this board after a continuous service of twelve years. Dr. Clark was a faithful and efficient public official, and gave freely of his time and experience that the sanitary condition of the city might be brought to a satisfactory standard. For the important improvements which have been brought about during the past few years he is entitled to a full share of credit.

Respectfully submitted,

D. E. SULLIVAN, M. D.,
RUSSELL WILKINS, M. D.,
EDWARD N. PEARSON.

REPORT OF THE SANITARY OFFICER.

To the Board of Health:

GENTLEMEN,—I have the honor to submit the following report of the operations of this department for the year ending December 31, 1899.

The statements presented comprise reports upon the sanitary inspection, inspection of sewers, care of contagious diseases, and other sanitary matters, together with a mortuary report of the vital statistics for the year 1899.

The total number of deaths for the year was 365, an increase over the previous year of sixty-two. This includes all that died at hospitals and other institutions, a large number of whom came here for treatment, and are eliminated from the death rate.

CONTAGIOUS DISEASES.

The following table shows the number of cases of contagious diseases reported during each month of the year and the deaths resulting therefrom :

MONTHS.	Diphtheria.		Scarlet fever.		Typhoid fever.		Measles.	
	Cases.	Deaths.	Cases.	Deaths.	Cases.	Deaths.	Cases.	Deaths.
January	3	2					3	
February					1	1		
March							3	
April							1	
May							22	
June			1				68	
July	2						42	
August	1	1	15		3		27	
September			26		3		23	
October	2	2	20	1	5		21	
November	1		20		1		47	
December			17		1		42	
Totals	9	5	99	1	14	1	299	

Number of cases of typhoid fever reported from hospitals, 4; died, 1.

RECORD OF CONTAGIOUS DISEASES BY WARDS.

	1	2	3	4	5	6	7	8	9	Total.
Diphtheria.....		3		2		1		2	1	9
Scarlet fever.	1			43	3	6	2	3	41	99

Measles.....	4	3	87	124	17	20	25	5	14	299

COMPARATIVE TABLE.

The following table contains the number of cases of contagious diseases and the deaths resulting therefrom, for the years since and including 1890 :

YEARS.	Diphtheria.		Scarlet fever.		Typhoid fever.		Measles.		Totals.	
	Cases.	Deaths.	Cases.	Deaths.	Cases.	Deaths.	Cases.	Deaths.	Cases.	Deaths.
1890.....	6	2	9		17	5	6		38	7
1891.....	12	3	7		14	6	2		35	9
1892.....	13	3	37	3	7	1	2		59	7
1893.....	48		41		13		300		402	
1894.....	17	3	113	6	13	3	21		164	12
1895.....	55	8	4		15	5	452		526	13
1896.....	38	8	44	8	21	3	158		261	19
1897.....	13	1	22	1	17	2	138		190	4
1898.....	4		8		8	4	120		146	4
1899.....	9	5	99	1	14	1	299		421	7

SCARLET FEVER.

The outbreak of this disease about August 1, has continued during the remainder of the year, and has been the cause of some uneasiness. There were ninety-nine cases reported, with one death. The type was a very mild one. In many instances medical aid would not be called until desquamation had commenced, or until the occurrence of secondary cases in the same family; therefore these cases were not reported until a large number of children had been exposed.

Quarantine and isolation of cases was enforced, school-houses were fumigated, and every possible effort was made to check the disease. In one instance, where it was found impossible to establish isolation, quarantine of the entire home was necessary, and as a result we had ten cases in one family. This experience has demonstrated more strongly than ever before the need of some suitable building for a contagious disease hospital, and I trust the matter will be given earnest consideration.

DIPHTHERIA.

As will be seen by the above table, nine cases were reported during the year, five of which proved fatal. Antitoxine was used in four cases where death resulted, but was used too late.

TYPHOID FEVER.

Fourteen cases were reported, one proving fatal, not including those brought to the hospital for treatment.

MEASLES.

Two hundred and ninety-nine cases of measles were reported, but no deaths are recorded from this cause. Four deaths are charged to pneumonia following measles, thus showing the importance of strictly guarding mild cases of measles.

DISINFECTION.

By your direction I have adopted the process of formaldehyde disinfection. The method is briefly as follows: the rooms to be disinfected are sealed and prepared as usual for sulphur disinfection; all surfaces are exposed as much as possible; closet doors are thrown open, and their contents, together with the contents of drawers, are removed and scattered about, and drawers left open; mattresses and pillows are spread on chairs and other objects, so as to expose all sides; books are opened and leaves spread—in short, the contents are so exposed as to admit the free access of the gas to all parts as fully as possible. Upon this preparation largely depends the thoroughness of the disinfection. For every thousand cubic feet of space in a room, is suspended by one edge an ordinary bed sheet from a line stretched across the middle of the room; properly sprinkled, this will carry without dripping five ounces of formaline, the forty per cent. solution of formaldehyde, which is sufficient to disinfect one thousand cubic feet of space. As many sheets as are necessary are hung at equal distances apart. The sprinkling is done by means of a spray producer. When all is ready the disinfector sprinkles each sheet rapidly, being careful to spray as evenly as possible, and no space more than once. The evolution of gas is so rapid that the air becomes irrespirable in a very short time. The room is left closed from twelve to twenty-four hours, after which it is opened up as freely as possible to light and air, and the family are instructed to have all wood-work well scrubbed and the furniture wiped over with cloths dampened with diluted formaline, one part formaline to twenty parts water.

So far as we have been able to make test of the above method by our bacteriologist, Dr. A. K. Day, the result has been satisfactory.

NUISANCES, COMPLAINTS, INSPECTIONS.

The number and nature of requests for inspection, complaints of existing nuisances, and those found by house inspection, are given in the following table:

Accumulation of decayed fruit, and coal ashes	21
Bad sink drainage	18
Broken sewer traps	4
Catch basins not trapped	14
Dead animals	36
Decayed meat and fish	3
Defect in house sewer	10
Dumping rubbish	20
Dropping manure in the streets	2
Defective plumbing	14
Filthy stables	3
Filthy cellars	6
Filthy swill barrels	9
Filthy yards	7
Filthy alleyways	6
Foul and offensive cesspools	3
Keeping hogs	10
Keeping hens	6
Offensive manure heaps	9
Offensive privy vaults	34
Odor arising from water	5
Offensive odor in house	14
Offensive odor from stables	4
Privy vaults full	15
Private sewers obstructed	5
Sinks found without traps	4
Sewer gas in house	3
Sewerage backed into cellars	6
Stagnant water on vacant lots	3
Street sewers obstructed	7
Sewers not properly ventilated	3
Slaughter houses	5
Surface sink drains	5
Throwing swill in alleyways	3
Throwing ashes in street	5
Throwing slops in street	4
Water closets without water supply	3

Water closets foul and offensive	9
Water closets not ventilated	8
Water closets out of repair	7
Water in cellars	4
Total	<u>360</u>

Where nuisances have existed which have been a menace to the public health, they have been dealt with vigorously, considerately, and as speedily as possible.

HOUSE INSPECTION.

House inspection has been continued in the compact portion of the city, as time would permit. The following table will give the amount of work done in this direction:

Dwelling houses inspected	89
Tenement houses inspected	110
Stores inspected	38
Stables inspected	38
Meat and fish markets inspected	6
School houses inspected	19
Business blocks inspected	31
Alleyways inspected	34
Inspection of Penacook Lake	8
Inspection of reservoir	10
Total	<u>383</u>

SEWER INSPECTION.

In compliance with a provision of city ordinances I have inspected eighty-two private sewers, and made the usual records and reports of the same. The following table shows the various sizes and kinds of pipes used:

316 feet of 6-inch Akron pipe,
4,194 feet of 5-inch Akron pipe,
30 feet of 3-inch Akron pipe,
424 feet of 5-inch iron pipe,
323 feet of 4-inch iron pipe.

A total of 5,287 feet and an average of 64 feet to each lateral sewer.

This amount of drainage has been furnished to the following classes of buildings :

Private dwellings	35
Tenement houses	40
Business block	1
Public institution (school-house)	1
Stables	4
Market	1
	<hr/>
Total	82
Water closets put in	97
Privies abolished	44
Cesspools abolished	20
Surface drains abolished	17

DISPOSAL OF WASTE AND GARBAGE.

A long delayed sanitary necessity remains unprovided for in the city, viz., a satisfactory gathering of house garbage. No city of this size can be considered well taken care of, which makes no provision for this purpose. The present method of removing garbage is for any one who desires to engage in the business, with filthy barrels and open carts, often leaky and unsuitable, making doubly offensive the odors which pollute the air through every street where such vehicle may be driven. Suitable persons should be licensed, the kind of vehicle to be used for the transportation of garbage specified, and regular collections made under the supervision of the board of health.

PUBLIC URINALS.

I desire to call your attention to the necessity of a public urinal, because not only strangers but our own people are compelled to use the alleys, or enter some store or other place of business. I regard this as a necessity and think they should be provided.

SUMMARY.

Houses placarded in cases of contagious diseases	327
Placards removed	310
Visits made to contagious diseases	1,721
Rooms fumigated	397
Pieces of bedding and clothes burned	79
Pieces of clothing disinfected at pest house	54
Library and school books fumigated	24
Burial permits issued	365
Burial permits issued to non-residents	87
Transfer permits issued	87
Peppermint tests of plumbing made	19
Water tests made	3
Number of reports of contagious diseases sent to state board of health	47
Number of monthly mortuary reports sent in exchange to other cities	1,200
Number of certificates issued for children to return to school	264

EXPENSES OF THE HEALTH DEPARTMENT.

Salary of sanitary officer	\$800.00
Salary of board of health	75.00
Rent of office	27.00
Lights	1.20
Bacteriological tests	46.50
Fumigator's supplies	115.05
Incidentals	183.60
	<hr/>
Total	\$1,248.35

A table appended exhibits the mortuary statistics for the year 1899.

In conclusion, I desire to express my thanks to his honor the mayor, members of the city council, and the board of health for the aid and encouragement they have freely given, and many courtesies shown me in the performance of my duties.

Respectfully submitted,

CHARLES E. PALMER,

Sanitary Officer.

Total number of marriages during the year, 162, compared with 160 in 1898.

CHARLES E. PALMER,

Sanitary Officer.

REPORT OF CITY PHYSICIAN.

To His Honor the Mayor and the City Council:

I have the honor to make the following report for the year ending December 31, 1899:

Number of calls made, 22.
Office consultations, 5.
Insane persons examined, 1.
School children vaccinated, 40.

I wish to endorse that portion of the report of my predecessor, Dr. Adams, which recommends placing a supply of medical and surgical appliances at the police station, and the setting apart and proper equipment of a suitable cell for the use of the sick who are detained at that institution. I think some action should be taken looking toward the carrying out of these suggestions.

These ideas could be carried out at very small expense, and almost no trouble at all.

Respectfully submitted,

CHAS. H. COOK,
City Physician.

18 South State St., Concord, N. H.
January 18, 1900.

POOR DEPARTMENT.

THIRTY-SECOND ANNUAL REPORT OF OVERSEER OF POOR, FOR THE YEAR ENDING DECEMBER 31, 1899.

To the City Council:

GENTLEMEN:—The undersigned herewith submits the thirty-second annual report of expenditures for the poor, including Wards 1 and 2, for the year ending December 31, 1899, as follows:

Families and individuals having a settlement in the city have been aided, in part or in full, during the time, to the amount set opposite their respective names.

W. A. Flanders,	Irving B. Robinson,
George W. Chesley,	Charles E. Kelley,
W. H. H. Patch,	Rufus C. Boynton,
Hoyt Robinson,	James Jepson.
Alvin H. Crann,	

I will renew my recommendation for a stable suitable for a horse, wagon and ambulance. It can be built after the same architectural design as the police station for \$1,000.

The police signal service has proved to be very useful and satisfactory. The number of duty calls that have been rung in by police officers during the past year is 29,030, besides a large number of emergency calls, and I would recommend that three (3) boxes be added at an expense of about \$30, one to be located near the corner of Downing and South streets, one near the corner of Thompson and South streets, and one on Washington near Spring street.

On account of the increased business at the south end there is a demand for an additional night officer, only one night officer being on duty south of Pleasant street at the present time. There is also a demand for an officer at the west end for night duty, and I would most respectfully recommend that provision be made for the appointment of two additional officers.

I would respectfully call the attention of the city government to the sanitary condition of the police station at Penacook, as I consider that it is detrimental to the health of anyone who is unfortunate enough to be confined therein, and I would recommend that a new station be built.

It is customary in many cities to have one police officer for every thousand inhabitants, so it can be readily seen that we have a very small force for a city of this size.

The receipts from fines and costs have been \$1,601.24.

In submitting my report I desire to express my gratitude to the board of police commissioners and the city council for their considerate treatment of this department. Thanks are due Harry G. Sargent, city solicitor, for valuable assistance rendered. To all who have contributed to our success we extend our thanks. To the members of the force my grateful acknowledgment and thanks are tendered for their efficiency and promptness in the discharge of their duties.

Respectfully submitted,

G. SCOTT LOCKE.

City Marshal.

REPORT OF CLERK OF POLICE COURT.

To the City Council:

The clerk of the police court submits the following report for the year ending December 31, 1899:

Number of civil cases entered, 159.

Received entry fees in civil cases	\$79.50
Received trial fees	7.00
Received continuances	2.85
	<hr/>
	\$89.35
Paid city treasurer	89.35

Respectfully submitted,

HARRY R. HOOD,
Clerk of Police Court.

REPORT OF CITY SOLICITOR.

To the City Council:

I respectfully submit my annual report as solicitor :

The case of Edward Rhobidas against the city of Concord, referred to in my last annual report, is still pending before the law term, no decision having been rendered. It will probably be decided in March.

The suits in favor of Arthur Henry, Edward M. Proctor, Laura P. Clough, Honor M. Clough and John Callahan against the city, for damages caused by surface water on account of the alleged raising of the grade of Pine street, have been disposed of. In the suits in favor of Laura P. Clough and Honor M. Clough, the plaintiffs withdrew during the trial, and in the other suits a verdict was rendered in favor of the city by the referee, Hon. James W. Remick.

The claims for damages in favor of Henry A. Cleaveland, John G. Hook and Nellie A. Merrill, guardian of Joshua B. Merrill, referred to in my last report, have been disposed of, the city paying a small amount in the Cleaveland and Merrill cases, by my advice, and in the Hook case the plaintiff has neglected to press the claim.

The suits of Bertha E. Braley, Edward E. Hodgdon and Mary J. Gay, William H. Gay and Walter C. Gay against the city are still pending. No trial has been had because the plaintiffs in the first case have taken no action to have a hearing, and in the other two cases the counsel for the plaintiff being his honor, the mayor, nothing could be done with them.

The suit of Higgins against Concord, referred to in my last report, has been terminated, the plaintiff voluntarily withdrawing, and a judgment has been entered in favor of the city.

A suit in favor of Dwight Hall, executor, against the city has been brought for damages alleged to have been caused by changing the grade of a highway. The suit is now pending in court, but the plaintiff has notified the solicitor that the suit will not be pressed and judgment will be entered in favor of the city at the coming April term.

A suit has been commenced against the city in favor of Elvira B. Lane for alleged damages to a tract of land, caused by dumping rubbish upon her lot. This will be in order for trial at the April term.

The present year has been an unusually busy one in this department. At the commencement of the year written opinions were required of the solicitor by the city government in a great many matters, some of them being matters of importance and requiring a good deal of time and investigation, in order to answer the questions asked intelligently and correctly.

An unusually large amount of criminal complaints and warrants have been made in the office of the solicitor, mainly by order of the mayor in liquor cases; the number in the last three months amounting to over two thousand.

In addition, the solicitor has given advice and assistance to the different committees of the city council, and to the heads of departments.

Respectfully submitted,

HARRY G. SARGENT,
City Solicitor.

CONCORD, N. H., December 31, 1899.

REPORT OF COLLECTOR OF TAXES.

To the City Council :

I herewith submit the report of collection of taxes to the close of business December 31, 1899 :

Wines and liquors, 1,985 gallons; bottled goods, 6,915 bottles. Cost of both classes	6,046.08
Total cost of goods	\$6,727.15

GOODS SOLD FROM APRIL 17, 1899, TO JANUARY 1, 1900.

Wines and liquors, $1,774\frac{10}{16}$ gallons; bot- tled goods, 6,350. Received for same	\$7,429.40
Sale of barrels and kegs	35.00
	\$7,464.40

Number of bottled goods on hand April 17, 1899	82
Number of bottled goods purchased since April 17, 1899	6,915
	6,997
Sold since April 17, 1899	6,350
Breakage	20
On hand January 1, 1900	627
	6,997

Wines and liquors on hand April 17, 1899	219 $\frac{1}{8}$ gals.	
Purchased since April 17, 1899	1,985 "	
	<hr/>	2,204 $\frac{1}{8}$ gals.
Wines and liquors sold since April 17, 1899	1,774 $\frac{1}{8}$ gals.	
Wines and liquors on hand Jan- uary 1, 1900	430 $\frac{5}{16}$ "	
	<hr/>	2,204 $\frac{1}{8}$ gals.
Expenses of Agency as per vouchers		\$1,101.50
Paid city treasurer, for which I hold his receipts		\$7,464.40

Respectfully submitted,

BENJAMIN F. TUCKER.

Agent.

PUBLIC PARKS.

REPORT OF PARK COMMISSIONERS.

The report of the park commissioners is herewith presented:

The appropriations made for the past year were as follows:

White park	\$1,500.00
Rollins park	400.00
Penacook park	75.00
Bradley park	25.00

These limited appropriations have been used in maintenance, for no new work could be carried on, and some of the work already begun has been sadly neglected. At White park the work has been looked after by the superintendent, with one man during the season, and an extra man during the summer months. The usual custom has been to buy a horse for necessary work through the summer, but that has been dispensed with, and, if needed, one has been hired; thus, much of the territory of grass plots has not been kept down by the mower.

It would seem wise that this park should be brought to completion as soon as possible, then only a fixed sum for maintenance would be required. A permanent fence is very much needed to properly inclose the park, and much planting should be done.

The playground should be finished and trees planted.

The expenditures have been: For labor, \$1,422.02; repairs, \$17.75; tools, \$19.65; clearing ice, \$11.25; shrubbery and seed, \$29.95; loam, fertilizer and teaming, \$88.00; grain, \$8.40; water, \$15.00; incidentals, \$8.84; water pipe, \$56.87; or a total of \$1,677.73.

At Rollins park nothing has been done except keeping up the present condition, and that not satisfactorily. The undergrowth, which has been such an attractive feature, is fast disappearing, and work done by those interested has been neglected. Plans are in hand to greatly improve this park, but they cannot be carried out without a liberal appropriation. The general use of this park is such that more careful supervision is needed, so that it will not deteriorate. Police supervision should be inaugurated, especially to control large gatherings which may be held there.

The city has the past year purchased a tract of land, consisting of between three and four acres, adjacent to the park, which can be adapted with it to great advantage. The price paid was \$1,250. The expenditures have been as follows: Labor, \$289.90; tools, \$19.99; water, \$6.00; incidentals, \$41.58; grade, \$16.05; repairs, \$13.57; or a total of \$387.09.

Bradley park has been kept in good condition, and is a continued bit of satisfactory work. It was hoped that the appropriation would admit of the purchase of some settees, but only enough was set apart to care for the same. There is an opportunity for some generous-minded citizen to place a monument to some military or naval hero, or to commemorate some historical event, in this enclosure. The expenditures have been: For labor, \$15.00; fertilizer, \$22.50; water, \$4.00; incidentals, \$3.00; or a total of \$44.50.

Penacook park has engaged the same attention as heretofore. Owing to the high water in the lake, it has, perhaps, been used more than of late, but the endeavor has been to keep it in a tidy condition. The expenditures have been: For labor, \$65.63; hardware, \$6.68; incidentals, \$5.35; or a total of \$77.66.

A beginning has been made on the parcel of land given by residents at the West End, and with more money this can be made an attractive spot. The ground was leveled and seeded under the charge of the superintendent.

Since the inauguration of the park work in our city, the last year has been the least satisfactory of any. Such a con-

dition, we feel, does not represent the wish or the desire of our citizens, who would like to see these matters carried to completion; furthermore, it is not in accord with the best sentiment of the day. "Art is becoming not only a part of the educational scheme of our people, but its principles and the knowledge of its effects on their lives are becoming interwoven in the daily affairs, and the recognition that 'a thing of beauty is a joy forever' is the influential factor in the vast improvements made in many departments of applied art. This includes art in its broader application, as well as in peculiar lines."

Somehow, our citizens do not come up to the measure of their privilege, for we have so few who are willing to contribute to the city's ornamentation. So much of attractive interest might be given by the construction of entrances to our parks, the gift of parcels of land for park purposes, the marking of historical places, which abound among us, the gift of statuary, the planting of trees, and in numerous other ways to contribute to this end. One has but to look at many smaller places to see what has been done for the public good.

One illustration we have of those who, in generations gone, planted our noble elms, which calls upon us to emulate their example. These things are not done wholly for to-day, but they go on and on to succeeding generations, and illustrate an unselfish desire to benefit others.

Respectfully submitted,

NATHANIEL E. MARTIN, *Chairman*,
BENJAMIN C. WHITE,
WILLIS D. THOMPSON,
GARDNER B. EMMONS,
GEORGE A. YOUNG,
WILLIS G. C. KIMBALL,
WILLIAM P. FISKE,

Park Commissioners.

CEMETERY DEPARTMENT.

REPORT OF COMMISSIONERS.

CONCORD, N. H., March 1, 1900.

To the City Council of the City of Concord :

Your commissioners of cemeteries have but little to report.

We have endeavored to expend the appropriation placed at our disposal in a manner to merit your approval.

As we informed you in a previous report, it will not be necessary to make any large appropriation the coming year for grading.

We shall need quite a sum to complete the loaming and seeding of grounds already graded. We hope to plant a quantity of trees and shrubs the coming spring, the amount of which will of course depend on your honorable body.

Our cemeteries are gaining in beauty every year and under the immediate supervision of our efficient superintendent, Mr. E. A. Moulton, the grounds are well taken care of.

We again call your attention to the matter of a chapel and waiting-room at Blossom Hill Cemetery. We have an unexpended appropriation of two hundred dollars (\$200.00) for this object, and sincerely hope it may be increased sufficiently to warrant our commencing, at least, a building which will not only be useful but an added beauty to our already beautiful "City of the Dead."

Respectfully submitted,

JOHN E. ROBERTSON,
FRANK P. ANDREWS,
CHARLES G. REMICK,
FRANK J. BATCHELDER,
GEORGE A. FOSTER,
GEORGE O. DICKERMAN,

Commissioners of Cemeteries.

GEORGE O. DICKERMAN, *Secretary.*

OLD FORT AND PINE GROVE CEMETERIES.

To His Honor the Mayor and the City Council :

The appropriation of one hundred and seventy-five dollars for the partial grading of the avenues and the painting of the iron rail in Pine Grove Cemetery has been expended during the past year, as has the twenty-five dollars appropriated for Old Fort Cemetery, making a decided improvement in both.

As we stated last year this makes a fair beginning and we would recommend an appropriation of two hundred dollars for the care of Pine Grove Cemetery and the grading of the avenues in the same, and twenty-five dollars for the care of Old Fort Cemetery, for the year 1900.

Most respectfully submitted,

JOHN C. HUTCHINS,
SCOTT FRENCH,

Committee.

CONCORD, February 26, 1900.

WEST CONCORD CEMETERY.

FIRE DEPARTMENT.

REPORT OF CHIEF ENGINEER.

To the Honorable Mayor and City Council :

I have the honor to submit the following report of the Fire Department for the year 1899 :

The precinct department responded to twenty-nine (29) box alarms, and seventy-five (75) still alarms.

In addition to these, five fires occurred for which no alarms were given, accounts of which are given in the order of their occurrence.

At Penacook seven (7) alarms were responded to, at East Concord five (5) and at West Concord one (1).

ALARMS.

STILL. January 1, 4.48 p. m. Chimney fire in residence of Mrs. E. G. Wright, 56 Green street. Chemical company responded, but no assistance was required. No loss.

STILL. January 1, 6.34 p. m. Chimney fire in residence of James Sullivan, 88 West street. No loss.

BOX 23. January 7, 6.24 a. m. Barn on Ferry street, owned by Gilbert H. Seavey and occupied by P. C. Whittier. Destroyed. Cause unknown. 2,200 feet hose wet. Recall, 7.06 a. m. Twenty head of cattle and one horse perished. Department worked on ruins until 3.30 p. m.

1899,	7,846.00	1,550.00

APPARATUS AND FORCE.

The apparatus and force of the department is as follows :

Precinct, located at the Central fire station, one first-class Amoskeag engine, "Eagle," with modern hose wagon, attached to Eagle Steam Fire Engine company (13 men) ; one second-class Amoskeag engine, "Kearsarge," and modern hose wagon, attached to the Kearsarge Steam Fire Engine company (13 men) ; one second-class Amoskeag engine, "Governor Hill," relief steamer, in charge of an engineer and fireman ; one double 60-gallon tank Holloway chemical engine in charge of two permanent men ; one ladder truck, "City of Concord," attached to hook and ladder company (21 men). There are ten horses owned by the city kept at this station. The precinct companies have swing harnesses upon all apparatus except steamers. There are six permanent men located at the Central station and one permanent man at each hose house within the precinct.

The Alert Hose company (11 men), located on Washington street, has a modern hose wagon with permanent man and horse.

The Good Will Hose company (11 men), located on the corner of Concord and South State streets, has a modern hose wagon with permanent man and horse.

Veterans' Auxiliary company (30 men).

The "Pioneer" steamer, at Penacook (28 men), is a fourth class Silsby, with hose wagon.

The Cataract company (30 men), at West Concord, has a Hunneman 6-inch cylinder hand-engine and a modern hose wagon, and provided with swing harness.

Old Fort, East Concord (30 men), has a 4½-inch cylinder Hunneman hand-engine.

Fabric :		
Precinct	8,300 feet.
Penacook	2,200 "
West Concord	900 "
		<hr/>
		11,400 feet.

Leather :
 East Concord 450 feet.

PUBLIC RESERVOIRS.

	Capacity, cubic feet.
1. Main street, opposite Abbot-Downing Co.'s	1,000
2. Main street, middle front state house yard	1,500
3. Main street, rear city hall	2,000
4. State street, corner Washington street*	2,000
5. Rumford street, near Mrs. Josiah Minot's	1,000
6. Orchard street, corner of Pine street*	4,000
7. School street, corner of Summit street*	3,500

The city has enjoyed another year of comparative immunity from fire loss.

Although the number of alarms responded to was considerably in excess of the number for the preceding year, a large majority of them were minor affairs, and a glance at the comparative table of losses will show the losses of the year to compare favorably with those of the preceding ten years.

No extensive repairing of apparatus has been necessary.

One modern hose wagon, two horses, one single harness, one set of double harness, one horse clipping machine, and one Baker cellar pipe have been purchased.

The fire alarm telegraph system is in good condition. Five direct action tappers have been added to the system and the main lines have been extended one-half mile. The addition of two signal boxes was desired, but heavy snow-storms with the attendant expense for extra horses, breaking out hydrants, and the rapid and constant increase in price of all articles of consumption precluded the possibility of accomplishing this without exceeding the appropriation.

I can only renew my recommendations of last year concerning the needs of the department. Those needs are presumably well understood, and will, no doubt, be remedied as rapidly as possible.

*Brick cemented.

During the month of August I had the honor to attend, as a delegate, the convention of the International Association of Fire Engineers, at Syracuse, N. Y. It was a most entertaining and instructive convention, a report of which was rendered at that time.

I wish to return my thanks to your honorable body for the compliment conveyed in the increase of salary, coupled with the assurance that it is fully appreciated.

Respectfully submitted,

W. C. GREEN,
Chief Engineer.

REGULATIONS OF CONCORD FIRE DEPARTMENT.

CITY OF CONCORD.

IN THE YEAR OF OUR LORD ONE THOUSAND EIGHT HUNDRED AND NINETY-FOUR.

AN ORDINANCE in amendment of all sections in Chapter 18 of the revised ordinances relating to the fire department.

Be it ordained by the City Council of the City of Concord as follows:

SECTION 1. The fire department will consist of a chief engineer, two assistants within the precinct, and one engineer each from Ward 1, Ward 2, and Ward 3. Two steamer and hose companies, to consist of thirteen men, including driver; one relief steamer to consist of two men; two hose companies to consist of eleven men, to include a driver; a chemical engine company to consist of two men; and a hook and ladder company to consist of twenty-one men, to include a driver; steamer Pioneer, not less than twenty nor more than forty men; hand-engine companies, No. 2 and No. 3, not less than twenty or more than thirty men each. The engineers shall exercise the powers of fire wards, and those within the precinct to constitute the board of engineers.

SECT. 2. The chief engineer and assistant engineers, and all other members of the fire department shall hold their respective offices and places until they are removed, or their offices or places otherwise vacated. The mayor, for cause assigned by him, and after due hearing by him, may, with the approval of a majority of the board of aldermen, at any time remove from office or place the chief engineer, any assistant engineer, and officer or member of the department. In case of vacancies from any cause in the department, of officers or men connected in any manner with the fire service, such vacancies shall be immediately filled by the appointment and confirmation of the board of mayor and aldermen.

SECT. 3. The chief engineer shall give his entire time to the duties of his office, and shall not engage in or be connected with any other business or occupation, and shall reside in a house to be furnished by the city free from rent. He shall receive in full for his services, in addition to the use of said house, rent free, the sum of ten hundred and fifty dollars per annum.

SECT. 4. The chief engineer shall have the sole command at fires over all persons, whether members of the fire department or not. He shall direct all proper measures for extinguishing fires, protecting property, preserving order, and enforcing the laws, ordinances, and regulations respecting fires; and shall examine into the condition of the fire engines and all other fire apparatus, and of the fire engine houses, and other houses belonging to the city and used for the department and by the companies thereto attached as often as once a week, and whenever directed to do so by the mayor. He shall certify all bills and submit the same for inspection monthly to the joint standing committee on fire department. He shall report to the city council annually in the month of December a statement of the receipts and expenditures of his department, the condition of the fire engines and all other fire apparatus, a detailed schedule of the property in his charge, the names of the officers and members, and all other facts in relation to the department. Whenever the fire engines or other fire apparatus require repairs he shall cause the same to be made under the direction of the committee on fire department, and as far as practicable shall examine into the location and condition of fire apparatus belonging to the corporations or private individuals within the limits of the city. He shall require permanent men, when not otherwise engaged, to perform such other duties and do such other work as in his judgment may be deemed proper. He shall keep fair and exact rolls of the respective companies, specifying the time of admission and discharge, and the age of each member, and shall report annually, or oftener if directed, all accidents by fire which may happen within the city, with the cause thereof, the number and

description of the buildings destroyed or injured, and the amount of loss and insurance on the same, together with the names of owners or the occupants, and shall make returns as required by the Laws of 1889, Chapter 84, and entitled "An act in relation to returns and statistics of fires." He shall visit each department house as often as practicable, and inspect the men, the books of the house, and see that the quarters are properly conducted and in good order. He shall have the power to suspend any officer or member of the department for insubordination, disorderly conduct, or neglect of duty, said suspension to continue pending the action of the mayor and aldermen. The chief engineer shall examine all places where shavings and other combustible materials may be collected or deposited, and cause the same to be removed by the tenants or occupants of such places, or at their expense, whenever in his opinion such removal is necessary for the security of the city against fires.

SECT. 5. In the absence of the chief engineer, the next assistant engineer in rank who may be present shall have the powers and perform the duties of the chief engineer, and the seniority in rank of the engineers shall be determined by the board of engineers at their first meeting.

SECT. 6. The foreman of each engine, hose, and hook and ladder company, within one day after every fire at which said company may have attended, shall examine into the condition of the fire apparatus belonging to his respective company, and report any deficiency which may exist to the chief engineer. He shall keep, or cause to be kept by the clerk of his company, exact rolls, specifying the time of admission, discharge, and age of each member, and accounts of all city property entrusted to the care of the several members, and of all cases of absence and tardiness, in a book provided for that purpose by the city, which rolls of record books are always to be subject to the order of the chief engineer and mayor. They shall also make, or cause to be made, to the chief engineer, true and accurate returns of all members, with their ages, and of the apparatus entrusted to their care, whenever called upon to do so.

SECT. 7. The foreman of each company shall, under the direction of the chief engineer, have charge and management of his company at fires; the assistant foreman shall assist the foreman in discharge of his duties and act as clerk of the company, and in the absence of the foreman assume his authority. The foreman and assistant foreman shall be appointed by the chief engineer.

SECT. 8. The stewards of the Alert and Good Will Hose companies will act as drivers of hose carriages, take charge of and properly care for and exercise the horses used by each company. They shall be permanently engaged and devote their whole time to the department, and sleep in their respective hose houses at night; and for the proper execution of all duties required of them shall be subject to the direction of the chief engineer.

SECT. 9. It shall be the duty of every engine, hose, and hook and ladder company to have its engine, hose, and other apparatus cleaned, washed, oiled, reeled, and housed immediately after its return from any fire or service, and at all times to maintain the same in good condition, and the members of the several companies shall perform any necessary duties which the chief engineer or their respective foremen may direct.

SECT. 10. All members of the department when on duty shall wear some suitable badge, to be designated by the board of engineers. The chief and permanent members shall wear at all times when on duty the regulation parade uniform worn by the fire department.

SECT. 11. The pay-rolls for the board of engineers and the several fire companies shall be made up by the chief and clerk of the board of engineers semi-annually, on the first day of January and July. Foremen and clerks of companies will forward their pay-rolls to the board of engineers for approval, and after the action of said engineers and the sanction of the mayor and aldermen, said pay-rolls shall be passed over to the city collector, under whose sole direction all sums for services of call firemen shall be disbursed.

SECT. 12. No charge for extra services will be allowed any member of the department unless upon an order of a member of the board of engineers.

SECT. 13. No engine, hose, or hook and ladder carriage shall be taken to a fire out of the city without permission from the chief engineer, except steamer Pioneer, which may be taken to any fire in the village of Penacook, nor shall any apparatus of the fire department be taken from the city except in case of fire, without permission from the board of mayor and aldermen; and in sending any apparatus to aid in extinguishing fires in neighboring localities, the chief in all cases will authorize his assistant next in rank available to take charge of the direction of such apparatus, and not allow any fireman, at such an emergency, to leave the city, except such a number as is actually required to man the apparatus, and no member to leave without permission or direction from the chief engineer.

SECT. 14. It shall be the duty of engineers and firemen, whenever there is an alarm of fire in the city, to repair immediately to the place of such fire, wearing a suitable badge, and the engineers to take proper measures that the several engines and other apparatus be arranged and duly worked for the speedy and effectual extinguishment of the fire. The engineers shall inspect and make themselves familiar with all shops, hotels, tenement blocks, and all public buildings, halls, churches, school houses, and asylums, once in each six months, and study the location of all hydrants and reservoirs in the city, and generally inform themselves in all matters pertaining to their duties as engineers. No engineer shall interfere with or attempt to give orders relative to the location or use of a line of hose, when he has ascertained that another has command of it, unless by consent of the engineer in command of it, or by orders of the officer in command at the fire; and it shall be his duty to inquire if there is an officer in charge.

SECT. 15. For each absence from fire, or neglect of duty, the chief engineer, the assistant engineers, and engineers of steamers shall be fined three dollars, and each other member

of the department one dollar; provided, however, that any fireman liable as above may in case of temporary absence or sickness have power of substitution by giving notice, each assistant engineer to the chief, each foreman to an engineer, and each member to the foreman of his company. Absence of more than twenty-four hours shall not be considered temporary, and he should get permission from the chief engineer to allow a substitute with pay from such absentee.

SECT. 16. Any volunteer company using the apparatus of the city at any fire shall be under the control and command of the chief engineer and his assistants, agreeably to the foregoing provisions of this chapter.

SECT. 17. The department shall appear for public parade, drill and inspection at such times as the chief engineer and committee on fire department shall order, for which expense three hundred dollars can be expended annually. The companies in Wards 1, 2, and 3 will attend by invitation and voluntarily. Each company in the department under the direction of the chief engineer or assistants shall take out their respective engines and apparatus for exercise and drill as often as he shall direct, such exercise and drill to take place in public, not oftener than once a month, and at least once in two months, between the first of April and November.

SECT. 18. The engineers shall have control of all persons appointed to serve in any company of the fire department and power to direct and control the labor of all persons present at any fire. An engineer may and shall cause any fire deemed by him to be dangerous in any place to be extinguished or removed.

SECT. 19. The engineers may establish such regulations respecting the kindling, guarding, and safe keeping of fires, and for the removal of shavings and other combustibles from any building or place, as they shall think expedient. Such regulations shall be signed by a majority of the engineers. Such regulations shall be approved by the mayor and aldermen, recorded by the city clerk, and copies attested by him posted up in two or more places in the city thirty days, when they shall take effect. Penalties not exceeding

twenty dollars for each offense may be prescribed by the engineers for the breach of such regulations, and such regulations shall remain in force until altered or annulled.

SECT. 20. The board of engineers may from time to time make and enforce such regulations for the government of the department as may be deemed proper, and subject to the approval of the board of mayor and aldermen.

SECT. 21. If any member of either of the several companies shall willfully neglect or refuse to discharge his duty or shall be guilty of disorderly conduct or disobedience to any officer or to any engineer, he shall for any such offense be forthwith dismissed from the department by direction of the chief engineer. No person shall be a member of, or serve in, the fire department, who is under the age of twenty years, and no person whose occupation is carried on outside the city shall be appointed a member of the fire department.

SECT. 22. All applicants for membership shall be nominated by the chief engineer and shall receive pay and be considered members of the department from the date of their confirmation by the board of mayor and aldermen.

No officer or member of the permanent, or officer of the call, force shall attend any political convention as a delegate, distribute tickets at any election, or take any part whatever in political matters other than to exercise the right of suffrage, and no political or religious discussion shall be permitted in any of the department houses.

SECT. 23. The chief engineer shall have the care and management of the rooms, apparatus, machinery, wires, poles, and signal boxes connected with the fire-alarm telegraph. He shall prepare rules and directions for giving alarms of fire through the telegraph. He shall have the superintendence, and under the direction of the joint standing committee on fire department, have control of the several stations, the apparatus, the furniture therein, and all other property appertaining to the department.

SECT. 24. Permanent officers and men of the department shall be entitled to vacation without loss of pay, not exceeding fourteen days in each year, to be granted under direction of the chief engineer.

SECT. 25. The joint standing committee on fire department, subject to the board of mayor and aldermen, shall by themselves or agent purchase all supplies in connection with the fire department, and direct all repairs of houses and apparatus; and all bills contracted for the department must receive their approval before being passed on by the committee on accounts and claims. They shall hold stated meetings at least once each month at the Central fire station, and all communications to the city government from the fire department must come through said committee, and in the month of December in each year, in connection with the chief engineer, they shall make such recommendations as to the amount of appropriations the wants of the department will require for the coming year.

SECT. 26. The city marshal and regular police officers shall have in charge all matters relating to the removal and protection of personal property endangered by fire, and any person entering a building or removing property contrary to the orders of the city marshal or such police officers shall be fined five dollars; and in the absence of firemen at fires from their respective department houses, the policemen in that vicinity will take charge of said houses.

SECT. 27. The annual pay of the members of the fire department shall be as follows, and in full for all services: Chief, ten hundred and fifty dollars per annum and house rent; permanent force at Central fire station, seven hundred and twenty-eight dollars each; drivers at Good Will and Alert Hose houses, six hundred dollars each, per annum, paid monthly; assistant engineers, one hundred and twenty-five dollars each within the precinct; engineers of steamers, one hundred and fifteen dollars each; members of steamer, hose, and hook and ladder companies, within the precinct, eighty dollars per annum, except foremen and assistant foremen, who shall receive ninety and eighty-five dollars respectively; outside the precinct, engine companies Nos. 2 and 3, two hundred and forty dollars each, and Pioneer Steamer company, No. 3, five hundred dollars, said sums to be divided among the

members as each company shall direct; assistant engineer at Penacook, twenty-five dollars; assistant engineers at East and West Concord, ten dollars each.

SECT. 28. The several engineers residing in Wards 1, 2, and 3 shall have entire care and control, under the direction of the chief engineer, of the buildings and appurtenances occupied in part by the fire department situated in said wards, respectively, to whom all applications for the use of the halls or any other part of such building shall be made. Said engineers may severally appoint janitors, who shall serve under the exclusive direction of the engineer having the care and control of the buildings where said janitor shall be appointed. Each of said engineers shall annually, in the month of December, render a detailed statement, in writing, to the mayor and aldermen, of all receipts and expenditures for the preceding year on account of such buildings.

SECT. 29. Stewards for the Pioneer Steamer company and engine companies Nos. 2 and 3 shall be appointed by the mayor and aldermen, and shall receive for all services performed by them in that capacity the following sums: For Pioneer Steamer company, thirty dollars per annum, and, when performing the duties of janitor of the building, an additional sum of forty-five dollars per annum; and for stewards of engine companies Nos. 2 and 3, each fifteen dollars per annum. No steward shall be allowed to purchase supplies for such building or for the department, unless by the authority and direction of the committee on fire department, and in no case shall he have any care or control of the building or its appurtenances occupied by the company of which he is a member, except in the immediate service of the company, unless he shall be appointed janitor thereof, when he shall be under the direction of the engineer, as provided in the foregoing section.

SECT. 30. The drivers of hook and ladder truck, one hose wagon, and steamer shall at all times be on duty at the Central fire station to attend to all fire-alarm calls, and shall do such other work in connection with the station and

apparatus, as the chief engineer may direct. All permanent men shall lodge in their respective stations (except chief), and in all cases of absence a substitute must be furnished; and in all cases when any extra service is required, the chief, with the sanction of the committee on fire department, will have power to hire the same; the chief may also increase as far as possible the number of call men that wish to lodge at any fire station, subject to the regulations of the fire department. The chief engineer shall be furnished with a horse and wagon, to be maintained by the city, for his use at all times.

SECT. 31. The chief engineer shall, under the direction of the committee on fire department, keep such other horses and men subject to labor under the commissioner of highways as are not by ordinance detailed for permanent duty at the Central fire station.

SECT. 32. On or after the passage of the foregoing ordinance, at any meeting the board of mayor and aldermen can declare vacancies to suit the outlined changes in the department and make such appointments as will conform to the terms of this ordinance.

SECT. 33. All ordinances and parts of ordinances inconsistent with this ordinance are hereby repealed, but such repeal shall in no wise revive or put in force any ordinance heretofore repealed, and this ordinance shall take effect after action is taken as contemplated in section 32 of this ordinance.

Passed November 13, 1894.

ADDITIONAL REGULATIONS

APPROVED BY BOARD OF MAYOR AND ALDERMEN,
DECEMBER 29, 1894.

ARTICLE 1. Any engine or hose company running out a line of hose from a hydrant or steamer shall be entitled to the pipe, although the hose of other companies may be attached, in order to reach the fire. And any company coming to a fire, and finding an incomplete line of hose laid out from a hydrant or steamer, shall attach to and lengthen out such line, in lieu of laying a line of its own.

ART. 2. When two or more engine companies are playing in a continuous line, the pipe shall belong to the company attaching to hydrant or steamer as provided in the foregoing article; but any company furnishing the entire line, and receiving water from a steamer, the pipe shall belong to such company so receiving.

ART. 3. Hose companies shall attach first lines to high pressure hydrants where accessible; steamers attaching to those of low pressure, or reservoir.

ART. 4. No company shall take possession of a hydrant or reservoir unless their hose and apparatus for attaching to the same are at hand and ready for use.

ART. 5. In proceeding to, working at, or returning from fires, noisy demonstrations are strictly prohibited, and it is required of officers of companies to maintain perfect order and decorum in their respective commands during all such service.

ART. 6. In case of fire the foreman first arriving shall be in command until the arrival of an engineer.

ART. 7. Drivers are strictly enjoined, in proceeding to a fire, to use the utmost care and caution consistent with promptness. Racing between companies is forbidden under any circumstances. Any collision or casualty occurring to horses or apparatus will be considered a sufficient cause for the suspension of the driver in charge at the time.

ART. 8. Fire hats are furnished by the city for the protection and identification of firemen, and they must be worn at all fires except in the severest weather, when caps may be worn.

ART. 9. While attending fires it shall be the duty of members of the department, when not performing active service, to concentrate about their respective pieces of apparatus.

ART. 10. All engine and hose companies responding to second or general alarms will connect, but will not lay their lines until they have reported to the officer in command for orders.

ART. 11. The wearing of badges shall not be regarded by members of the department as conveying to them the privilege of free access to premises after fire has been extinguished.

ART. 12. All members of the department shall address all officers by their respective titles while on duty at fires.

ART. 13. The roll of each company shall be called as soon as the apparatus is housed, and no member will be excused except in case of sickness. Rolls must be called after every alarm. No officer or member will be marked present on the company roll unless present at fires and returns to house with apparatus, unless excused by an engineer.

ART. 14. Each company shall be allowed three substitutes, to be approved by the chief engineer.

ART. 15. All orders issued by the chief or an assistant engineer shall be promptly obeyed. At all fires occurring in the night, the chief engineer shall be identified by a red light, assistant engineers by blue lights.

ART. 16. Members of the department are expected to cheerfully comply with all rules and regulations which are adopted or which may be adopted. Foremen will be held responsible for all lack of promptness and efficiency in their commands.

FIRE-ALARM TELEGRAPH.

NUMBER AND LOCATION OF FIRE-ALARM BOXES.

For the purpose of uniformity in numbering the fire-alarm boxes, the city is divided into five districts, viz. :

DISTRICT 1. Embraces that section of the city north and west of Washington street, box 17 of this division being located on the south side of the street.

DISTRICT 2. Embraces all between School and Washington streets.

DISTRICT 3. Embraces all between Pleasant and School streets.

DISTRICTS 4 AND 5. Embrace all south of Pleasant street.

The first figure of the box number will indicate the district.

DISTRICT No. 1.

- 9. New Hampshire state prison.
- 12. Curtice avenue.
- 13. Franklin and Rumford.
- 14. Bradley and Walker.
- 15. Main and Church.
- 16. Franklin and Jackson.
- 17. Alert Hose house.
- 18. C. S. Gale's store.
- 19. Centre and Auburn.

DISTRICT No. 2.

- 21. State, opposite Court.
- 23. Main and Chapel.
- 24. Main and Centre.
- 25. Main and School.
- 26. Centre and Union.
- 27. School and Merrimack.
- 28. School and Spring.

DISTRICT No. 3.

- 32. Warren and Pine.
- 34. Central fire station.
- 35. Martin's Drug Store.
- 36. Pleasant and Spring.
- 37. Pleasant and North Fruit.
- 38. Orchard and Merrimack.

DISTRICT No. 4.

- 41. South and Thompson.
- 42. Good Will Hose house.
- 43. Main and Fayette.
- 45. Nelson & Durrell's store.
- 46. Perley and Grove.
- 47. South, opposite Downing.
- 48. Thorndike and South.
- 49. West and Mills.
- 412. Wall and Elm.
- 413. Main, opposite Thorndike.

DISTRICT No. 5.

- 51. B. & M. R. R. new shops.
- 52. South Main and Allison.
- 53. Hall and Hammond.
- 54. Broadway and Pillsbury.
- 56. St. Paul's School.

PRIVATE BOXES.

- 5. Boston & Maine Railroad — north end passenger depot.
- 6. The Abbot-Downing Company.
- 7. New Hampshire Asylum for the Insane.
- 8. Page Belting Company.
- 31. Boston & Maine Railroad coal sheds.
- 33. State house.
- 55. Boston & Maine Railroad old repair shop.

In addition to the above private boxes there are three located inside the state prison, all numbered 9.

FIRE-ALARM SIGNALS.

1. Alarms rung in from boxes 31, 41, 42, 43, 45, 46, 47, 48, 49, 412, 413, 51, 52, 53, 54, 55, and 56 will not be responded to by the Alert Hose company until signaled. The signal to proceed to the fire will be a second alarm, except 56.

Alarms rung in from boxes 8, 9, 12, 13, 14, 15, 16, 17, 18, 19, 21, 23, 26, 27, 32, 37, and 56 will not be responded to by the Good Will Hose company until signaled. It will be governed by the same signals governing Alert Hose company. The Alert Hose and Good Will Hose companies will hitch up and remain in readiness twenty minutes after the first alarm, to all boxes not responded to on first alarm. Then, receiving no signal (all out or second alarm), the officers in charge shall dismiss their companies.

Kearsarge Hose company will respond to all calls.

Kearsarge steamer to all calls except 51.

Eagle Hose company to all calls.

Eagle Steamer to boxes 5, 6 and 7, on first alarm; to boxes 23, 24, 25, 33, 34, 35, 42, 43, 45, and 413 on second; to all others on third, except 9 and 56.

Governor Hill steamer will respond to boxes 8 and 9 on first alarm; to boxes 5, 6, 7, 12, 13, 14, 15, 16, 17, 18, 19, 21, 26, 27, 28, 31, 32, 36, 37, 38, 41, 46, 47, 48, 49, 412, 52 and 54 on second; to all others on third.

Chemical engine will respond to all box alarms except 8, 9, 56, and 51.

Veterans' Auxiliary company will respond to all third alarms occurring before the recall, whether emanating from same box or not.

Two rounds of eleven strokes of the bells will signalize the requirement of assistance out of town, and will be responded to by a detail of four men from each company, appointed for the purpose, and by those alone. Such apparatus will be detailed as circumstances warrant. In case further aid is necessary, the box alarm 34 (Central station) will follow.

All out signal, three strokes of the bells.

BRUSH FIRE SIGNAL.

Three rounds of four strokes each will be sounded on the bells.

MILITARY SIGNAL.

Two rounds of 3—1—2.

TESTING SIGNALS.

For the purpose of testing the condition and accuracy of the fire-alarm telegraph, a box alarm will be rung in every Monday afternoon at 4.30 o'clock precisely. It will be one single round only, indicating by the strokes on the bells the number of the box. The boxes used for this purpose will vary each week, alternating in the circuits.

Upon each other week-day a single blow upon the bells will be struck from the button of a box, alternating as before mentioned.

SCHOOL SIGNALS FOR CLOSING.

Two strokes of the bell given three times, with a pause of fifteen seconds between the rounds.

The signal to close for the forenoon session will be given at 8 o'clock.

The signal to close for the afternoon session will be given at 1.15 o'clock.

The signals to close all schools for one session will be given at 11.30 A. M.

THE FIRE-ALARM TELEGRAPH

Is the "Gamewell" patent. It embraces 38 miles of wire.

On the lines are 37 fire-alarm boxes belonging to the city, and 10 private boxes,—in all 47. There are three alarm bells, one of 3,724 pounds (bell-metal), one of 3,740 pounds (bell-metal), and one of 2,000 pounds (American steel). There are also 15 mechanical tappers, 36 direct-action tappers, one four-circuit repeater, and four indicators.

The battery consists of 214 storage battery cells for the lines, and 34 open circuit battery cells for other electrical purposes.

The alarm was put in, in 1880, by Edwin Rogers, 657 Washington street, Boston, Mass.

Directions for giving an alarm: Open the box, pull down the hook once only, and let go.

Never open the box or touch anything pertaining to it except in case of fire.

Never give an alarm for a fire seen at a distance.

Be reasonably sure that there is a fire before giving an alarm.

Never give an alarm for a chimney fire unless there is imminent danger of the building catching.

REPORT OF THE BOARD OF EDUCATION
OF
UNION SCHOOL DISTRICT,
CONCORD, N. H.

FOR YEAR ENDING MARCH 31, 1900.

Union School District comprises the territory in the central portion of the city, together with the villages of East and West Concord, and the school on the plains. The property valuation of the district in 1899 was \$9,823,007 (an increase of \$52,822 over the preceding year), being 87.55 per cent. of that of the whole city, and it contains 84.91 per cent. of the school population. The tax for school purposes last year was \$4.20 on each \$1,000 of assessed valuation, or 21 per cent. of the general tax.

District No. 20 (Penacook) has a property valuation of \$675,267 (an increase of \$17,866 as compared with 1898), or 6.02 per cent. of the city, and 8.60 per cent. of the children of school age. School tax last year, \$2.60.

The Town district embraces the outlying or marginal territory, with a property valuation of \$720,612 (a decrease of \$30,046 as compared with 1898), or 6.42 per cent. of the whole city, and 6.49 per cent. of the whole number of pupils attending school. School tax, \$1.00.

The valuation of the city for 1899 was \$11,218,886 by school districts, an increase over that of the year before of \$44,642, or a trifle more than a third of one per cent.

The special school districts in the state, organized under the "Somersworth Act," number 33. They are all contained in twenty-seven towns and two cities, the latter being Concord and Keene.

The board of education presents herewith its annual report, in accordance with a long established custom. Accompanying it are the reports of the financial agent, the superintendent of schools to the board; the usual departmental reports; and tables of school statistics, all of which are respectfully submitted to the citizens of the district.

The year now closing is the fortieth since the organization of the board of education in September, 1859, the fourth since the union of the central districts in 1856, the ninety-third since the division of the town into school districts in 1807-1808, and the one hundred and sixty-ninth since the first school was opened in 1731.

The past school year (March, 1899-March, 1900) has been in some respects a memorable one. In the order of time, it marks the waning of a century, in the beginning of which Concord was a little country village, unimportant perhaps, save in the character of its people, but during which time it has grown to be a city of substantial character, the first in rank in the state, as its capital, and the third largest in the number of its inhabitants. The relative value of this increase in growth is further improved by comparison with that of other places. In 1775, when the first national census was taken, Concord was the seventeenth town in the state, estimated by the number of its inhabitants. In 1800 it had grown to be the twelfth largest town, in 1810 it had become the seventh, in 1820 the sixth, in 1830 the fourth, and in 1890 it had passed every one of its early competitors and taken rank as the third city in the state, the manufacturing cities of Manchester and Nashua only, having a larger population, while the state itself in the latter year was but a little more than two and a half times greater in the number of its inhabitants than a hundred years before. It is gratifying, also, to believe that the public schools, a cherished institution from the first, have more than kept pace with the material growth of the town. The closing century has been a period without a parallel for progress and expansion in every good cause, in which the system of free public schools has fully sustained its

part. The beginning was full of promise, and the closing is rich with the results of progress in every important direction. A very few of the more important changes which have taken place may be briefly summarized as follows: A ten-fold gain in the general population, from two to twenty thousand. An increase nearly as great in the number of pupils and teachers, though the families are considerably smaller in number now than in the olden time, and the rural districts have lost in population. The number of school-houses has increased from nine to twenty-eight and the number of school-rooms from nine to nearly eighty, with a gain in the value of school property from three thousand to three hundred and twenty-five thousand dollars. In the earlier years, too, our school buildings provided but little more than shelter from the weather, and were almost destitute of anything in the way of comfort or convenience. To-day, they are furnished with all needful conveniences, are in every way adequate for the purposes for which they are intended and stand as monuments of progress and advancement. In the raising of money for the support of schools there has been an increase from four hundred to upwards of fifty thousand dollars annually, and in the cost per pupil, from less than one dollar per year in 1800, to more than twenty dollars at the present time. But the most important of all these changes is to be found in the greatly improved character of our schools and the value and thoroughness of instruction which they afford. Great improvement has been made in the systematic and thorough grading of schools, in the provision for physical as well as mental training, in text-books, and the introduction of many new and important branches of study, in the greater ability and culture of teachers and in the constant and skillful supervision of daily work. The efforts constantly made to develop high moral character, and to cultivate a spirit of patriotism in children by the study of our country's history, the singing of patriotic songs and the use and salute of the national flag, have been productive of excellent results. It is safe to say that our schools at the present time are in every way vastly

and incomparably superior to those of a century ago. But, as we review the closing century with a feeling of gratitude for its achievements and its blessings, let no undue boasting of the past, or feeling of self-complacency with present conditions, mar our vision of the future. The spirit of the age demands constant progress. If the past has been fruitful of improvement and progress in the right direction, the future just as surely calls us to still nobler efforts.

SOME EVENTS OF THE YEAR.

The past year, like the one preceding, has been darkened by the shadows of continuous war, in which Concord boys fresh from school, and with military instincts, have been bravely risking health and life to uphold the valor of the nation in lands far remote and beyond the seas. We commend with generous pride this evidence of youthful patriotism and find comfort in the promising indications of an early restoration of national peace, believing, that,

“ If half the power that fills the world with terror,
 If half the wealth bestowed on camps and courts,
 Were given to redeem the human mind from error
 There were no need of arsenals and forts.”

The year has been saddened by death. Two widely known pupils, intellectually ambitious, and possessed of natural endowments of a high order, gifted in scholarship, genial with their teachers and companionable with associates, deeply beloved by all who shared their acquaintance for genuine character and refinement of mind, after an illness of brief duration were removed by death, leaving as a benediction a fragrant memory of all that is highest and noblest in young manhood and womanhood. These sad bereavements will make the coming days look darker for the brightness of the past.

Two promising young pupils lost their lives by drowning in the river. Thomas McKenna, at West Concord, July 14, and Garfield S. Mitchell, August 8, 1899, at a point just

below the Bridge street bridge. Rarely has a season passed within the memory of the living, in which the beautiful river which borders the city on the east, so charming and so tempting to the young, has not been the source of death of one or more beloved school children; and we renew and emphasize a suggestion made in the annual report of two years ago, that with the close of the spring term of school, and the advent of the summer season, that all teachers be requested to especially warn their pupils of the great danger of bathing in the river except with the full permission of parents and under the care of adults experienced in swimming.

It has been a memorable year, also, for the unusual number of serious and distressing accidents to school children. A young lad in the Walker school sustained a fracture of the leg while playing foot-ball at recess. Another received severe injuries by falling within the building, while a little girl in the Chandler school sustained a painful fracture of the arm from the same cause. All fortunately recovered without permanent injury, but every possible precaution should be taken to prevent a repetition of these unfortunate occurrences.

The year has been an exceptional one in the prevalence of contagious diseases generally confined to children. In the last summer vacation, scarlet fever of a mild form became epidemic in the northwesterly portion of the city. With a desire to prevent any further spread of the infection, the board of health thought it best that the schools in that locality should remain closed until a measureable decline in the number of cases had taken place, and in compliance with such recommendation the Franklin and Walker schools were not opened until the fifth week of the term. Later in the season one room in the Chandler school, from which a pupil had been removed with symptoms of the same complaint, was closed for two weeks, and the schools at West Concord and on the Plains suffered considerable interruption, more particularly from a diminished attendance, in consequence of the prevalence of measles and whooping cough in their respective localities during the fall and winter terms. For

the year ending March 1, 1900, there had been reported one hundred and fifteen cases of scarlet fever with one death, three hundred and forty-three cases of measles, and seven cases of diphtheria, one of which was fatal. The school of manual training was also closed early in March for the few weeks of the term remaining on account of the illness of Mr. Gordon, the instructor.

SCHOOL CENSUS OF UNION DISTRICT.

A census of school children was taken by Mr. George W. Johnson, in compliance with a law of the state, and under the direction of the board, in the spring and early summer of last year. This includes all children in the district between the ages of five and sixteen years. The whole number returned was 2,621, against 2,239 in 1897, and 2,209 in 1895; a gain of 381, or 17.06 per cent., in the last two years.

Arranged by wards and classified by sex, the results are as follows:

Ward.	Boys.	Girls.	Total.
2,	48	49	97
3,	94	80	174
4,	328	317	645

SOME CHANGES IN SCHOOL LAWS.

Relating to holidays. "Thanksgiving Day, and Fast Day, whenever appointed, Labor Day, the day on which the biennial elections are held, the twenty-second day of February, the thirtieth day of May, the fourth day of July, and Christmas day, shall be legal holidays, and when either of the last four days mentioned occurs on Sunday, the following day shall be observed as a holiday." (Approved February 15, 1899.)

TRUANT OFFICER.

"School boards shall appoint truant officers for their districts, and fix their compensation at a reasonable rate, which compensation shall be paid by the towns.

"Truant officers shall, *if required by the school board*, enforce the laws prohibiting the employment of children in manufacturing, mechanical or mercantile establishments, who have not attended school the prescribed time; and for this purpose they may, *when so authorized and required by vote of the school board*, visit the manufacturing, mechanical and mercantile establishments in their respective cities and towns, and ascertain whether any children under the age of sixteen are employed therein contrary to the provisions of law, and they shall report any cases of such illegal employment to the school board; and the truant officers, *when authorized as aforesaid*, may demand the names of all children under sixteen years of age employed in such manufacturing, mechanical, and mercantile establishments, and may require that the certificates and lists of such children provided for by law shall be produced for their inspection. Truant officers shall inquire into the employment, otherwise than in such manufacturing, mechanical, and mercantile establishments, of children under the age of sixteen years, during the hours when the public schools are in session, and may require that the certificates of all children under sixteen shall be produced for their inspection; and any such officer may bring a prosecution against a person or corporation

employing any such child, otherwise than as aforesaid, during the hours when the public schools are in session, contrary to the provisions of law.

“ A refusal or failure on the part of an employer of children under sixteen years of age to produce the certificate required by law, when requested by a truant officer, shall be *prima facie* evidence of the illegal employment of the child whose certificate is not produced.

“ Truant officers shall have authority without a warrant to take and place in school any children found employed contrary to the laws relating to the employment of children, or violating the laws relating to the compulsory attendance at school of children between the ages of six and sixteen years.”

The effect of the amendment to the truant law is to render its enforcement, so far as the employment of children of school age in manufacturing, mechanical or mercantile establishments is concerned, optional with the school boards of towns and cities. Without such authorization the law ceases to be mandatory.

A law was passed at the last session of the legislature, “ To equalize the school privileges of the cities and towns of the state,” the effect of which so far as we are concerned, is to require from this city an annual contribution of \$1,506.75, ostensibly to aid in the support of schools in the least populous and less wealthy towns in the rural sections of the state. It was prompted, no doubt, by the best of motives, but it appears to have been a specimen of very crude legislation needing careful revision to carry out even the intentions of its progenitors, for its actual results have been to aid sixty-two different towns, twelve of which receive amounts in excess of their proportion of the state tax, twenty-five in which the tax rate is considerably less than that of the average of towns in the state, and sixteen towns have received aid which are entirely out of debt and have a surplus in their treasuries, while the city of Concord has a debt aggregating nearly a million of dollars and a tax rate which, in comparison with those prevailing in the former towns, would be considered excessive and burdensome.

NUMBER OF SCHOOLS.

Our system now includes forty-eight regular and four special schools, one less grammar school than last year, and one additional kindergarten, making the whole number fifty-two, the same as in the previous year, classified as follows:

Regular schools, High	1
Grammar	16
Primary	24
Kindergarten	6
Mixed	1
Special schools, Manual Training	1
Sewing	1
Cooking	1
Drawing	1
	—
Total	52

NUMBER OF TEACHERS.

The whole number of regular teachers employed full time, including the principal of the training school and the superintendent, is sixty, with seven special teachers, making a total of sixty-seven. This number does not include the pupil teachers in the training school, all of whom serve without compensation except when substituting for regular teachers, when they receive \$1.50 per day, or the instructor of military drill, who is engaged but a few hours weekly.

Of the regular teachers, forty-two of the sixty, seventy per cent., are graduates of our own schools, nearly all of whom are natives of the city, and thirty-one of the forty-two, nearly seventy-four per cent., are graduates of our own local school for normal training.

District No. 20 employs six teachers, and the Town district eleven, making a total of eighty-four teachers, or, adding the nine in the training school, a grand total of ninety-three teachers regularly employed in the public schools of Concord.

It may be of interest to know, also, that in addition to the above there are six teachers in the parochial school, at least five teachers or tutors of private schools, no less than seven teachers at St. Mary's school for girls, thirty-six at St. Paul's, two at the Rolfe and Rumford, and one at the Orphans' Home at Millville, making a grand total of 150 professional teachers in the whole city.

NUMBER OF PUPILS.

There has been a small increase in the number of pupils attending school over that of last year, a gain of eighty-one, or about 3.54 per cent. This increase may be accounted for in part by the opening of another kindergarten school at the south end, the latter being the sixth in this city, out of a total of thirteen in the state, supported by a public tax.

26 schools show an increase in the number of pupils of	127

St. Mary's,		7	7
Totals	<u>1,933</u>	<u>1,592</u>	<u>3,525</u>

SCHOOL BUILDINGS.

The number and general character of school buildings is the same as last year. All are in good or fair condition, and several comparatively new. The Merrimack and Rumford are already venerable in age and growing older every year, but are in much better condition now than for several years past. After the district has paid off its debt, and has had a breathing-spell perhaps, these buildings should be replaced by larger and better ones. The only vacant room at the present time is one on the second floor of the Kimball school, which is likely to come into use again the coming year. The usual revised inventory follows.

INVENTORY OF SCHOOL DISTRICT PROPERTY, REAL ESTATE, 1900.

Number.	NAME OF BUILDING.	LOCATION.	Date built.	Estimated value of land and buildings.	Insurance.	No. of rooms.	Seating capacity.

REPAIRS OF BUILDINGS.

Somewhat extensive repairs and betterments have been made to many of the school buildings during the last summer and fall. Three additional steam radiators were placed in the High school building, in recitation rooms Nos. 2, 5 and 7. Hitherto it has been found difficult to properly warm these rooms in the coldest weather, but it is believed no further trouble will be experienced. A more important change, however, has been the introduction of an electric motor of ten-horse power in place of the upright engine hitherto employed for driving the fan, by means of which the warm air is distributed throughout the building. The change in power has made possible a reduction of steam pressure in the boiler and radiators from seventy to thirty-five pounds, thus removing any apprehensions of possible danger, besides permitting the operation of the fan at a much higher and more uniform rate of speed, which has greatly improved the ventilation.

The improvements at West Concord have been many and expensive. A new gravel roof has been put on the building and the mansard sides newly shingled. The old water-closets have been taken out and a new and modern system of sanitariums put in, with new plumbing throughout. An entire change in the method of heating and ventilation has also been made. The interior walls have been thoroughly cleaned and freshly kalsomined. The cellar has been cemented and the stone steps re-set.

The Eastman at East Concord and the Plains school have each been provided with new and enlarged ventilating shafts and jacketed stoves. The latter has also a new porch floor and steps, and the interior walls have been kalsomined and the wainscoting painted.

The interior walls of the Franklin, Tahanto, Merrimack, Sewing-school and the Rumford have been kalsomined, and the ceilings whitewashed, and the wood-work in the Walker, Franklin and Kimball has been newly varnished.

The Manual Training school-building has been painted on the outside and the Sewing-school outside and in, and both

equipped with new plumbing and modern sanitariums, toilet conveniences, etc. Minor repairs have also been made to nearly all the buildings in the district.

CHANGES IN THE MERRIMACK SCHOOL.

At the last annual meeting of the district the sum of \$1,500 was appropriated, to be expended subject to the approval of the board of education, for providing a new and improved system for warming the Merrimack and Rumford school-buildings. At the first meeting of the board following that of the district meeting, a committee composed of the three new members was appointed to consider the matter and report its conclusions. At a later meeting this committee made a verbal report to the effect that after visiting those buildings, inspecting the method of warming and the provisions for ventilation, and consultation with the teachers, they were of the opinion that it was not expedient to undertake the changes proposed with the limited funds provided. Later in the season, at the urgent request of Dr. S. C. Morrill, the sanitary advisor of the board, Prof. Woodbridge, of Boston, a distinguished authority in matters of this kind, was employed to make an examination of one of the buildings and submit a plan covering the changes proposed. Late in the fall plans were submitted, and Dr. Morrill was made the agent of the district to carry them into effect. The report of the latter is herewith submitted.

DR. MORRILL'S REPORT.

To the Board of Education of Union School District.

GENTLEMEN: In accordance with your vote to improve the heating and ventilating of the Merrimack school-building, according to the plans of the S. H. Woodbridge Company, Boston, heating and ventilating flues were put in during the winter vacation. Two Hygeia furnaces, which were ordered in December, were not delivered until the end of January, and were in working order about the fifteenth of February.

The following tests of the quality of the air, according to Dr. Fitz's air tester, have been made: before the changes, the average from eighteen tests for all rooms was $73\frac{9}{10}$ c. c.; since the changes, the average for all rooms from forty tests was $131\frac{8}{10}$ c. c., making an improvement in the whole building of $57\frac{9}{10}$ c. c.

Before the changes were made, there was considerable difference in the ventilation of the rooms of the first and second floor, the second story being better than the first; since the changes, the difference continues in favor of the second story. For example: Previous to the changes, the quality of air in the first floor was worse than "very bad" ($54\frac{9}{10}$ c. c.), and in the second floor it was worse than "bad" ($82\frac{9}{10}$ c. c.); since the changes, the quality of air in the first floor was slightly below "fair" ($112\frac{9}{10}$ c. c.), and in the second floor, slightly below "good" ($150\frac{8}{10}$ c. c.).

Comparing the quality of ventilation of this building with all other buildings in Union School District, excepting the High school, it now stands third.

FINANCIAL.

The debt of the district, which was incurred for new buildings in 1889-90, has been further reduced the past year by the payment of bonds maturing last July to the amount of \$15,000, and now aggregates \$45,000, all in 4 per cent. bonds, maturing as follows:

\$15,000, payable July 1, 1900.

\$15,000, payable July 1, 1901.

\$15,000, payable July 1, 1902.

To pay the amount becoming due the present year, it will be necessary to raise \$15,000 of principal and \$1,500 of interest, a total of \$16,500, after payment of which the funded debt will be \$30,000, representing about ten per cent. of the estimated value of our school property.

In addition to the above, however, \$24,000 more, being four fifths of the \$30,000 voted for a new school-building at

the west end, must be borrowed the present year, in accordance with the vote of the district passed October 13, 1898. The district debt will thus be increased to \$54,000, after the bonds maturing this year have been paid.

The total amount of money to be raised by taxation this year for school purposes will be approximately as follows:

For support of schools, about	\$50,000
payment of bonds maturing July 1	15,000
interest on bonded debt	1,500
	<hr/>
Total	\$66,500

THE WEST END SCHOOL BUILDING.

Of the \$30,000 voted for a new building at the west end, in October, 1898, one fifth of the amount, \$6,000, was raised by tax last year. The expenditures have been as follows:

Paid City of Concord for lot	\$2,500.00
Geo. L. Theobald, for removal of 3,757	
cubic yards of earth (hard pan)	1,953.64
advertising for proposals for grading	6.00
	<hr/>
Total	\$4,459.64

Balance on hand, \$1,540.36.

Plans for the new building have been completed and provision is being made for its early construction. It will be of red brick with granite trimmings, two stories high, with slated roof, and will contain four class rooms of standard size, and two teachers' rooms large enough to be used for recitation rooms should occasion require. The corridors will be wider than usual to permit of occasional use as assembly rooms when public exercises are held. The building will be provided with a modern system of heating and ventilation. It will probably be ready for occupancy with the beginning of the winter term of school.

One of the most pleasing features of progress in the schools in the last few years has been the marked improvement in the social life between teachers and pupils, more noticeable in the past year than ever before. The opportunities for social acquaintance and comradeship which the early schools provided was an attraction from the beginning, but in the olden time there seemed to be a formidable barrier between teacher and pupil; the former was too often looked upon as a task-master, and the pupils were inclined to fraternize to share and lighten each other's burdens and commiserate a general fate. Now, all this feeling has disappeared in many of the schools, and teachers find their usefulness greatly increased in striving to induce and foster a higher and better social life in the pupils under their guidance and instruction. There are many schools in the district to-day where dismissal at the close of the afternoon session is followed by a period of social enjoyment, in which the teacher is assisted by classmates helping each other to a better understanding and enjoyment of the work which they are pursuing. In this spirit of coöperation children become attached to their teacher and to each other, and results which could not be secured in any other way are easily obtained. It is to be hoped that all teachers will see the worth of this principle and give it every encouragement.

Respectfully submitted,

JOHN C. ORDWAY, President,
HENRY F. HOLLIS,
SUSAN J. WOODWARD,
HENRY C. BROWN,
WILLIS D. THOMPSON,
AMOS J. SHURTLEFF,
JOHN M. MITCHELL,
SUSAN C. BANCROFT,

Emily M. Robinson, Kimball Third Primary.

LEAVE OF ABSENCE.

Kate E. Wilson, winter term.

REPORT OF THE TRUANT OFFICER.

L. J. RUNDLETT, *Superintendent.*

DEAR SIR,—I herewith submit the following as a report of my work from May 22, 1899, to March 23, 1900, exclusive of the enumeration of children of school age, in Union School District, for the year 1899, which will be found elsewhere in the report.

I desire to return my sincere thanks to the board of education and the Superintendent of Schools for their cordial support in my efforts to perform the duties assigned to me; also to the teachers for their valuable assistance and kindly coöperation, which I most highly appreciate.

Very respectfully,

GEORGE W. JOHNSON,
Truant Officer.

ATTENDANCE.

The increase in the whole number of different pupils belonging for the past ten years has been 26 per cent., and it is reasonable to suppose that, in view of the increase of last year, this will continue. During the past year the number of pupils has been larger than that of the year preceding by 145. This increase has been pretty evenly distributed, the gain south of Pleasant street being identical with that north of Center street. The average daily attendance has increased 64 and the per cent. of attendance has decreased one, due no doubt to the prevalence of children's diseases. The average number of tardinesses to each pupil has decreased 3 per cent. This increase in attendance has caused us to use all the extra seats available. It was reasonable to suppose that the recent change in the location of the railroad shops would cause congestion in attendance at the south part of the district. Although this has been realized, yet the attendance at the north part has also experienced a like increase. Residential lines prescribed by the board of education for attendance at the different buildings have been disregarded because conditions compelled it. Pupils residing as far north as High and Auburn streets have been obliged to attend the Kimball school, and others as far south as Warren street have attended the Merrimack school. Doubtless the new school building about to be erected at the west end will obviate this difficulty.

The enrollment in certain portions of the district forcibly suggests the need of more room in the near future, but if the board sees fit to make the afternoon classes of the sub-primary schools care for all the first year pupils this need of extra accommodations will be delayed for a considerable time. The plan has been on trial in the Franklin building and has met with such success that I recommend it as a feasible scheme.

The record of perfect attendance has been remarkably good. Those pupils who have had a perfect attendance for more than one year are as follows: Perfect attendance for seven

years, Frances K. Saltmarsh, Roy T. Brunei; six years, Grace Walters; five years, May A. Wardner, Wendell H. Piper, Harry Perry, Esther Carlson; four years, Effie D. Weathers, Reuben H. Boutwell, William E. Morrison, Florence Holbrook; three years, Nellie J. Moore, Mabel G. Sanborn, Clarence Little, Edith P. Piper, Maude A. Burroughs; two years, Marion L. Smith, Mabel P. Horne, George P. Leet, Julia A. Stickney, Alice J. Huntley, Lloyd B. Dame, Mary Casey, Clara Heath, George E. Carter, Hazel Barnard, Raymond Taylor, Anna D. Liberty.

Last spring the board elected Mr. George W. Johnson truant officer for the district. He has faithfully performed his duties and the attendance at school has been very materially increased by his work. An inspection of his report shows that very many pupils who were clearly evading the law have been caused to attend school.

HIGH SCHOOL.

It gives me much pleasure to report an unusually successful year for the High school. The attendance has been large and regular, the corps of teachers efficient, and the results attained unsurpassed for many years. The courses are more comprehensive and well-balanced, and the equipment better than ever before. I hope that we may be able to retain the present corps of teachers for another year.

The plan now in vogue in the ninth grade grammar schools has been on trial long enough to form an adequate idea of its effectiveness as a preparation for high school work. The following comparisons show definitely in its favor:

From 1893 to 1896 the classes were fitted under the old plan; from 1896 to 1899 under the new plan. Careful comparisons of these two periods show that the average number graduating from the grammar schools has decreased $1\frac{1}{3}$ per cent. The average number entering the High school has decreased $2\frac{1}{3}$ per cent. The number leaving the High school during the first term has decreased 2 per cent. The number of the whole class enrolled upon the honor list during the first term has increased $1\frac{1}{3}$ per cent.

The items relating to graduations from the grammar schools and entering the High school are unfavorable to the present scheme, but those relating to scholarship are largely in its favor.

The registration for the year has been 218, two fifths being boys and three fifths girls. The freshman class entering this year numbered 86 as compared with 76 of last year. The tuition receipts of the school amounted to \$720. Of the twenty-five tuition pupils thirteen resided in the city of Concord, three in Dunbarton, three in Pembroke, two in Bristol and one each in Hooksett, Bow and Southern Pines, N. C.

The graduating class last June numbered twenty-five, ten boys and fifteen girls. Nine were in the academic course, four in the classical, and twelve in the three years course. Seven entered college, two at Vassar, one each at Amherst, Dartmouth, Durham, Harvard and Wesleyan. Two are taking post-graduate courses, three studying at the Franklin Training school, two teaching outside of Concord, and one instructing private pupils.

The teaching corps has been practically the same as for the previous year with the exception of Misses Mary W. Dean and Philinda P. Rand. Miss Dean, the instructor in English composition, is a graduate of Radcliffe college, thoroughly trained for her work, and her success as a teacher is evinced by the improvement in the literary work of the school. English composition under her teaching is rapidly approaching a standard never before attained here. The school paper, *The Volunteer*, has been made a practical part of her department. This appears once each term, and is the most creditable publication ever issued by the school.

Mrs. Wilson has been granted leave of absence until next fall. Her work has been successfully carried on by Miss Rand.

A course in miscellaneous reading was prepared by Misses Elizabeth Averill and Mary E. Whitten of the High school, and Judge Corning of the board. This has been printed

and furnished the pupils in pamphlet form, the object being to induce them to select the choicest productions of the different authors, and thus cultivate a taste for first-class literature.

The scientific course in the second year of its existence is successful and growing in favor. The pupils taking this course are classified as follows: juniors, four; sophomores, seven, and freshmen twenty-five, making a total of thirty-six, or about one fifth of the whole number in school. Out of thirty-three in the freshman class who took this course ten were enrolled upon the honor list at the close of the fall term. The teaching and the results are worthy of commendation. A liberal supply of apparatus has been furnished by the board and much more has been made by the instructor. There is urgent demand for a projecting lantern, which may be procured for a nominal sum, and a limited amount of apparatus is also needed for physiography.

PRIMARY AND GRAMMAR SCHOOLS.

The two impeding factors of the year have been children's diseases and the overcrowding of rooms. The schools need more rooms and a smaller number of pupils in each room to realize what people desire as the best education for their children.

A course in memory work has been prepared and practised throughout nine grades. This requires the memorizing of one short standard poem each month, especially suited to it. There are also appropriate opening and closing exercises.

Much attention has been given to exercises in English composition in the lower grades. Improvement has been sought not only in the quality of the subject matter, but also in the form in which it is presented. Since the introduction of "Carpenter's Exercises in Rhetoric" better books have been published and the introduction of one into Grade Nine is deemed advisable.

The standard of arithmetic remains practically the same as for the past few years. If the mathematics of the first four years were reduced to mental work principally, and the time

thus gained applied to physical culture, reading, letter-writing and composition work, the results would show a gain for mathematics and the other studies as well.

The results from our plan of teaching history have been satisfactory. The course in collateral reading has proved to be more effective than I supposed it would be. More than 2,000 books were read by the pupils last year, which can be traced directly to the influences of school work. Probably many more will be read next year. The effects of such extensive reading cannot be justly estimated, but we may conjecture that a taste for reading will be formed which will eventually relegate cheap literature to the place where it belongs. One room alone had a record of more than 400 books read, and the greater part of these were taken from the public library.

The course in geography has been revised and topically arranged to suit the needs of the various grades. Aside from the regular subject matter of the books much attention has been paid to rapid map-sketching, location and finished map drawing. A new supply of maps and globes was furnished to nearly all of the schools, but a like supply is needed for next year to make the outfit complete.

MANUAL TRAINING.

Wood and Iron Working: This department has undergone important changes during the past year. A new lathe for the iron work allowed an extension of the course to be made so that it now offers very instructive work to the advanced classes. To promote the best interests of the school an assistant should be employed to aid the regular instructor, afford the pupils more individual attention and raise the standard of discipline. A class from the parochial school has attended this year.

Sewing: Sewing has been graded so as to ensure steady progress. For various reasons quite a number have sought to be excused from this branch, perhaps more than in previous years. On account of the time being divided with cooking in the upper classes, the fifth and sixth grades were

enabled to take this work. I recommend that sewing be taught in the lowest grades of school and that the regular teacher give the instruction under the direction of the regular sewing teacher. While the fifth and sixth grade girls have been at the sewing school the boys of these grades have been obliged to remain in the school rooms. Some manual work should be furnished them for next year. In the fall it became necessary to use the remaining room of the Cogswell building for a kindergarten and the sewing classes were compelled to seek accommodation elsewhere. The city government generously allowed us the use of the Ward house on West street. While this is not an ideal place for the work, nevertheless it has been used to advantage.

There is need of better equipment for the school. Cutting and making garments has been added, and if this work is to count with other studies in the matter of promotion, every necessary convenience should be placed at the disposal of the teachers and pupils and then they may be held responsible for careful examination. The exhibition at the close of the year showed commendable results.

Cooking: Cooking and Household Economics divide the time with sewing in grades eight and nine of the grammar schools and the scientific course of the High school. Interest in this branch is evidenced by the fact that the West Concord class has attended and paid its own transportation charges. One girl is reported to have entire charge of the cereals for the home breakfast, and 1,253 dishes have been prepared at the different homes. Mothers are urged to allow the girls to experiment so as to apply knowledge for which the class time makes no provision. The room has been improved by white-washing the walls and the old unsightly pasteboard boxes have been replaced by new shelves and a cupboard. Instruction in domestic science, such as dusting, washing dishes and silver, sweeping, setting table for breakfast and luncheon, table etiquette, etc., has raised the standard to a point never before reached. It can be said confidently that the work has never been more popular with the pupils nor more satisfactory work accomplished than during the past year.

DRAWING.

Drawing has progressed as usual with the exception of the High school work. The time given to the subject here and the other limitations which the teacher is obliged to observe are such as to render the subject of little value and to set the standard lower than that required in ordinary high schools. The studio class has been larger than usual, the attendance more regular and the work of a higher order of excellence.

MUSIC.

Music has been conducted upon essentially the same lines as heretofore. The books of the Educational Music Course have largely displaced those of the National Course. An effort has been made to render the High school work more varied and effective and it has been realized to a large extent. I suggest that consideration be given to the advisability of instituting a class of musical history. It is a subject worthy of any educational system and is in successful operation in other cities. The pupils sing in good tune and show unmistakable improvement in sight reading. From year to year the different grades vary in the amount and the quality of the work done, but the average is one of progress, not retrogression.

KINDERGARTENS.

But one new kindergarten has been started this year. In the fall one was established in the Cogswell building. At present the attendance is small. A knowledge of the growth of the other kindergartens leads me to believe, however, that this one will assume larger proportions.

ELOCUTION AND PHYSICAL TRAINING.

Miss Maude L. Wallace was elected as instructor of physical training and elocution during the winter term. She has brought to her work a professional training and a capacity for teaching which ought to insure success.

MILITARY DRILL.

Military drill for both boys and girls has been carried on in the High school much as usual. Governor Rollins kindly allowed the use of the western part of the state house yard for purposes of drill during the spring term. This enabled the pupils to take up the more advanced work. There is much need of a hall for the companies during the winter. The pleasant days of the fall and spring terms permit out-of-door work, in which much more progress is made than during the winter term. The discipline has not been perfect and hardly approaching it. The Cadets held a successful prize drill at which the girls gave a creditable exhibition. The boys were represented at the competitive drill in Boston, which was given under the auspices of the Massachusetts Institute of Technology, and they carried off the honors at the recent drill of a local National Guard company. There is great need of some new rifles, belts, and also wooden dumb-bells for the girls. The Cadet colors are also in a dilapidated condition.

TRAINING SCHOOL.

The Training school still continues to do creditable work, and sends forth teachers who give good account of themselves wherever they are called upon to teach. The work of the school has been seriously impeded this year by the epidemic of the fall, but the zeal which has always characterized the corps of teachers has in nowise abated.

Much discussion has been rife in this country during the last quarter of a century regarding the comparative values of different courses of study. This discussion seems to be no nearer settlement than it was in the beginning. In the United States the people as a rule subordinate theory to practice. They have an innate desire to see a man act more than he talks. This question as related to our schools as well as others is—have our pupils the physical and mental ability to do something? Upon this will the success or failure of our American system of instruction depend.

The supreme effort of all educational systems should be towards the proper and full development of the mental faculties. It is not fatal to a child's prospects that courses which seek this have or have not a strong element of utilitarianism. It matters not whether a boy shows mental power as the result of a course in classics or a course in manual training. The *result* is what men desire. If we seek habits of accuracy we care not whether the power is gained through careful translation of Greek or Latin, French or German, thorough work in English grammar, absolute work in arithmetic, algebra or geometry, planing to the line, the regular stitch, or using "just right measure" in cooking. The pupil who shows this development is the one who will be chosen for it.

The professional man and man of affairs ask for a pupil with the ability to think, receive instruction, apply it and to increase in strength. That a pupil fresh from the public schools cannot add long columns of figures and keep books as well as a clerk of ten years' experience is not to be criticised as the results of an educational system. It is neither reasonable nor just. If the pupil through his studies has been able to gain the power of thought, accuracy, and application, this is all any man can reasonably expect and about all he will ever get from any course of study, either specific or general. There is not a course of instruction in connection with our public schools that tends to unfit a boy or girl for any calling in life. To say that any particular course, from kindergarten to the classics, is necessary is a misstatement. The records of many pupils from our public schools, who have entered the schools of other cities, are of such a high standard as to silence criticism.

Our system of instruction is neither costly nor of a low standard, when justly compared with that of other cities of the same size. A statement to the contrary cannot be substantiated. The people are charitable in regard to mistakes which any one is liable to make, the pupils are interested, the teachers very hard workers, and those in charge of educational affairs are careful and conscientious in their administration.

I am highly appreciative of aid in my professional work and it is without formality that I acknowledge obligations to the board of education, the teachers and the general public for unvaried courtesy during the past year.

TENTH ANNUAL ELOCUTIONARY CONTEST

BY THE PUPILS OF THE PUBLIC SCHOOLS OF UNION SCHOOL DISTRICT, AT PHENIX HALL, THURSDAY EVENING, MARCH 23, 1900.

PROGRAMME.

Original Declamation.

1. The American Newspaper, High School.
Amos Dodge.
2. The Future of the Anglo-Saxon Race, High School.
James Hammond Stone.
3. Patriotism, High School.
William Wentworth Thayer.
4. Music and Its Charms, High School.
Irma Berger.

Music. Chorus—"Hail, Smiling Morn" (Spofforth).

Aesthetic Drill—"The Revels of The Naiads."

By Class selected from the Public Schools.

Forensic Declamation.

1. "Abraham Lincoln" (Melancthon Stryker), Merrimack School.
Charles Day Weathers.
2. "The American Sailor and Soldier" (R. P. Hobson),
Fred Albert Barker. Chandler School.
3. "The Ship of State" (Rev. Wm. P. Lunt), West Concord School.
Katharine Gertrude Quinn.
4. "Eulogy on Lafayette" (Edward Everett), High School.
Moody Dole Holmes.

Music. Part Song—"Rest Thee, My Little One" (Facer).

Miscellaneous Declamation.

1. "How Old Folks Won the Oaks" (J. J. Eakins), High School.
Charles Lester Roberts.
2. "Tim's Promise" (Josephine Marie), Chandler School.
Ethel Ruby Welch.

3. " Apples Finkey, The Water Boy " (J. J. Rooney),
Jennie Belle Blake. West Concord School.
 4. " How Burlington was Saved " (C. Mair), Merrimack School.
Anna Margaret Gannon.
 5. " On the Railroad Crossing " (Hezekiah Strong), High School.
Lillian Esther Robie.
- Music. Soli and Chorus—" The Old Guard " (Rodney).

Award of Prizes.

BOARD OF JUDGES.

Rev. Loren Webster, Holderness, N. H.
 Prof. Isaac Huse, Jr., Manchester, N. H.
 Supt. J. H. Fassett, Nashua, N. H.

Original Declamation.

First Prize, \$20, awarded to Amos Dodge.
 Second Prize, \$6, awarded to William Wentworth Thayer.

Forensic Declamation.

First Prize, \$6, awarded to Moody Dole Holmes.
 Second Prize, \$4, awarded to Charles Day Weathers.

Miscellaneous Declamation.

First Prize, \$10, awarded to Charles Lester Roberts.
 Second Prize, \$6, awarded to Lillian Esther Robie.
 Third Prize, \$4, awarded to Jennie Belle Blake.

Special Prize, \$1, awarded to the best speaker of the school which
 took no prize, Fred Albert Barker.

THE BOARD OF EDUCATION.

ORGANIZED SEPTEMBER 10, 1859.

LIST OF MEMBERS AND TERM OF SERVICE, 1859-1900.

	NAME.	FROM.	TO.	DATE OF DEATH
1	Henry E. Parker.....	Sept. 10, 1859	March 30, 1864	Nov. 7, 1896.

ANNUAL SCHOOL MEETING WARRANT.

STATE OF NEW HAMPSHIRE.

To the inhabitants of Union School District qualified to vote in district affairs:

You are hereby notified to meet at the city hall in said district on Thursday, the 29th day of March, 1900, at 7 o'clock in the evening, to act upon the following subjects:

1. To choose a moderator for the ensuing year.
2. To choose a clerk for the ensuing year.
3. To hear and act upon the report of the board of education for the past year.
4. To choose three members of the board of education, to hold office for three years, to fill the vacancies arising from the expiration of the term of office of John C. Ordway, Susan J. Woodward, and Henry F. Hollis, and also to fill any other vacancies which may occur in said board.
5. To choose one or more auditors, and all other necessary officers for the ensuing year.
6. To see what sum of money the district will raise and appropriate for the payment of the debts of the district.
7. To see what sum of money the district will raise and appropriate for the support of the schools for the ensuing year, including industrial education, military drill, and calisthenics.
8. To see what sum of money the district will raise and appropriate for repairs of school buildings during the ensuing year.

9. To transact any other business that may legally come before said meeting.

Given under our hands this 13th day of March, 1900.

JOHN C. ORDWAY,
CHARLES R. CORNING,
SUSAN J. WOODWARD,
A. J. SHURTLEFF,
H. C. BROWN,
WILLIS D. THOMPSON,
HENRY F. HOLLIS,

Board of Education of Union School District.

ANNUAL MEETING OF UNION SCHOOL DISTRICT.

CONCORD, N. H., March 30, 1899.

Agreeably to the foregoing warrant, a meeting of the legal voters in Union School District was held at the city hall this thirtieth day of March, 1899, at 7 o'clock in the evening, and was called to order by the moderator, Charles C. Danforth, who read the foregoing warrant.

ARTICLE 1. Mr. B. E. Badger moved to proceed to the election of a moderator and that one vote be cast for Charles C. Danforth; motion carried, and the vote was cast by Mr. Badger.

Charles C. Danforth having one and the only vote was declared elected moderator. He was sworn in by Mr. A. J. Shurtleff, justice of the peace.

ART. 2. Mr. Badger moved to ballot for clerk and cast one vote for Louis C. Merrill.

Louis C. Merrill having one and the only vote cast was declared duly elected clerk of the district for the ensuing year, and took the oath of office.

ART. 3. Charles R. Corning moved that the report of the board of education as printed be accepted and placed on file; motion declared adopted.

ART. 4. Under this article A. J. Shurtleff offered the following resolution:

“That the three members of the board of education to be chosen for three years each, be voted for on one ballot. That the polls be opened at this time and remain open until 9 o'clock this evening; motion adopted, and the moderator declared the polls open.”

ART. 5. On motion of Mr. H. C. Brown, it was voted that Mr. Joseph C. A. Hill and Mr. William Yeaton, the auditors of last year, be and hereby are, appointed auditors for the ensuing year.

ART. 6. John C. Ordway offered the following resolution and moved its adoption :

Resolved, That there be raised by tax on the polls and ratable estates of Union School District, the sum of seventeen thousand, one hundred dollars (\$17,100), of which sum fifteen thousand dollars (\$15,000) shall be appropriated for the payment of notes maturing July 1, 1899, and two thousand, one hundred dollars (\$2,100) for the payment of the interest on its funded debt accruing during the year.

A vote was taken and the moderator declared the resolution adopted.

ART. 7. A. J. Shurtleff offered the following resolution :

Resolved, That there shall be raised, and is hereby ordered to be raised, by tax on the polls and ratable estates within Union School District, for the support of schools for the ensuing year, such a sum as in addition to the sum assigned to the district by the city of Concord out of the appropriation for schools, will amount to the sum of forty-five thousand dollars (\$45,000).

Mr. Shurtleff moved the adoption of the resolution. A vote being taken the moderator declared it a unanimous vote in the affirmative.

ART. 8. H. C. Brown offered the following resolution :

Resolved, That the sum of two thousand dollars be raised by taxation upon the polls and estates of Union School District and appropriated for special repairs of school buildings, and that the expenditure of such a sum shall be under the direction of the board of education.

Mr. Brown moved the adoption of the resolution. A vote was taken and the moderator declared it a unanimous vote in the affirmative, and the resolution passed.

The moderator appointed Howard A. Dodge and George M. Fletcher a committee to assist in sorting and counting the votes.

ART. 9. William Yeaton moved that there shall be raised, and is hereby ordered to be raised, by tax on the polls and ratable estates within Union School District, and appropriated for the introduction of improved methods of heating and ventilation in the Merrimack and Rumford school buildings, the sum of fifteen hundred dollars (\$1,500).

Joseph Wentworth moved that the matter be referred to the board of education; motion seconded and a vote taken, and the motion was declared lost.

The motion of Mr. Yeaton was then seconded, a vote taken, and declared in the affirmative.

John P. George moved to reconsider the vote on Mr. Yeaton's motion. Vote was taken, 64 voting in the affirmative and 62 in the negative; the motion to reconsider was adopted.

Mr. Yeaton's motion being before the meeting Mr. Howard F. Hill moved to amend the same by adding, "if in the opinion of the board of education such action is advisable"; motion was seconded, and the amendment was declared adopted.

Mr. Yeaton's motion, as amended by Mr. Hill, was then voted on, and declared adopted.

Nine o'clock having arrived the moderator declared the polls closed and proceeded to count the votes.

The moderator declared the ballot as follows:

Total number of votes	544
Necessary for a choice	273
Benjamin E. Badger	69
Chancey Adams	169
Ebenezer B. Hutchinson	1
John E. Frye	3
Frank L. Phalen	217
Charles R. Corning	323
John M. Mitchell	381
Susan C. Bancroft	421

Susan C. Bancroft, John M. Mitchell and Charles R. Corning, having a majority of votes, were declared by the moderator as elected.

On motion of Mr. Hill, voted to adjourn.

A true record. Attest,

LOUIS C. MERRILL,
Clerk.

REPORT OF BOARD OF EDUCATION FOR
DISTRICT NO. 20, FOR 1899-1900.

In the last report submitted by the school board of District No. 20 the attention of the citizens was called to some conditions then existing that had a tendency to retard general progress in the school. Their attention was also called to certain regulations that had recently been adopted and promulgated for the purpose of remedying those baneful conditions.

It is a source of gratification to your school board in submitting their annual report, for the year ending March, 1900, to testify to the beneficial results accruing from the operation of these regulations. One of those regulations provided that no child who had not attended school before should be admitted to the school except at the opening of the fall term. Owing to strict adherence to this provision it has been possible to rearrange the grading in the primary rooms so that each of the three teachers employed in that department have one grade only under their charge, thereby making it possible for them to do much more efficient work than under previous conditions, and at the same time dividing the number of pupils more nearly equal among all the grades.

Excepting in the second and third primary rooms the same corps of teachers has been employed for the past year that was employed for the previous year. Miss Florence A. Chandler, who previously taught with marked success in the second primary, was given the third primary, succeeding Miss Lizzie T. Elliot; and Mrs. Hannah R. Holden, a teacher of successful experience and well-deserved popularity, was placed in charge of the second primary.

In all grades the work done by the several teachers has been eminently satisfactory, and such progress has been made as is possible only through the services of competent instructors, and the harmonious coöperation of all parties concerned. We believe that the present system of supervision by the principal has been conducive to most beneficial results.

ATTENDANCE.

The average attendance for the past year has been lowered somewhat on account of the prevalence of scarlet fever, whooping cough and measles, which epidemics have successively visited the district during the last year.

An enumeration of the children between the ages of five and sixteen, residing in the district, was taken last April. It was found that there were in the district at that time 129 boys and 116 girls, making a total of 245 resident pupils of school age. Another enumeration of the school children will be made by Special Officer Barrett before the first of April, 1900.

COURSE OF STUDY.

A new course of study was adopted at the beginning of the last fall term. It will not be possible the first year to meet with all the requirements of the course, especially in the higher grades. In the three primary grades they will, by the close of the next spring term, have completed the work prescribed, and we believe that by the close of another year all the grades will be working in strict conformity with the course. Those interested to examine the course of study can obtain a copy by applying to the secretary of the school board, or to the principal of the grammar school.

PROMOTION AND GRADUATION.

The matter of promotion in the several grades has been carefully supervised by the principal during the last year, and it is believed that only those who were able to do the work of the next higher grade satisfactorily were advanced. We believe that this is a matter that should be carefully attended to, as hasty promotion works an injury not only to the pupil thus advanced, but also a serious injury to the school in general. No pupil is to receive a certificate of graduation who has not successfully and satisfactorily completed the course laid down.

We believe that graduation from this school should, and furthermore we believe that it does, signify qualification to enter upon any high school course in the state. Since we are

dependent upon institutions outside of our district for instruction in high school branches, we consider it important that graduation from the Penacook grammar school signify some definite amount of work completed. And it is the policy of the school board, acting with the principal of the school, to graduate those only who have given satisfactory evidence of their ability to enter upon the work of any high school where they may apply for admission.

BOOKS, ETC.

The only change in books for the year was the adoption of Southworth & Goddard's "First Lessons in English" to be used in place of "Tarbell's Lessons in Language," in the fourth and fifth grades.

To meet with the requirements of the new course of study in the matter of reading and English the following books have been bought: "Stepping Stones to Literature," for third grade; "Hans Andersen's Fairy Tales," for fourth grade; Hawthorne's "Tanglewood Tales," for fifth grade; "Miles Standish" and "Snow Bound," for sixth grade; Hawthorne's "Tales of the White Hills," for seventh grade; and "Ivanhoe," "Webster's First Bunker Hill Oration," and "Selections from Whittier, Emerson, Holmes and Bryant," for the eighth grade.

The teachers of the first and second primary and the first grammar and second grammar rooms, assisted by the pupils in those rooms, have been able, through the generous contributions of parents and citizens of the district, to place three valuable libraries in the building without expense to the district, consisting each of thirty volumes of instructive and interesting reading matter adapted to the mental attainments of the pupils in the respective rooms.

In closing we would thank the public for the interest and encouragement they have given, and for their coöperation with us in what we have undertaken.

IRA C. PHILLIPS,
OSCAR E. SMITH,
Board of Education.

REPORT OF TOWN SCHOOL DISTRICT.

The members of the school board are unanimous in the opinion that the past school year has been a prosperous one. The examination exercises in nearly every school indicated, at the least, a reasonable degree of advancement. Labor is valuable only as it produces valuable results. This is as true of work performed by teachers as it is of labor in any other calling.

The faithful teacher who is thoroughly equipped for her duties is the one whose service is always in demand.

We have been fortunate in obtaining good teachers, and it is hoped that nearly all of them will resume their work at the commencement of the spring term.

With two hundred and twenty-two scholars who have attended school not less than two weeks during the year, we have supported eleven schools. Two of these schools have been maintained during the latter part of the year, for the benefit of four pupils in each school.

Though the intent of the present school law was to centralize such schools, its application in every case is not as practicable as could be desired. The four scholars at Ashville could be conveyed to Millville at much less expense, probably, than would be required to maintain a separate school and it is likely some such arrangement will be made.

The location of the school at Turtletown with reference to other schools in the eastern section of the district, would render the task of conveying pupils expensive and unsatisfactory.

The question, "Shall we employ a teacher of vocal music to teach singing in schools where there is enough musical talent to make the effort justifiable, and where the teacher is unable to teach music?" is before the people of the district.

We are in sympathy with any reasonable movement tending to develop a taste for music, believing a short daily exercise

is beneficial, even to those who cannot participate in it. About half of our teachers can teach singing as usually taught in common schools.

Whether or not the voters of the district will make an appropriation for the benefit of those schools not favored with such teachers, is a question to be decided at the annual meeting.

Three or four of our school-houses will need repairs before the commencement of the spring term. It is probable that all necessary repairs will not require more than the average yearly outlay for this purpose.

The amount expended for books and supplies during the past two years has been much above that of the average year, and above what we anticipate for the current school year. The average extra appropriation, together with the amount of money required to be raised by law, ought to meet all our requirements for the coming year.

ALBERT SALTMARSH,
GEORGE T. ABBOTT,
FALES P. VIRGIN.

TREASURER'S REPORT.

The treasurer of the Town School District, respectfully submits the following statement of the receipts and expenditures for the year ending March, 1900 :

RECEIPTS.

Balance March, 1899	\$240.51
